JOINT CONVENTION.

The Select Council being introduced, and Select and Common Councils being assembled in Joint Convention,

Mr. Smith (President of Select Council) in the chair,

Who announced that the Convention had assembled for the purpose of electing a City Controller for the unexpired term of Robert E. Pattison, Esq., and declared nominations to be in order.

Mr. Banes (of Select Council)

Presented the following protest :

Philadelphia, January 17, 1883.

The undersigned, members of Select and Common Councils, respectfully decline to join in an election of Controller

by this Convention, because they are of the opinion that that office is a County and not a City office, and that the power to fill a vacancy existing therein rests with the Governor of the Commonwealth and not with this Convention.

JNO. L. GRIM,	EDWARD MATTHEWS,
JOSEPH GRIM,	JOHN BRADY,
RODGER MAYNES,	CHAS. F. ISEMINGER,

W. H. H. DAVIS,	MICHAEL O'ROURKE,
C. D. JAMES,	WM. McMULLEN,
T. C. ELSE,	PHILIP MITTON,
SAMUEL K. FELTON.	

I heartily concur in the above, having expressed the opinion in June last that the Controller is a County officer, and given my reasons therefor.

A. HALLER GROSS.

I am of the opinion that this office is a County office, and is a salaried office by Act of Assembly.

C. H. BANES.

Mr. Evans (of Select Council)

Mr. Lex (President of Common Council)

Presented the following communication :

Philadelphia, February 8, 1883.

To the Presidents and Members of
Select and Common Councils.

GENTLEMEN :—Learning from the morning papers that at a conference of the members of Councils held last evening, I had received the very flattering unanimous vote of the members present, for the position of Chief Engineer of the Water Department.

I feel it necessary, in order that there may not be any misunderstanding, embarrassment, or delay, to inform your honorable body, that even if I should obtain the necessary votes of your Joint Convention to be held to-day, to ensure my election, I would be obliged most respectfully to decline the acceptance of the position.

I feel sincere gratification at the confidence exhibited, and the high honor conferred by the unsought nomination, but I have long since decided that I would not again assume duties of the very important and responsible office.

With hearty thanks for the appreciation shown by the action of the conference.

I remain, very respectfully, your humble servant,

FRED. GRAFF.

Mr Bardsley (of Common Council)

Moved that the election of a Chief Engineer of the Water Department be postponed till Thursday afternoon next, at 3½ o'clock.

JOINT CONVENTION.

The members of Select Council being introduced, and the Select and Common Council being assembled in Joint Convention, pursuant to adjournment,

Mr. Smith (President of Select Council) in the chair,

Who announced that the Convention had assembled pursuant to adjournment for the purpose of electing a Chief Engineer of the Water Department and Commissioner of Markets and City Property for the term of three years.

William Ludlow having been nominated at the last meeting for Chief Engineer of the Water Department,

The President

Announced that nominations were still in order for Chief Engineer of the Water Department.

The President

Presented the following communication :

Philadelphia, February 15, 1883.

MR. W. B. SMITH, ESQ.,

President of Select Council,

DEAR SIR:—The *Press* of to-day publishes a column of false statements to injure me before Councils; in view of which I ask to be heard before Councils to-day, to deny publicly these false statements.

Yours truly,

T. SHAW, M. E.

Mr. McCormick (of Common Council)

Presented the following affidavit :

“Thomas Shaw, being duly sworn according to law, deposes as follows: That his attention is called to a public statement printed in *The Press* of to-day's issue, headed ‘Shaw's Perkiomen Job.’ That he denounces the statement therein contained as false and malicious representations, published within a few hours of the time of election for a Chief of the Water Department, for the purpose of affecting his candidacy for the position.

“I deny expressing to Charles Henry Lex charges of any character against Col. Wm. Ludlow, or that any person was authorized to state I made such charges. I deny absolutely any such interview printed in said statement as having taken place with Jacob Grim, Esq. I admit an interview with the gentleman, but the circumstances are the reverse of the statement as published, and was of a pleasant character, and there were no such insinuations as contained in said published statement. I deny and condemn the insinuations published as tending to totally misrepresent what I did say, for the purpose of placing me in a false position before the Councils of Philadelphia. I cannot believe that portion of said statement reputed as coming from Frederick Graff was made by him, for I positively deny that any such conversation as reported took place. That in my interview with Mr. Graff no such language was used as reported, nor could such construction be placed upon it. I absolutely deny and brand as false and malicious the general statements as contained in said published

statement, viz.: That the Water Department used my propelling pumps at a cost to the City of many thousands of dollars, or that Dr. McFadden was ever asked or refused to permit experiments at my suggestion, or in my behalf, or that he ever made any, or has used any of my pumps to my knowledge. The fact of my having been on the bond of Chief McFadden is true, and is a matter of record, and was done at the time McFadden first went into the Department, and I was released from said bond several years ago. I deny as absolutely false and malicious the statement of W. Ellwood Rowan as contained in said published statement.

“I admit I am an owner of property in Montgomery county at a point I think worthy of consideration in the question of a future water supply, and I have been frank to state this fact to all members of Councils with whom I have discussed the matter, and when before the Chairman of Conference Committee I mentioned this fact among my first statements in order that I should not be placed in any false light before them. I have held this property from contamination for over ten years, and should I be elected, and this system determined upon, I should hold it for the benefit of the City without detriment to public interests, or sell the same at public sale to avoid entanglements. I absolutely deny any such language as contained in said statement, viz: ‘That I was so firmly wedded to the Perkiomen scheme for future water supply that unless it was accepted I could be of no use in the Department.’

“I deny any intention of attempting to traduce the character of Col. Wm. Ludlow, as contained in said statement. My acquaintance with Mr. Ludlow is very slight, and I deplore the fact that a reputable newspaper will descend to personalities from indefinite rumors, during the heat of a campaign, to aid their cause in a canvass for public office.

THOS. SHAW.”

Sworn and subscribed to this 15th
day of February, 1883.

[SEAL.] · EZRA LUKENS,
Magistrate.

APPENDIX No. 2.

MAYOR'S OFFICE,

Philadelphia, October 5, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—I herewith transmit a communication from George L. Harrison, together with his report to Governor Hoyt, of the mission to England relative to the proposed removal of the remains of William Penn, for your information.

Respectfully yours,

SAMUEL G. KING,
Mayor of Philadelphia.

Philadelphia, September 27, 1882.

To the HON. SAMUEL G. KING,
Mayor of Philadelphia.

DEAR SIR:—On the 14th day of June, 1881, the Councils of the City passed the following resolution, in pursuance of a message from your Honor, and also of the action of the State Legislature, and His Excellency the Governor, who had commissioned me to proceed to England, “to make arrangements with the heirs and other friends to have the remains of William Penn conveyed to this City.”

“Resolved by the Select and Common Councils of the City of Philadelphia, That we approve of the action of our State authorities, and do hereby request and authorize His Honor the Mayor to issue, under the Corporate Seal, a Commission to George L. Harrison to represent this City in the matter herein referred to.”

As the Legislature of the State would not meet after the completion of my mission until January, 1883, the Governor, who appointed me his representative in the service mentioned, consented to the postponement of my formal report until this time, having handed to him, as also as to your Honor, an account of my proceedings, which gave adequate information of the facts of the case.

Having now presented my official report to the Governor, and received his acknowledgment, I beg leave respectfully to hand to your Honor copies of the same for your own information and that of the Councils of Philadelphia, who honored me with a commission to represent the City in the service already referred to.

I am most respectfully yours,

GEORGE L. HARRISON.

APPENDIX No. 3.

RESOLUTION

Of thanks to George L. Harrison.

WHEREAS, The Select and Common Councils did, on the 14th day of June, 1881, authorize the Hon. Samuel G. King, Mayor of the City of Philadelphia, to issue a commission to our worthy fellow-citizen, George L. Harrison, to represent the said City in a mission to England, relative to the removal of the remains of our distinguished ancestor, William Penn; and

WHEREAS, The Commissioner has performed the delicate duties assigned to him in a manner reflecting honor upon the City and State; therefore

Resolved by the Select and Common Councils of the City of Philadelphia, That George L. Harrison, having finished his public-spirited and patriotic mission and made report thereon, is entitled to thanks for his able and arduous services as Commissioner in the matter of removing the remains of the illustrious Penn from England to America — from “Jordans Meeting-house burial-ground” to Philadelphia.

Resolved, That the Clerks of Councils furnish a copy of this resolution to George L. Harrison, Esq.

APPENDIX No. 4.

RESOLUTION

Of instruction to the Chief Engineer and Surveyor relative to overflow of water at York and Emerald, and other streets.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Chief Engineer and Surveyor is hereby requested to inform Councils at their next meeting what can be done to relieve the overflow of water at York and Emerald and Taylor and Coral streets, in the Thirty-first Ward, and the estimated cost of the same, and how much of the cost will fall on the City.

DEPARTMENT OF HIGHWAYS, BRIDGES AND SEWERS.

Philadelphia, October 5, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—The steps on Colton, Centre, and Grape streets, Manayunk, Twenty-first Ward, are in a dilapidated condition, and so far gone that they are unfit to repair, and will require to be entirely renewed.

As the Department is without the means for doing the above work, I refer the matter to your honorable bodies for such action as the case demands.

Yours respectfully,

WILLIAM BALDWIN,
Chief Commissioner of Highways.

APPENDIX No. 6.

DEPARTMENT OF HIGHWAYS, BRIDGES, AND SEWERS.

Philadelphia, October 5, 1882.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—Herewith please find communication relative to wooden trunk on Vienna street, east of Beach street, which will explain itself. I have made a personal examination of the matter, and find the conditions as represented, and demanding some prompt action. I therefore refer the matter to your honorable bodies, and ask its reference to the proper committee.

Very respectfully,

WILLIAM BALDWIN,
Chief Commissioner of Highways.

Philadelphia, October 5, 1882.

SIR:—We, the undersigned, beg to call your attention to the condition of Vienna street sewer east of Beach street. A wooden trunk was laid some thirty years ago, and is now thoroughly rotted out. It has been patched up from time to time, and has been in a bad condition for a long time. The street has caved in several times and the late heavy rain storm caused a serious break. This sewer only extends to a temporary bulkhead at the original low-water mark. The dock has been filled up by the deposit from the sewer to within thirty feet of the Port Warden's line, and at low tide a flat of 450 feet by 130 feet is laid bare and exposed to the action of the sun and air. The stench arising from this flat is simply unbearable and has been the occasion of much sickness amongst our workmen.

We respectfully suggest that to again patch up this wooden trunk for 125 feet would be a wasteful expenditure of the City's money.

We pray that you will give this matter immediate attention and cause to be taken such necessary steps as will afford speedy relief. We are subjected to much loss from the existing condition of affairs, and the health of the neighborhood imperiled.

We are, sir, your most obedient servants, and will ever pray, etc.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—We, your Committee on Surveys and Regulations, to whom was referred the accompanying ordinance to strike Bath street from the City plan, from Kettlewell to Tioga street, beg leave to report that said Bath street has been laid down on the City plan 50 feet wide parallel to and at the distance of 700 feet from Richmond street, extending from William street to Bridesburg in the Twenty-fifth Ward, a distance $2\frac{1}{2}$ miles, only one-fifth of which has been actually opened on the ground. This section is adapted for manufacturing purposes, requiring large blocks of ground. There being a railroad track on Tioga street leading to the Richmond gas works, a large paper manufacturing establishment has been located on the south side of the street, on both sides of said Bath street. They are now erecting buildings but have not sufficient space on each side of the street to carry out their extensive plans without the vacating of said Bath street. The

developing of manufactories in this section will be greatly to the advantage of it and the City generally by extending the employment of workmen, etc., and we recommend the adoption of an ordinance to revise plan as provided for in the ordinance.

AN ORDINANCE

To vacate Bath street, in the Twenty-fifth Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Surveys be and is hereby authorized to vacate Bath Street, between Tioga and Kettlewell streets, in the Twenty-fifth Ward.

APPENDIX No. 19.

Philadelphia, October 5, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—Your Committee on Surveys, to whom was referred the consideration of the construction of a sewer on the line of old Cohocksink creek, report the necessity for said sewer and ask for the passage of the following ordinance.

WALTER E. REX, <i>Ch'n</i> ,	WILLIAM McMULLEN,
CHAS. A. KAUFFMAN,	JAS. R. GATES,
JOS. L. JONES,	EDWARD W. PATTON,
A. ATWOOD GRACE,	JOHN G. BROOKE,
CHARLES LAWRENCE,	WILLIAM THORNTON,
MICHAEL O'ROURKE,	JAMES WHITAKER,
JOHN McCULLOUGH,	JNO. A. HOUSEMAN,
EDWARD MATTHEWS.	

AN ORDINANCE

To authorize the construction of a sewer on Canal street (old Cohocksink creek), from Delaware avenue to Laurel street, in the Eleventh and Sixteenth Wards.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Chief Commissioner of Highways is hereby authorized and directed to enter into a contract with competent mechanics for the construction of a sewer on Canal street (old Cohocksink creek), from Delaware avenue to Laurel street, in the Eleventh and Sixteenth Wards.

SEC. 2. That it shall be the duty of the Chief Engineer and Surveyor to prepare plans and specifications for said sewer, and that the contract entered into for the construction thereof shall be in accordance with such plans and specifications.

SEC. 3. That before entering into the said contract the Chief Commissioner of Highways shall cause advertisements to be made for sealed proposals for the construction of the sewer at a specific sum per lineal foot; that the total cost of said sewer shall not exceed the estimates of the Chief Engineer and Surveyor for the work to be done, and that the contract therefor shall be awarded by him to the lowest and best bidder, who shall agree to keep said sewer and street in repair for three years after its completion; and no contract therefor shall be binding on the City of Philadelphia until the same shall have been authorized by these Councils.

SEC. 4. That no proposal for the construction of the said sewer shall be considered by the said Chief Commissioner of Highways, unless accompanied by an engagement in writing from two or more sufficient securities, guaranteeing the faithful execution of the contract in case such proposal be accepted.

SEC. 5. That as the work of said sewer shall progress there shall be assessed and charged upon the properties in front of which the same shall be completed the sum of one (1) dollar

and fifty (50) cents for each lineal foot of the front of said properties.

SEC. 6. That it shall be a condition of such contract that the contractor shall accept the sums so assessed and charged under the foregoing section of this ordinance in part payment of his contract price, and that he shall collect the same at his own cost; and the better to enable him so to do he may use the name of the City of Philadelphia and employ all legal remedies or proceedings, whether of lien or otherwise, to which the said City may be competent.

SEC. 7. That payments may be made while the work of constructing the sewer is in progress by the Chief Commissioner of Highways in warrants upon the City Treasurer charged to Item 2 of the appropriation to the Department of Highways out of surplus, said payments in all cases to be made upon certificate of the Chief Engineer and Surveyor, estimating the amount of work done: *Provided*, That for all current estimates no payments shall exceed four-fifths of the money meritoriously earned under said contract after deducting the ratable proportion of the assessments referred to in section 5 of this ordinance.

SEC. 8. Satisfactory evidence shall be furnished by the contractor to the Chief Commissioner of Highways that full payment has been made for all labor done and materials furnished previously to drawing a warrant for the final estimate of any work done by virtue of this ordinance, and the Chief Commissioner of Highways shall require full and entire payment by the contractors of all labor and materials on account of such work, and the said Commissioner shall give one month's notice in two daily newspapers of the time at which final payment will be made on final estimate: *Provided, however*, That the total sum to be paid as provided in section 7 of this ordinance shall not exceed the amount of twelve thousand (12,000) dollars.

DEPARTMENT OF SURVEYS,

Philadelphia, October 3, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—We, your Committee on Surveys and Regulations, to whom was referred the accompanying Ordinance to extend Mill Creek sewer, in the Twenty-fourth Ward, beg leave to report, that they have carefully considered the subject, a sub-committee having visited the place, and they report that there is great necessity for the work to be done, because improvements have extended close up to both sides of the valley of Mill Creek, and the streets cannot be opened and made passable until the creek is culverted. We consider it an urgent case, and recommend the passage of the ordinance annexed.

WALTER E. REX, <i>Ch'n</i> ,	WILLIAM McMULLEN,
CHAS. A. KAUFFMAN,	JAMES R. GATES,
JOSEPH L. JONES,	EDW. W. PATTON,

MICHAEL O'ROURKE,	JAMES WHITAKER,
JOHN McCULLOUGH,	JNO. A. HOUSEMAN,
EDWARD MATTHIAS	

AN ORDINANCE

To authorize the extension of Mill Creek sewer, in the Twenty-fourth Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Chief Commissioner of Highways is hereby authorized and directed to enter into a

contract with competent mechanics for the extension of Mill Creek sewer, on Forty-seventh street, from about one hundred and fifty feet north of Aspen street southward one thousand feet, more or less, with such trenches as may be necessary to divert Mill Creek, in the Twenty-fourth Ward.

SEC. 2. That it shall be the duty of the Chief Engineer and Surveyor to prepare plans and specifications for said sewer, and that the contract entered into for the construction thereof shall be in accordance with such plans and specifications.

SEC. 3. That before entering into said contract the Chief Commissioner of Highways shall cause advertisements to be made for sealed proposals for the construction of the sewer at a specific sum per lineal foot; that the total cost of said sewer shall not exceed the estimates of the Chief Engineer and Surveyor for the work to be done, and that the contract therefor shall be awarded by him to the lowest and best bidder, who shall agree to keep said sewer and street in repair for three years after its completion; and no contract therefor shall be binding on the City of Philadelphia until the same shall have been authorized by these Councils.

SEC. 4. That no proposal for the construction of said sewer shall be considered by the said Chief Commissioner of Highways, unless accompanied by an engagement in writing from two or more sufficient sureties, guaranteeing the faithful execution of the contract in case such proposal be accepted.

SEC. 5. That as the work of said sewer shall progress there shall be assessed and charged upon the properties in front of which the same shall be completed, the sum of one (1) dollar and fifty (50) cents for each lineal foot of the front of said properties.

SEC. 6. That it shall be a condition of such contract that the contractor shall accept the sums so assessed and charged under the foregoing section of this ordinance in part payment of his contract price; and that he shall collect the same at his

own cost; and the better to enable him so to do he may use the name of the City of Philadelphia and employ all legal remedies or proceedings, whether of lien or otherwise, to which the City may be competent.

SEC. 7. That the payments may be made while the work of constructing the sewer is in progress by the Chief Commissioner of Highways in warrants upon the City Treasurer charged to Item 2, of Appropriation to the Department of Highways out of surplus, said payments in all cases to be made upon certificate of the Chief Engineer and Surveyor, estimating the amount of work done: *Provided*, That for all current estimates no payments shall exceed four-fifths of the money meritoriously earned under said contract after deducting the ratable proportion of the assessments referred to in section 5 of this ordinance.

SEC. 8. Satisfactory evidence shall be furnished by the contractor to the Chief Commissioner of Highways that full payment has been made for all labor done and materials furnished previously to drawing a warrant for the final estimate of any work done by virtue of this ordinance, and the Chief Commissioner of Highways shall require full and entire payment by the contractors of all labor and materials on account of such work, and the said Commissioner shall give one month's notice in two daily newspapers of the time at which final payment will be made on final estimate: *Provided, however*, That the total sum to be paid as provided in section 7 of this ordinance shall not exceed the amount of thirty-four thousand (\$4,000) dollars.

APPENDIX No. 21.

Philadelphia, October 3, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys and Regulations, to whom was referred the accompanying ordinances and petitions for sewers, beg leave to report, that the locations have been examined by the Board of Surveys, who

approve the construction of egg-shaped or oval sewers as located. From the reports of the Board we find that the aggregate length of said sewers will be 13,662 feet, costing to the property owners upon the lines thereof \$30,800, and to the City not exceeding \$11,500. We respectfully ask the adoption of the ordinance herewith for their construction.

DEPARTMENT OF HIGHWAYS, BRIDGES, AND SEWERS.

Philadelphia, October 17, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—I yesterday opened bids for the construction of the extension of the Cohocksink main sewer. The lowest bid is one thousand six hundred (1,600) dollars in excess of the amount limited in the ordinance authorizing said work. As the same is important, and should be done at an early day, the attention of your honorable bodies is called to the matter to take such prompt action as the case demands.

Yours respectfully,

WILLIAM BALDWIN,
Chief Commissioner of Highways.

APPENDIX No. 26.

RESOLUTION

To direct the Chief Commissioner of Highways to grant certain permits to the Landing Committee of the Bi-Centennial.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Chief of the Highway Department be and is hereby directed to issue permits to the Landing Committee of the Bi-Centennial Association to erect a fruit column in front of the Exchange—to set an Indian Camp at the intersection of Granite and Dock streets, and to locate a stand for the Municipal authorities and invited guests on Dock street at a place to be located by the Council Committee.

J. W. PATTON,	S. S. HOLLINGSWORTH,
S. DAVIS PAGE.	

To the Chairman and Members
of the Finance Committee.

GENTLEMEN :—Your Sub-Committee on Tax Office Investigation have frequently had before them applications from citizens for relief from the lien of tax claims in cases where the taxes were paid and the receipts therefor produced, but no evidence of payment existed on the books of the Tax Office.

Your Committee feel that they have no power to authorize satisfaction of such claims, but are desirous of affording a means of speedy relief to the parties injured by providing a tribunal for hearing their cases. The accompanying ordinance has been considered by the Committee, and the Board of Revision of Taxes therein named has consented to act if Councils approve it, and we therefore ask that it be reported to Councils with a favorable recommendation.

WALTER E. REX, *Ch'n*, J. W. PATTON,
GEORGE R. SNOWDEN.

AN ORDINANCE

To authorize satisfaction to be entered in certain cases of taxes which appear to be delinquent.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Board of Revision of Taxes be and they are hereby authorized to hear applications of tax payers in all cases in which taxes are alleged to have been paid to the City of Philadelphia and through error or fraud the same have not been credited to the proper premises. If said Board be satisfied by the production of tax receipts, records, affidavits, or other proof that any property should not be held liable for delinquent taxes thereon then said Board shall certify to the Collector of Delinquent Taxes that the taxes returned against such property have been paid; and said Collector shall thereupon be authorized and directed to enter satisfaction in such case upon the "Register of Unpaid Taxes" as well as upon the record in any Court in which a lien or judgment may have been filed or entered against the property mentioned in said certificate.

Philadelphia, October 9, 1882.

To the Committee on Finance.

GENTLEMEN:—The Sub-Committee to whom was referred the communication from the Chief Commissioner of Highways enclosing a writ of peremptory mandamus directing the immediate repair of Germantown avenue, from Gorgas lane to

the County line; also an ordinance to macadamize Germantown avenue between the points named, respectfully report that they visited the locality, and recommend that the Committee report an ordinance to make an appropriation of forty thousand (40,000) dollars, from Item 3 of the ordinance of June 21, 1882, appropriating the surplus revenue, to macadamize Germantown avenue, from Gorgas lane to the intersection of said avenue with the Chestnut Hill and Spring-house turnpike, in the Twenty-second Ward of said City, the City to be at no additional cost above the forty-thousand (40,000) dollars. The Committee also report that the avenue, from the intersection to the County line, is in a good condition, and recommend that the Chief Commissioner of Highways keep that portion of the avenue in good condition, chargeable to item for repairs in the annual appropriation to the Department of Highways for 1882.

Respectfully submitted,

WALTER E. REX, <i>Ch'n</i> ,	GEORGE R. SNOWDEN,
JOHN W. PATTON,	THOS. GREEN,
JOHN P. WOOLVERTON.	

AN ORDINANCE

To authorize the macadamizing of Germantown avenue, from Gorgas lane to the intersection of said avenue with Chestnut Hill and Spring-house turnpike, in the Twenty-second Ward of said City.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Chief Commissioner of Highways be and is hereby authorized and directed to enter into a contract with a competent pavior or paviors for the macadamizing of Germantown avenue, from Gorgas lane to the intersection of said avenue with the Chestnut Hill and Spring-house turnpike, in the Twenty-second Ward of the said City. Said work shall be done in accordance with plans and specifications prepared by the said Chief Commissioner of Highways; and it shall be a condition of the contract that the contractor or contractors shall collect the cost of said pave-

ment, over and above the sum of forty thousand (40,000) dollars, from the owners of property fronting on said avenue between the points named, proportionately to the frontage of their respective properties, and shall also enter into an obligation to the City to keep said avenue in good repair for three years after the paving is finished. The sum of forty thousand (40,000) dollars is hereby set apart, appropriated out of and made chargeable to Item 3 of an ordinance to make an appropriation (out of surplus cash in Treasury, 1880 and 1881, to the Departments of Water, Highways, and Police, and the Board of Public Education, approved June 21, 1882): *Provided*, The Chief Commissioner of Highways first advertise for proposals for paving said avenue as aforesaid, and award the contract to the lowest bidder, and that the owners of property on said avenue shall not be charged more than the contract price: *Provided, further*, That the City shall not, in any event or under any circumstances, be liable to pay for the said paving, or any part thereof, except the forty thousand (40,000) dollars, provision for the payment of which is heretofore made, and that the said contractor or contractors shall execute with the City a contract containing such condition as will, in the opinion of the City Solicitor, secure the intention of this ordinance and fully protect the City from any payment or expenditure beyond the said forty thousand (40,000) dollars.

AN ORDINANCE

To authorize the Chief Engineer of the Department for Supplying the City with Water to sell certain old boilers at the Delaware works.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Chief Engineer of the Department for Supplying the City with Water be and he is hereby authorized to sell to Thomas Gamon the old boilers, brickwork and fittings, at Delaware works, not required by the Department. The said Thomas Gamon agreeing to pay for wrought iron sixty one-hundredths ($\frac{60}{100}$) cents per pound, and for cast iron forty-five one-hundredths ($\frac{45}{100}$) cents per pound, he being the highest bidder. It is understood as a part of this ordinance that the purchaser is to remove such of the old iron and brickwork as may not be needed without extra compensation.

Philadelphia, October 17, 1882.

To the Select and Common
Councils of the City of Philadelphia.

GENTLEMEN:—The Committee on Finance respectfully report that they have considered an ordinance to make an appropriation of twenty-five thousand dollars for Bi-Centennial purposes, and for the reasons contained in the report of the Sub-Committee, hereto appended, submit the annexed ordinance to authorize certain transfers from Item 4 in the appropriation of the surplus cash in Treasury, 1880 and 1881, for the sub-structure of a stone bridge over the Schuylkill River

at Market street, to a new item in the appropriation for same year to the Clerks of Councils, and recommend its passage.

Philadelphia, October 9, 1882.

To the Chairman and Members
of the Committee of Finance.

GENTLEMEN:—Your Sub-Committee, to whom was referred an ordinance to make an appropriation of the sum of twenty-five thousand (25,000) dollars to the Bi-Centennial Association for the purposes of the coming celebration respectfully report that, after careful consideration of the question, they are convinced that the sentiment of the community is decidedly favorable to the granting of such an amount; the success of the entire celebration and the honor of the City demands that the programme designed and arranged for by the citizens voluntarily through their own contributions, should be sustained and assisted in recognition of its value to the business interests of the City, which will be greatly benefitted by its assured success, which such appropriation will surely guarantee.

The Association having charge of the celebration is composed of many of our most reputable and public-spirited citizens, under whose judicious co-operation with the Committee of Councils upon the Bi-Centennial there will be every opportunity to expend the sum named, thereby aiding in the proper carrying out of the programme decided upon.

The amount asked for can be taken from the sum that has been appropriated in the ordinance making an appropriation

of the surplus funds of the City to build a substructure for the Market street bridge, the sum set apart for that purpose being three hundred thousand (300,000) dollars.

It is safe to state that no portion of that amount will be expended this year. We are also advised and informed that, on the first day of January, 1883, there will be a further surplus in the City Treasury of about five hundred thousand (500,000) dollars. Twenty-five thousand (25,000) dollars could therefore be safely taken from Item 4, in the appropriation of the surplus, *with the direct understanding that said amount should be immediately replaced after the first of next year* out of the surplus of the present year, which will then stand to the credit of the City, as before stated.

Your Committee would have preferred not to have recommended the opening of any further consideration of the surplus as appropriated in the ordinance of June 2, 1882, but the importance of the present emergency is of such urgent a nature, and so fraught with the necessity for speedy and generous action, that they deem it perfectly proper to use the portion suggested from the item named, with the certain prospect of its repayment immediately after January 1, 1883.

The spirit which the National Government have displayed in ordering the entire North Atlantic squadron to rendezvous at this port, together with their action in ordering the proper military co-operations, are safe indications of the general interest taken in the celebration, and as the City has officially invited the President of the United States to witness the display, it is most eminently proper that the City whose illustrious career fills such an important part in the pageant should be not alone creditably but handsomely represented.

To secure this end you are therefore requested, in the name of public pride and patriotism, to give your speedy sanction to that which, being undone, will be a lasting disgrace and shame to the City. Let the official support aid and sustain those who certainly deserve it.

Your Sub-Committee therefore present the accompanying ordinance, and trust it may meet with your earnest consideration and unanimous approval, testifying to our desire to make

the celebration of the two hundredth anniversary of her foundation worthy of the great and good man who established a State where tolerance and liberty have ever since existed.

All of which is respectfully submitted by

WILLIAM B. SMITH, CHAS. F. ISEMINGER,
THOS. M. HAMMETT.

AN ORDINANCE

To authorize certain transfers from Item 4, in the appropriation of the surplus cash in Treasury, 1880 and 1881, for the sub-structure of a stone bridge over the Schuylkill River at Market street, to a new item in the appropriation to the Clerks of Councils for the year 1882.

SECTION 1 *The Select and Common Councils of the City of Philadelphia do ordain*, That the City Controller be and is hereby authorized and directed to make the following transfer, viz.: From Item 4, "To make an appropriation (out of surplus cash in Treasury, 1880 and 1881) to the Departments of Water, Highway, and Police, and the Board of Education," the sum of twenty-five thousand (25,000) dollars to a new item in the annual appropriation for the year 1882, to the Clerks of Councils, to be called Item No. 11, for the purpose of the proper participation of the City and the representation of the various Departments thereof in the Bi-Centennial celebration: *Provided*, That the amount appropriated as aforesaid shall be expended only by and with the consent of the Joint Committee of Councils on Bi-Centennial Celebration, who alone shall authorize and expend the said amount, and shall duly certify and approve all bills therefor.

APPENDIX No. 40.

DEPARTMENT OF SURVEYS,

Philadelphia, October 19, 1881.

WM. HENRY LEX, ESQ.

President of Select Council.

DEAR SIR:—I have been requested by resolution “to inform Councils what can be done to relieve the overflow of water at York and Emerald, and Taylor and Coral streets, in the Thirty-first Ward, and the estimated cost, and how much will fall on the City.”

I beg leave to make report that basins exist at both of those places and at many others in the Thirty-first Ward, with rising grades in all four directions, so that every rainfall which is in excess of the present sewer capacity causes the water to fill the depressions, often several feet in depth. The most direct relief can be obtained by building a main sewer along York street, from Coral street to the Aramingo canal, a distance of 4,000 feet. The estimated cost is \$60,000. The amount payable by the City \$52,000.

This subject was examined into by the Department several years ago, and plans and profile are in readiness when Councils shall determine to appropriate the money and authorize the work to be done.

Respectfully submitted,

SAM'L L. SMEDLEY,

Chief Engineer and Surveyor

APPENDIX No. 41.

RESOLUTION

In reference to sewer on Moore street and Snyder avenue, First Ward.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Chief Engineer and Surveyor be and is hereby requested to make an examination of the outlets or

mouths of the sewers on Moore street and also Snyder avenue and report to these Councils the condition of the same, it being said they are in great danger of destruction and that great expense will follow if any longer left in the condition they now are, as also the work necessary for their protection and cost of same, and insert said cost in an estimate for 1883 unless the work demands immediate attention.

APPENDIX No. 42.

RESOLUTION

To authorize the Sub-Committee on Highways on Investigation into alleged mismanagement of the Highway Department to employ a stenographer to take testimony.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Sub-Committee on Highways on Investigation into alleged mismanagement of the Highway Department be and they are hereby authorized and empowered to employ a stenographer to take the testimony of the witnesses produced before them. And that the costs be paid out of Item 7 of the appropriation to the Clerks of Councils for 1882. *Provided,* The cost thereof shall not exceed five hundred (500) dollars.

shape, and in accordance with specifications proposed by the Chief Engineer and Surveyor, with an inside diameter of three feet.

SEC. 2. The Chief Commissioner of Highways shall advertise according to law, announcing that bids will be received for the sewer above designated, and he shall allot the same to the lowest bidders, and it shall be a condition of the contracts that the contractors shall keep the said sewer and that portion of the street along which the said sewer shall be laid, in good order and repair for three years from and after the date of the completion of the said sewer, and shall accept the sums assessed upon and charged to the properties lying on the lines of said sewer in manner and form authorized by ordinance entitled "An Ordinance regulating the assessment upon property for the construction of branch culverts or drains," approved May 12, 1866, and supplement thereto, approved February 16, 1869; any excess over and above said assessment, in addition to that provided for by ordinance entitled "An Ordinance authorizing the Chief Commissioner of Highways to draw warrants for street intersections, manholes, and legal deductions in the construction of branch sewers," approved April 3, 1868, to be charged to Item (for branch sewers) of annual appropriation made to the Department of Highways for the year 1882: *Provided*, Said excess does not exceed the sum of three hundred and sixty (360) dollars.

APPENDIX No. 50.

Philadelphia, October 17, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys and Regulations, to whom was referred the accompanying ordinance to strike Ployd street, in the Twenty-second Ward, from the City plan, beg leave to report that the placing of this street

upon the plan was authorized, but has never been consummated by the action of the property owners indemnifying the City. We therefore recommend the passage of an ordinance to withdraw the authority conferred.

AN ORDINANCE

To repeal an ordinance to place Ployd street upon the City plan.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That whereas the provisions of an ordinance approved December 31, 1880, and of a supplement thereto of the 16th day of June, 1881, have not been fulfilled, causing uncertainty as to the existence of the said street and detriment to the adjoining properties; therefore, that the ordinance entitled "An Ordinance to place Ployd street, in the Twenty-second Ward, upon the plan of the City," approved December 31, 1880, with its supplements or amendments, be and the same is hereby repealed.

APPENDIX No. 51.

Philadelphia, October 17, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—We, your Committee on Surveys and Regulations, to whom was referred the accompanying ordinance to

place streets, in the Twenty-first Ward, upon the public plan of the City, beg leave to report that the said streets were set apart for public use since 1834, and have become recognized thoroughfares; we therefore recommend the passage of the accompanying ordinance, with the proviso, that the City be at no cost for the ground.

AN ORDINANCE

To place Centre, Church, Clay, and Baldwin streets upon the public plan of the Twenty-first Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Surveys be and is hereby authorized to place upon the City plan of the Twenty-first Ward Centre street, from Webster street to Wood street; Clay street, from Centre street to Leverington avenue; Church street, from Webster street to Clay street, and Baldwin street, from Wood street to Hamilton street: *Provided*: That the City shall not be liable in land damages by reason of the passage of this ordinance.

APPENDIX No. 52.

Philadelphia, October 14, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—The undersigned, having been appointed by his Honor the Mayor, in conformity with the ordinance approved June 7, 1882, authorizing him to appoint a Board of Experts, to “report to Councils the methods pursued in

the Water Department, together with their recommendations of what should be done for the present and future supply of the City, with such itemized estimates as will enable the cost to be determined," have the honor to state, that they met September 19th, and have been continuously engaged in examining and studying the subject; that the problem presented to them is of so large, complex, and important a character, that they are unable at this time to report upon the future supply; but that their examinations thus far have revealed a condition of affairs in regard to the present supply of water to the City which does not justify delay upon their part in presenting this partial report for the consideration of your honorable bodies.

They find that in supplying the lower levels of the City the existing machinery has been worked to its utmost capacity; that at the two largest steam works there is no spare machinery, and in two others the whole supply depends upon one engine in each. They also find that at the rate of annual increase in largest consumption of the past year (which is about eleven (11) million gallons daily) there will not be enough pumping power to sufficiently supply, during the driest seasons of next year, an area which contains two-thirds of the population, while in 1884 there will be a short supply throughout almost the whole City.

Nor can an abundant flow of water in the Schuylkill be relied on to avert this catastrophe next year; for not only is such a flow, when it is most needed, unlikely, but the amount which could then be furnished by the Fairmount wheels is to the lower levels only, and would be entirely inadequate to supply the deficiency.

Indeed, the time has come, when it is necessary to face the fact that during periods of least flow of water, which are also those of greatest consumption, the water power at Fairmount is practically unavailable.

It is also to be noted that machinery is not always in good working order. Pumping engines and boilers must be stopped for repairs, and accidents occur to engines and pumps, and from breakage of mains. For these reasons it is customary in other cities, where there is abundant reservoir capacity, to add at least one-third to the pumping power which is ordinarily needed at periods of the greatest consumption.

Your Board regard the following named machinery and appliances as imperatively needed for the supply of water to the City in the summer of 1883. In their opinion, none of them can be dispensed with, except at the risk of serious results, in the localities supplied by the specified pumping stations.

I. FOR SCHUYLKILL WORKS.

Two (2) Fifteen million gallon engines to pump, one against 150 feet, one against a higher head,	\$96,000
Two (2) ranges of boilers and connections,	60,000
Two forcing mains,	30,000
Completing 48-inch main partly laid,	14,000
Boiler and engine house,	40,000
Foundation for same,	10,000
Total,	<hr/> \$250,000

II. FOR ROXBOROUGH WORKS.

One (1) seven and a half million gallon engine, . to pump against 360 feet head, with forcing main in house,	\$50,000
Removing old and substituting two boilers and connections,	7,000
New inlet, screen, and dredging,	3,000
Total,	<hr/> \$60,000
Distributing main to supply Germantown, from Mt. Airy Reservoir to Manheim, on Green,	\$70,000

III. FOR FRANKFORD WORKS.

One (1) Ten million gallon engine and connec- tions, to pump against 200 feet,	\$45,000
---	----------

As to the character of the machinery to be obtained the estimates given for the engines refer to the "Worthington Compound Duplex," which the Board consider to be reliable, comparatively free from liability to serious accident, not expensive in first cost and maintenance, and fairly economical in fuel. To supply an emergency like the present, where time for construction and erection is extremely short, they know of no other type which, on the whole, presents so many advantages.

In regard to boilers, they recommend and have estimated for the cylindrical, tubular at Roxborough Works, like those just bought; and for Schuylkill Works marine tubular boilers, which although of greater first cost, present, certain important advantages in preparing for an emergency, and are at least equal to the others in economy of fuel and repairs.

Your Board have reason to believe that if the above recommendations are adopted, and contracts for the machinery are entered into before December 1st next, that two of the engines can be used by June 1, 1883, and the other two by August 1st of the same year, although the time is short, both for consideration of the subject, and the execution of the work.

Your Board are satisfied of the great importance of an early completion of the East Park Reservoir, entire, with its connecting, forcing, and distributing mains; and of building a reservoir at Cambria and 30th street; and of adding to that at Mount Airy. For both of the latter land should be acquired at once. All of them are needed now, and will ultimately form proper centres of distribution, whatever may be the permanent source of supply for the City.

The importance of reservoirs is due not only to the necessity for subsidence, but also to guard against the results of serious accidents, such as the experience of this and other Cities shows are liable to occur.

The appropriations for these reservoirs are next in importance to those for the machinery, for which estimates have been given.

Expenditures under such appropriations would extend over a period of at least three years, 1883 to 1885. The following estimates of probable cost are believed to be sufficiently accurate to be a basis for appropriation.

I. EAST PARK RESERVOIR AND CONNECTIONS.

Completing two basins,	\$400,000
“ the third basin,	300,000
Forcing mains,	126,000
Distributing mains,	371,200
		<hr/>
Total,	\$1,197,200

II. CAMBRIA RESERVOIR AND CONNECTIONS.

Land, say,	\$100,000
150,000,000 gallon reservoir,	375,000
Forcing and connecting mains,	240,000
Distributing main (one),	105,000
		<hr/>
Total,	\$820,000

III. MT. AIRY RESERVOIR.

Land, say,	\$25,000
75,000,000 gallon reservoir,	225,000
		<hr/>
Total,	\$250,000

Of these amounts there should be expended—

In 1883, at East Park, finishing small basin and	.	
work on others,	\$372,500
Cambria, land and work,	200,000
Mount Airy, land and work,	75,000
		<hr/>

Total, first year,	\$647,500
--------------------	-----------	-----------

In 1884, at East Park, finishing second basin and		
work on other, and main,	\$340,000
Cambria, work on basin and main,	325,000
Mount Airy, work on basin,	100,000
		<hr/>

Total, second year,	\$765,000
---------------------	-----------	-----------

In 1885, at East Park, finishing basin and mains,		\$484,700
Cambria, “ “ “	295,000
Mount Airy, “ “	75,000
		<hr/>

Total, third year,	\$854,700
--------------------	-----------	-----------

In considering the question of "present supply," it should be borne in mind that at least five years must elapse before a gravity system, such as contemplated by the Perkiomen or Delaware projects, could be accomplished. At least one year would be spent in making surveys, plans and detailed specifications. Their discussion and adoption would consume another year, at least; and the construction of the works would take three or four years more, supposing that the funds for so large an undertaking could be provided in that time.

This is a sufficient reason for providing for an adequate water supply by steam pumping machinery and by storage in reservoirs, up to 1888. Long before that time, if the present rate of increase of demand prevails, the consumption of water will become so large as to demand a still further increase than has been recommended in this report, both in pumping power and in distributing facilities, which are now in many localities far below the demand. A consideration of these points may, however, be safely left for the final report of this Board.

Meanwhile your attention is respectfully called to the fact that complete surveys must be made, and reliable data obtained, of the localities from which and through which a pure water supply can be drawn, in order to form a correct judgment as to their availability. As it is essential that this information be obtained, an appropriation for such surveys of not less than fifteen thousand dollars (\$15,000) is suggested.

With regard to the management of the pumping stations, your Board would call attention to the system which is now, and has been since the earlier days of the Department, the prevailing one, as being radically wrong.

At each of these stations there are now two engineers of equal authority, who are on duty alternately during the day and the night. Thus there can be no definite responsibility or uniformity of management.

The Board recommend that this organization be so modified as to place one superior engineer in charge of each station. In the two larger stations—Schuylkill and Belmont—he should not be required to take a watch, but have two competent assistants. At the other works he might take a watch and have one assistant. He should in all cases be responsible only to the head of the Department, and should maintain discipline, receipt for supplies, provide spares, supervise repairs or any additional construction going on, and direct the proper use of

the machinery. Such men should be paid good salaries, commensurate with their qualifications and the responsibility placed upon them.

The Board also consider that the salaries now paid to engineers, corresponding to those of the assistants under the proposed plan, being less than those of good mechanics, in proportion to the time they are on duty, and far below those paid in other cities for similar work, are insufficient to command and keep the best men. They believe that the saving in fuel alone which would result from these changes would more than pay the extra amount required for wages, and that greater security would be obtained.

They also suggest that the several pumping stations and reservoirs should be connected together and with the Purveyor's and central office by telephonic communication, the immense value of which at all times, and especially in case of accidents, is obvious.

The Board have been deeply impressed with the vital necessity of keeping out of the inlets to different pumping wells a large and constantly increasing amount of offensive sewage. They believe that this great evil, so far as it proceeds from the sewer that empties into the Schuylkill river at the east end of Girard avenue bridge, can be abated at an early day, and at a cost small in comparison with the importance of the object.

This, however, belongs to the Survey Department of the City, which has also under consideration methods for keeping the sewage of Manayunk and the points below it out of the river above Fairmount dam.

This is a necessity which cannot be too soon provided for, considering the importance of restoring the water supply to its original purity, and, at the same time, of protecting the great industries of that section.

Appended to this report, the Board submit a table showing the pumping capacity and consumption for a series of years; also a table showing the organization and wages paid in different cities.

Respectfully submitted.

RESOLUTION

Of instruction to the Chief Commissioner of Highways, relative to paving of Tasker street.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Chief Commissioner of Highways be and is hereby instructed to ascertain by what authority Tasker street, west from Passyunk avenue, running through Philanthropic Cemetery (Twenty-sixth Ward), was paved in violation of ordinance of Councils, and report the same to this Chamber at next stated meeting of Councils.

APPENDIX No. 55.

Philadelphia, October 31, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—We, your Committee on Surveys and Regulations, to whom was referred the accompanying ordinance, supplementary to an ordinance entitled “An Ordinance to promote public cleanliness and health,” beg leave to report that in the City of Philadelphia there are about twelve hundred sewer connections made annually. At the present time, the owner or lessee of a property, after paying for his license at the Survey Department, pays one dollar to the District Inspector. It is proposed by this ordinance that the one dollar shall be paid directly into the Survey Department; that the office of District Inspector, in each Survey District, shall be abolished and in place thereof two Inspectors of Sewer Connections shall be appointed, whose duties are fully set forth in the ordinance.

Section 2d, of the ordinance of March 9, 1867, and the ordinance of July 15, 1867, will be found respectively on pages 164 and 166 of the digest of ordinances.

They, therefore, recommend the passage of this ordinance, as thereby the house connections with sewers will be more carefully built and will be under the direct supervision of the Survey Department.

A SUPPLEMENT

To an ordinance entitled "An Ordinance to promote public cleanliness and health," approved March 9, 1867.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That it shall be the duty of the Chief Engineer and Surveyor to appoint two competent persons, either bricklayers or plumbers, to supervise, control, and inspect the building of all sewer connections, and to carefully watch, during the progress of such work, that the same is done in full, exact, and strict conformity with the ordinances of Councils now in force and that may be hereafter enacted, and also in full, exact, and strict conformity with the rules and regulations of the Survey Department, and with such rules and regulations as the Chief Engineer and Surveyor may prepare and issue; and the Chief Engineer and Surveyor is hereby authorized to make such rules and regulations, in reference to the building and inspection of sewer connections, as he deems proper and that are not inconsistent with any ordinances of Councils.

SEC. 2. That the said Inspector of sewer connections shall have full and complete authority to supervise and control the building of all sewer connections; he shall be paid at the rate of one hundred (100) dollars a month, and he shall be required, in addition to the duties set forth in the preceding section, make daily records of all sewer connections inspected by him, and shall make monthly returns thereof to the Chief Engineer and Surveyor, under oath, describing all the sewer

connections made during the month, and shall duly affirm or swear that the same were made in his presence or under his inspection and personal knowledge, that they are in full, strict and exact conformity with all laws, ordinances, rules and regulations applicable thereto ; and the said sworn return and affidavit shall be filed in the Survey Department and remain among its records for the use of the City and the public.

SEC. 3. That no sewer connections shall be made or built, except under the supervision, control and approval of said Inspectors of Sewer Connections, and if any person or persons shall attempt to make any sewer connections in violation of this or any other ordinance, and without the supervision, control and approval of such Inspectors of Sewer Connections, he or they shall be liable to a penalty of fifty (50) dollars for each offence.

SEC. 4. That one (1) dollar shall be paid by each owner or lessee of premises to the Survey Department, on obtaining a license for a sewer connection, in addition to the sum required by section first of the ordinance to which this is a supplement.

SEC. 5. That section second of the ordinance to which this is a supplement, as far as the same refers to the appointment of one person in each Survey District to make the sewer connections, is hereby repealed.

SEC. 6. That section first of an ordinance entitled "A Supplement to an ordinance entitled 'An Ordinance to promote public cleanliness and health, approved March 9, 1867,' approved July 15, 1867," so far as the same refers to the payment of one (1) dollar to the Inspector, is hereby repealed.

DEPARTMENT OF HIGHWAYS, BRIDGES AND SEWERS.

Philadelphia, November 16, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—Enclosed please find communication received from Messrs. Harrison, Havemeyer & Co., asking the privilege of laying a sewer and water-pipe from their refinery to the river.

As this Department has no power to grant such permit, and as the matter is undoubtedly of importance to the above firm, I refer the same to your honorable bodies for such action as you may deem proper.

Very respectfully,

WILLIAM BALDWIN,
Chief Commissioner of Highways.
Per M. M. COPPUCK.
Chief Clerk.

Philadelphia, November 15, 1882.

WM. BALDWIN, ESQ.,
Chief Commissioner of Highways.

DEAR SIR:—We wish to put in a 4 feet by 5 feet sewer from the refinery to the river; also, a 48 inch water-pipe from the Delaware to the sugar house. Both the sewer and water-pipe will touch the river opposite our property. They will both cross Delaware avenue. We would respectfully ask a permit to take them across this street.

Truly yours,

HARRISON, HAVEMEYER & Co.,

AN ORDINANCE

To authorize the construction of sewers on Bainbridge and Morris streets and Woodland avenue.

SECTION 1. *That the Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Highways be and is hereby authorized to construct the following sewers, viz.:

On Bainbridge street, from the east side of Twenty-second street to the River Schuylkill;

On Morris street, from Thirteenth street to two hundred (200) feet west of Broad street, and

On Woodland avenue, from Cobb's creek to Seventieth street.

Said sewers to be built of brick, oval in shape, and in accordance with specifications prepared by the Chief Engineer and Surveyor.

SEC. 2. The Chief Commissioner of Highways shall advertise according to law, announcing that bids will be received for the sewers above designated, and he shall allot them to the lowest bidders, and it shall be a condition of the contracts that the contractor shall keep the said sewers, and that portion of the street along which the said sewers shall be laid, in good order and repair for three years from and after the date of the completion of the said sewers, and shall accept the sums assessed upon and charged to the properties lying on the lines of said sewers, in manner and form authorized by ordi-

nance entitled "An Ordinance regulating the assessment upon property for the construction of branch culverts or drains," approved May 12, 1866, and supplement thereto, approved February 16, 1869; any excess over and above said assessment in addition to that provided for by ordinance entitled "An Ordinance authorizing the Chief Commissioner of Highways to draw warrants for street intersections, manholes, and legal deductions in the construction of branch sewers," approved April 3, 1868, to be charged to item (for branch sewers) of annual appropriation made to the Department of Highways for the year 1882: *Provided*, Said excess does not exceed the sum of seven thousand (7,000) dollars.

APPENDIX No. 73.

Philadelphia, November 14, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys and Regulations, to whom was referred the accompanying petitions for sewers on Forty-seventh and Eighteenth streets, beg leave to report that the locations have been examined by the Board of Surveyors, who have approved and recommended their construction; the Forty-seventh street sewer is required for general house and surface drainage, and the Eighteenth street sewer is principally for the abatement of an intolerable, and in winter a dangerous nuisance, occasioned by the dwellings upon Green and Mount Vernon streets draining into an alley way leading into and crossing the footway of said Eighteenth street. The aggregate length of these sewers will be 726 feet, costing to the property owners upon their lines \$1,600, and to the City not exceeding \$650. We respectfully ask the approval of the ordinance herewith submitted.

AN ORDINANCE

To authorize the construction of sewers on Eighteenth and Forty-seventh streets.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Highways be and is hereby authorized to construct the following sewers, viz.: On Eighteenth street, from sewer in Green street, northward one hundred and six feet, and on Forty-seventh street, from the sewer on Westminster avenue to Wyalusing street. Said sewers to be built of brick, oval in shape and in accordance with specifications prepared by the Chief Engineer and Surveyor.

SEC. 2. The Chief Commissioner of Highways shall advertise according to law, announcing that bids will be received for the sewers above designated, and he shall allot them to the lowest bidders, and it shall be a condition of the contracts that the contractor shall keep the said sewers, and that portion of the street along which the said sewers shall be laid, in good order and repair for three years from and after the date of the completion of said sewers, and shall accept the sums assessed upon and charged to the properties lying on the lines of said sewers in manner and form authorized by ordinance entitled "An Ordinance regulating the assessment upon property for the construction of branch culverts or drains," approved May 12, 1866, and supplement thereto approved February 16, 1869; any excess over and above said assessment, in addition to that provided for by ordinance entitled "An Ordinance authorizing the Chief Commissioner of Highways to draw warrants for street intersections, manholes, and legal deductions in the construction of branch sewers," approved April 3, 1868, to be charged to Item (for branch sewers) of annual appropriation made to the Department of Highways for the year 1882: *Provided*, That said excess does not exceed the sum of six hundred and fifty (650 dollars).

APPENDIX No. 74.

Philadelphia, November 14, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—We, your Committee on Surveys and Regulations, to whom was referred the accompanying ordinance, “To accept the sewer on Lombard street, from Fifth to Second street, and on Second to Pine street, and on Pine street to the Delaware river,” beg leave to report that in consequence of the City not owning any outlet to the Delaware river at the foot of Pine street, the plans, specifications, and contract for sewer known as Lombard street sewer, located the sewer from Second and Lombard street along Second street to Pine street and thence east on Pine street to the Delaware river.

The ordinance of July 5, 1877, approved the contract as above specified and the sewer was built in accordance therewith. An offset has been made to the payment of an assessment bill by a property owner, but a suit thereon has resulted in favor of the City; nevertheless, the City Solicitor recommends the passage of the annexed ordinance to cover any supposed defects in legislation, the contract having not been printed in full in the ordinance of approval. We recommend the adoption of the ordinance submitted.

AN ORDINANCE

To accept the sewer on Lombard street, from Fifth street to Second street, on Second street to Pine street, and on Pine street to the Delaware river, built by Erskine D. Smith under his contract with the City, dated July 13, 1877.

SECTION 1 *The Select and Common Councils of the City of Philadelphia do ordain*, That the sewer on the line of Lombard street, from Fifth street to Second street; on Second street, from Lombard street to Pine street; on Pine street, from Second street to the Delaware river, constructed by Erskine D. Smith, under his contract with the City of Philadelphia, dated July 13, 1877, which sewer has been paid for by the City and accepted by the City's officers, be and the same is hereby accepted by the City of Philadelphia fully and as if the ordinance approved November 1, 1875, directing the construction, *inter alia*, of the Lombard street sewer, had designated the route to the Delaware river from Fifth street as *via* Lombard street to Second street, thence to Pine street, and thence on Pine street to the Delaware river; and as if the ordinance approved July 5, 1877, approving the said contract of Erskine D. Smith, had set forth the said contract in all its terms and at length.

SEC. 2. All ordinances or parts of ordinances inconsistent herewith be and the same are hereby repealed.

and Common Councils of the City of Philadelphia.

GENTLEMEN:—Your Committee on Gas Works, to whom was referred the Report of the Trustees of the Philadelphia

Gas Works for the year 1881, and who were instructed through their sub-Committee on Accounts to examine sundry books, papers, and vouchers in the possession of the said Trustees, in explanation of certain credits therein claimed by the report that they approved the report of the majority of the said sub-Committee hereto appended, and recommend the passage of the subjoined resolution entitled "Resolution of reference to the City Solicitor" for the reasons stated in said report.

JACOB GRIM,	PETER MONROE,
HENRY H. WISLER,	J. K. CUMING,
U. C. SMITH,	FRED'K HALTERMAN,
EUGENE TOWNSEND,	GEO R. SNOWDEN, for report.
A. HALLER GROSS,	THOS. GREEN,
JAMES WHITAKER.	

Philadelphia, November 15, 1882.

To the Chairman and Members of the
Committee on Philadelphia Gas Works.

GENTLEMEN :—The sub-Committee on accounts report that after inspecting the minute books of the Finance Committee of the Board of Trustees of the Philadelphia Gas Works, the sub-Committee are forced to the conclusion that the minutes as presented are unreliable as exhibiting the action of said Finance Committee on the day they bear date, February 17, 1881, by reason of the condition of said minute showing erasures and corrections, and the testimony submitted by the Registrar, Dr. Noble, in relation thereto.

A. HALLER GROSS,	THOS. M. HAMMETT,
J. K. CUMING.	

We dissent from the conclusion as stated; as far as we can judge the only portion of the minutes altered or changed do not affect the material portion of the minute. We express this opinion with diffidence, as we are not expert in handwriting.

S. S. HOLLINGSWORTH,	JOHN BARDSLEY.

APPENDIX No. 80.

Philadelphia, November 27, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—The Act of Assembly approved August 5, 1870, providing for the erection of the Public Buildings, absolutely enjoins on the Commissioners that they “shall make requisition on the Councils of said City, prior to the first day of December in each year, for the amount of money required by them for the purposes of the Commission for the succeeding year.”

In compliance with this requirement and subject to the explanations respecting the reduction of the amount from the estimate sent early in August, at his request to the Controller, which were made in the conferences had between the subcommittee of Councils' Committee of Finance and the Commissioners (and which explanations as to the general features of the matter follow the line of those set forth in the communication of the Commissioners to Councils under date of November 29, 1881), requisition is hereby made upon Councils for the sum of \$750,000 for the purposes of the Commission for the year 1883.

On behalf of the Commissioners,
Very respectfully,
SAM'L C. PERKINS,
President.

APPENDIX No. 81.

OFFICE OF CITY TREASURER.

Philadelphia, December, 1882.

To the President and Members of Select and
Common Councils of the City of Philadelphia

GENTLEMEN:—I have the honor to submit for your consideration the following copy of communications received from the State Board of Revenue Commissioners.

"Harrisburg, November 23, 1882.

"J. J. MARTIN, ESQ.,

"City Treasurer of Philadelphia.

"DEAR SIR:—Accompanying this I beg to hand you a resolution of the Board of Revenue Commissioners, adopted at a meeting held this day. And also hand you a statement of tax due by the City of Philadelphia for the year 1882, in accordance with said resolution.

"Very respectfully,

"HENRY N. GRAFFEN,
"Clerk Board of Rev. Com."

"Resolved, That upon the presentation of satisfactory evidence to the Board of Revision of Taxes of the City of Philadelphia to file a statement of property taxable for State purposes in the year 1882; the fair and just value of said property in said City made payable by law at four mills upon the dollar is hereby fixed and determined at the sum of \$200,000,000 for the year 1882, and the Clerk of this Board is directed to notify the said Board of Revision of Taxes, the County Commissioners, and the City Treasurer of this action of the Board; and to advise the said parties that the evidence upon which this valuation is based is open for inspection in the office of the Auditor-General."

Copy of Account.

"TREASURY DEPARTMENT OF PENNSYLVANIA.

"Harrisburg, November, 23, 1882.

"To the City Treasurer of Philadelphia.

SIR:—Below find statement of the amount of State Tax due from your County for the year 1882.

" 200,000,000 = @ 4 mills,	-	-	\$800,000 00
" 5,441,172 = " 3 "	-	-	16,323 52
" 558,900 = " 1 per cent.,	-	-	7,589 00

Total,	-	-	-	\$835,415 27
--------	---	---	---	--------------

"Very Respectfully,

"SILAS M. BAILEY,
State Treasurer."

I have collected from the Receiver of Taxes, and by check and general fund this year, the sum of \$203,599.23, being the same amount charged by the State against this County on assessment which has prevailed since the last triennial; the following is a copy of the account as settled in 1880 and 1881:

“TREASURY DEPARTMENT OF PENNSYLVANIA.

“To the Commissioners of Philadelphia County.

“GENTS:—Below find statement of the amount of State tax due from your County for the current year:

44,724,925	Money at interest at 4 mills, -	-	\$178,899	69
5,441,172	Furniture and cars at 3 mills, -	-	16,323	53
558,900	Pleasure carriages at 1 per cent., -	-	5,589	00
	Watches, 13,220 gold at \$1 00	}	13,502	75
	“ 367 silver at 75			
	“ 15 “ “ 50			
			\$214,314	97
	Deduct 5 per cent. for collecting,		10,715	74
	Accounted to State for, -	-	\$203,599	23

You will see that the increased charge in the account for this year is in the item of “money at interest;” the return as made by the Board of Revision of Taxes at the last triennial assessment was for \$44,724,925, this should prevail until the next triennial assessment; but the State authority at this late day, after the the taxes for the current year have been mostly collected, claims to have evidence that the amount of money at interest in Philadelphia County is \$200,000,000, and makes demand for tax on that amount, being an increase in assessment of \$155,276,075, and increase tax of \$621,100.30.

I have also received from the Auditor-General of the Commonwealth a demand for tax on loans of the City, which have been claimed to be exempt in my semi-annual accounts; the following is a copy of the account:

“J. J. MARTIN, *Treasurer of Philadelphia, in account with the COMMONWEALTH OF PENNSYLVANIA, Dr.*

“To amount of loans of the City of Philadelphia upon which taxation was temporarily waived for the year 1880, as per account of J. J. Martin, Treas. ; -		\$32,930,335	17
To amount of loans of City of Philadelphia upon which taxation was temporarily waived for the year 1881, -		33,377,938	93
		<hr/>	
		\$66,308,274	10
Tax at 4 mills, - - -		\$265,233	09

This is for tax on loans held by various City Sinking Funds which have virtually been paid; loans held by Wills Hospital, South Street Bridge loan, and War loans, tax on which I did not charge against the City as they were exempted by special enactments; but these exemptions the State claims to have been repealed by Act of Legislature, April 9, 1873.

Respectfully submitted,
THOS. J. MARTIN,
City Treasurer.

Attest—JOHN A. BELL,
Chief Clerk.

APPENDIX No. 82.

OFFICE OF BOARD OF REVISION OF TAXES,

Philadelphia, December 4, 1882.

To the Select and Common Councils
of the City of Philadelphia.

The undersigned, members of the Board of Revision, respectfully represent, That the State Board of Revenue Commissioners gave notice that they had assessed upon the City of Philadelphia the sum of \$800,000 as the State tax on personal property (subject to the 4 mills tax) due by the

said City for the year 1882. This tardy notice was a surprise and deemed by the undersigned illegal and invalid, and the undersigned promptly wrote to the Board of Revenue Commissioners asking for the grounds or evidence upon which the assessment was made, receiving for reply that the evidence was on record, and too voluminous to be copied, and they added that it was open to inspection and examination. One of the City Assessors, at the instance of the undersigned, went to Harrisburg and there examined the papers, which consisted of a memorandum of the outstanding mortgages of this County without reference to their consideration and condition.

The undersigned herewith submit the correspondence and the accompanying papers for such consideration and prompt action as the importance of the subject may induce your Honorable bodies to take. The time for appeal will expire on the 22d inst., and the undersigned, believing that this matter is exclusively cognizable by your Honorable bodies at this time, respectfully commit it to you.

Very respectfully,

SAMUEL HAWORTH,
WM. LOUGHLIN,
GEO. W. FAIRMAN,
Board of Revision of Taxes.

APPENDIX No. 83.

LAW DEPARTMENT,

Philadelphia, December 7, 1882.

WM. HENRY LEX, Esq.,

President of Common Council.

MY DEAR SIR:—There are various cases pending against the City for damages arising from accidents happening upon defective highways.

I tried a case a short time since, in which a recovery was had against her because of negligence in relation to Woodland

avenue; the sworn testimony showed the road to be in a dangerous condition.

There is a suit now pending to recover damages for the death of a citizen alleged to be caused by the bad condition of this same highway.

I am led by these facts to suggest the passage of an ordinance making it the duty of the Mayor, acting through his policemen, to summarily close any highway which is in such condition as to be perilous to those who might otherwise travel over it, and to place red lights and poles, or other obstructions about dangerous places in the streets which have not been provided with such warnings.

A road may get into a dangerous condition suddenly, and the policemen by reason of their numbers and their opportunities for daily observation would be most likely to be aware of any perilous defect at an early moment.

A little outlay of money in the purchase by the Police Department of red lanterns, poles, etc., might result in the saving of large sums for damages, and what is more important, would be in protection of the lives and limbs of our citizens.

Yours, very truly,

W. NELSON WEST,

City Solicitor.

APPENDIX No. 84.

RESOLUTION

Of instructions to the City Solicitor in relation to increased tax assessment placed upon Philadelphia by the State Revenue Commissioners.

Resolved by the Select and Common Councils of the City of Philadelphia, That the City Solicitor be and he is hereby authorized and instructed to at once institute such legal proceedings, by taking an appeal, or otherwise, as may be proper, to protect the interests of the City in the matter of the increased tax assessment placed upon Philadelphia City by the Revenue Commissioners of the State.

APPENDIX No. 85.

RESOLUTION

Concerning assessment of State tax on personal property for the year 1882, made by the State Board of Revenue Commissioners.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Clerks of Councils be and they are hereby instructed to acknowledge the receipt of the letter from the Board of Revision of Taxes, and to inform them that they are expected to assume the responsibility in relation to the matters therein contained, and which the various Acts of Assembly, especially that of 1878, casts upon them, and to request them to continue their investigation and consideration of the subject in conjunction with the City Solicitor, so that as the Executive Department of the City having charge of such matters they may proceed to secure for the City of Philadelphia all the protection needed and allowed by law.

APPENDIX No. 86.

RESOLUTION

To meet in Joint Convention to elect one member of the Board of Guardians of the Poor.

Resolved by the Select and Common Councils of the City of Philadelphia, That said Councils meet in Joint Convention at 3.45 o'clock P. M. this day (7th inst.), to elect a member of the Board of Guardians of the Poor *vice* Samuel H. Jarden, resigned.

APPENDIX No. 87.

RESOLUTION

To appoint a Committee on the removal of tracks in Twenty-second street.

Resolved by Common Council of the City of Philadelphia, That a Committee of five be appointed by the Chair to report

to Councils what arrangements, if any, can be made with the passenger railroads owning or controlling the tracks on Twenty-second street, between Spruce street and Hamilton avenue, to remove the same from said street.

APPENDIX No. 88.

MAYOR'S OFFICE,

Philadelphia, December 7, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—Your attention is respectfully called to a matter of public interest, and prompt and energetic action on your part, through the City's legal adviser, is suggested.

Under the terms and provisions of an act defining the powers and extending the duties of the Board of Revenue Commissioners, approved May 24, 1878, and the supplement thereto, approved June 10, 1881, the Board of Revenue Commissioners are empowered "to ascertain and determine the fair and just value of the property of the cities and counties of this Commonwealth taxable by law, adjusting and equalizing the same as far as possible, so as to make all taxes bear as equally as practicable upon all the property of the Commonwealth made or hereafter to be made taxable for State purposes in proportion to its actual value," etc.

Upon information received from the Board of Revision of Taxes the State Revenue Commissioners, in pursuance of this power, as appears by a communication addressed to said Board of Revision of Taxes, dated November 23, 1882, fixed the amount of State tax due from this County for the year 1882, as follows:

\$200,000,000 at 4 mills	\$800,000 00
5,441,172 at 3 mills	16,323 52
558,900 at 1 per cent.	5,589 00
Watches	13,502 75

This adjustment, made without notice to any official of this

County, and upon evidence (as is alleged) produced by a private corporation, is largely in excess of what has heretofore been deemed a just and equitable assessment upon this County.

I would recommend that the City Solicitor be instructed to take such legal measures as will ensure a just, equal and fair adjustment of the assessment upon Philadelphia.

I would suggest that Councils request the Legislature to fix a sum total as the City's assessment. A law of this character would obviate the many difficulties which arise at each assessment.

I am, respectfully,

SAMUEL G. KING,

Mayor of Philadelphia.

APPENDIX No. 89.

RESOLUTION

Of request to the Board of Public Education relative to the fifty free scholarships in the University of Pennsylvania.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Board of Public Education be and is hereby requested to inform City Councils whether the Trustees of the University of Pennsylvania have granted fifty free scholarships in their institution for boys of the public schools of Philadelphia, in conformity with the provisions of the ordinance of January 4, 1882, making a grant of Almshouse lands to said University.

APPENDIX No. 90.

RESOLUTION

Of request to the Philadelphia and Reading Railroad Company in reference to the erection of a bridge at Somerset street, Twenty-fifth Ward.

Resolved by the Select and Common Council of the City of Philadelphia, That the Philadelphia and Reading Railroad

Company be requested to inform these Councils what amount they (the R. R. Co.) are willing to pay towards the erection of a bridge over the Reading Railroad at Somerset street, in the Twenty-fifth Ward.

APPENDIX No. 91.

Philadelphia, December 7, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—The Committee on Finance respectfully report that they have considered a communication from the Commissioners of Fairmount Park, accompanied with an ordinance for the purchase of a lot of ground of about one and-a-half acres for Park purposes, on the east side of Fairmount Park, northward of the east abutment of Falls Philadelphia and Reading Railroad bridge, and report the ordinance back and recommend its passage.

LAW DEPARTMENT OF THE CITY OF PHILADELPHIA.

Philadelphia, November 1, 1882.

JOHN ECKSTEIN, ESQ.,

Secretary of Finance Committee.

DEAR SIR:—In response to your communication, informing me that the Committee on Finance desired to know *whether the City is liable for the dredging of docks into which the City sewers empty*, I have to say as follows:

In the case of the City *vs.* Edwards, 2 W. H. C., page 182, it was decided that the wharf owner could not be compelled to clean City sewage from the dock appurtenant to his wharf.

The Court of Common Pleas said, in that case, that “a large sewer opened directly into the dock,” and therefore “the City was liable for the accumulation of mud and filth therein; that where the City has thus blocked up the dock she can have no action against the property owner. If it is a nuisance the City is the author of the nuisance.”

It thus appears that if City sewage is to be removed from the docks it must be done by the City herself, and that she cannot in any way cast the expense thereof upon the wharf owner.

I further advise that this work ought to be attended to, and that the City is in peril of actions for damages by reason of a neglect to perform so plain a duty.

Yours very truly,

WM. NELSON WEST,
City Solicitor.

Philadelphia, December 4, 1882.

To the Chairman and Members of the Finance Committee.

GENTLEMEN :—Your sub-Committee to whom was referred the duty and propriety of committing the purchase of fuel and supplies needed by the Departments of the City and County to the City Commissioners have given the subject considerable attention, and are prepared to report :

1. That the law requires that City Councils should place the purchase of fuel and supplies for all the County Departments in the hands of the City Commissioners, and that appropriations needed by the various County Departments should be made to the City Commissioners, and not to the several Departments respectively, as heretofore.

2. That several of the County Departments seem to procure their various supplies and fuel at rates as low and profitable to the city as can be done by the concentration of their duties in the one Department of the City Commissioners, such as Board of Public Education and the Sheriff.

3. That other County Departments than the two named can be supplied more readily and cheaply out of a general appropriation to the City Commissioners than to the several Departments.

4. That as the law does not apply to any of the City De-

partments the sub-Committee did not feel at liberty to suggest the application of the system of purchase and supply to the City Departments until we had seen the result of the experiment as applied to the County Departments, and, *finally*, that the appropriations for supplies and fuel needed, made to the several County Departments, other than the Board of Education and the Sheriff, should be made to the City Commissioners directly, in one single item, subject to the general provisions of laws and ordinances as to advertisement and awarding of contracts.

And recommend that the items relating to supplies and fuel in the several appropriations made to the City Controller, City Commissioner, City Treasurer, Board of Revision, Board of Health, Register of Wills, District Attorney, Coroner, Recorder of Deeds, Prothonotary, and Clerk of Quarter Sessions should be stricken out.

Respectfully submitted,

Š. DAVIS PAGE, *Ch'n*, J. R. GATES,
JNO. BARDSLEY, for report. OLIVER PARKER, for report

Philadelphia, November 27, 1882.

JOHN ECKSTEIN, Esq.

Secretary of Finance Committee.

MY DEAR SIR:—In reply to your communication of the 21st inst., I have to say as follows:

The question now put is whether the city can appropriate a sum in excess of thirty thousand dollars to the House of Refuge in view of the Act of April-18, 1855.

The Act is as follows: "The Select and Common Councils of the City of Philadelphia be and they are hereby authorized annually to appropriate towards the support and maintenance of the House of Refuge such sum as they may deem expedient, not exceeding thirty thousand dollars in any one fiscal year, payable in equal payments, on the first Monday of February, May, August, and November, in each and every year, the first payment thereof to be made on the first Monday of May, Anno Domini one thousand eight hundred and fifty-five," vide P. L. 1855, p. 245.

It is to be read in the light of other legislation, and as especially bearing upon the subject the third section of the Act of April 10, 1851 (vide P. L. 1851, p. 414) must receive attention.

The section is as follows: "The annual appropriation of six thousand dollars made from the treasury of this Commonwealth, and of thirteen thousand dollars from the treasury of the County of Philadelphia, in aid of the House of Refuge, be and the same is hereby continued during the pleasure of the Legislature; and the Commissioners of the said County of Philadelphia are hereby directed to pay annually to the Treasurer of the said House of Refuge the sum of thirteen thousand dollars, and the County Commissioners are hereby authorized to pay the amount of the appropriation made by the County Board of one thousand eight hundred and fifty, for the use of said House of Refuge."

The question will now be seen to be whether Councils can appropriate only thirty thousand dollars or whether they *must* appropriate thirteen thousand dollars and *may*, in addition thereto, appropriate thirty thousand dollars.

The construction put upon the Act of 1855 by Councils, as shown by all the appropriations made for the House of Refuge, is to the latter effect, for in 1872, 1873, 1874, and 1875 there was appropriated respectively the sum of \$37,500, in 1876 \$41,500, in 1877 and 1878 \$45,000, in 1879 and 1880 \$42,500, and in 1881 and 1882 \$40,000.

I am of opinion that the two Acts are to be construed together and that the Legislature thereby cast upon the city a duty to pay thirteen thousand dollars annually, and authorized the Councils to appropriate to the House of Refuge in addition thereto annually a sum not exceeding \$30,000, or in other words, that the City *must* pay \$13,000, and may in addition thereto contribute the further sum of \$30,000.

By the first Act the Legislature appropriated to the House of Refuge directly out of the County Treasury the sum of \$13,000 annually. The legislature has done this in other instances, notably in the provisions made for the erection of the Public Buildings and in the construction of the South Street Bridge.

As a further reason for the view I have taken, I call attention to the fact that the Act of 1851 *directed* a payment of \$13,000, and *authorized* the County to pay a further amount, which had been previously appropriated.

Yours very truly,

WM. NELSON WEST,

City Solicitor.

AN ORDINANCE

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—We, the undersigned, being the Pilots and Engineers of the Police Harbor Boats, to wit, “William S. Stokely” and “Samuel G. King,” respectfully ask that our pay be increased ten per cent., for the following reasons :

First. That we are compelled to appear once a year before the Board of United States Inspectors, to pass an examination, for which we are charged a fee of ten dollars.

Second. The Policemen receive the sum of forty dollars for clothes warrant, while we are compelled to buy our own clothes.

Third. All the responsibility of the boats after they leave the docks fall on us ; all accidents that happen we are held responsible, under the penalty of having our papers revoked.

Respectfully yours,

MARTIN CAVANAUGH,
Pilot of H. P. B. “Samuel G. King.”
SAMUEL C. PRICE,
ABRAHAM POWELL,
Engineers of H. P. B. “Wm. S. Stokley.”

APPENDIX No. 136.

Philadelphia, December 5, 1882.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys and Regulations, to whom was referred an ordinance to authorize a revision of plans Nos. 13 and 307, to provide a public way, to be known as the "Cope Embankment," on the east side of the River Schuylkill, beg leave to report that, on due consideration and view of the ground, we find it difficult to determine the cost of this work and the damages that may arise.

Such action as is here asked of Councils will commit the City to a large and indeterminate expense, and cause a state of uncertainty very prejudicial to property in the vicinity.

With a view, therefore, to a settlement of this question, we recommend that the Committee be discharged from its further consideration.

APPENDIX No. 147.

OFFICE OF THE BOARD OF PUBLIC EDUCATION.

Philadelphia, December 21, 1882.

WM. HENRY LEX, ESQ.,

President of Common Council.

DEAR SIR—I am directed by the Committee on University, to which was referred the communication asking for information in reference to the fifty free scholarships, to send you the accompanying report of the Committee, which contains all the desired information.

Very respectfully,

H. W. HALLIWELL,

*Secretary.**Philadelphia, November 14, 1882.*

To the Board of Public Education

of the First School District of Pennsylvania.

GENTLEMEN:—The Committee on University beg leave to report that since the last meeting of the Board they have received from the University authorities the information that five pupils of the Public Schools who were sent-up for examination in September successfully passed that examination and have been admitted to the Towne Scientific School.

These five pupils, added to the eighteen who were admitted in June, make altogether twenty-three admitted for the new term which began in September—a much larger number than have been admitted in any one year since the establishment of the Towne Scientific School. It will be remembered by the Board of Education that a full and complete report upon the relations existing between the City of Philadelphia and the Trustees of the University was delayed at the September meeting of the Board by the absence of Provost Pepper in Europe. Since Dr. Pepper's return the correspondence between him and your Committee has been brought to a close

for the present, and there will probably be no occasion for re-opening it, unless the Board should otherwise determine, until after the middle examinations in our schools in the early part of 1883. The following is a copy of the letter addressed by your Committee to the Provost of the University:

QUESTIONS ASKED BY THE COMMITTEE.

Philadelphia, September 4, 1882.

DR. WILLIAM PEPPER,
Provost of the University of Pennsylvania.

DEAR SIR:—The Committee on University of Pennsylvania of the Board of Public Education are desirous of obtaining some information from the University authorities for the purpose of enabling them to report fully and intelligently at the next meeting of the Board of Education upon the subject of scholarships in the University.

Will you have the kindness, therefore, to send me, at your earliest convenience, a copy of the resolution or by-laws of the Trustees (with the date of its adoption) under which prize scholarships were awarded to the deserving pupils of the Public Schools prior to the month of January, 1882?

Have the goodness, also, to furnish me, if possible, with information upon the following points:

1. The number of pupils of the Public Schools who were admitted to the University from time to time under the foregoing resolution or by-law, with the date of their admission, together with the number actually remaining in the University as students at the date of the conveyance of the Alms-house property by the City of Philadelphia to the Trustees of the University in January, 1882.

2. Do the University authorities regard the contract of January 30, 1882, as an agreement on their part to grant to the City fifty free scholarships annually, or fifty altogether, to be filled only as vacancies may from time occur in that number?

3. Do the University authorities regard the scholarships provided for in the contract for the conveyance of the Almshouse property as *in addition to* those granted to the City under the resolution or by-law above mentioned, and will they agree to so treat the contract always in the future? If the views of the Trustees accord with those of our Board and with what we think is public opinion in the matter, would it not be desirable to have this part of the business put in some permanent form, so as to avoid all misunderstanding in the future?

4. Assuming that both parties to the contract of January 30, 1882, intended that the scholarships therein provided for should be in additon to those granted to the City under the resolution of the Trustees, and not merely a perpetuation of the grant which the City was already enjoying, our Committee propose to report to the Board of Education that ten of the pupils admitted to the Towne Scientific School, in June of this year, will be charged to the City of Philadelphia under the regulations in force prior to January 30, 1882, and that all other admissions for this year will be charged to the City under the contract conveying to the Trustees the Almshouse property.

We should like to have the concurrence of the Trustees in this view of the case, and their assurance that the same rule will be adhered to for the future.

Respectfully yours,

WM. M. SMITH,
Chairman Com. on University.

In consequence of the absence of Provost Pepper, as before stated, no reply was received to this letter until October, 1882, and subsequent to the last meeting of our Board. The communication from Provost Pepper bears date October 12, 1882, and is as follows:

PROVOST PEPPER'S REPLY.

University of Pennsylvania, }
Philadelphia, October 12, 1882. }

TO WILLIAM M. SMITH, ESQ.,
Chairman of the Committee on the University of
Pennsylvania of the Board of Public Education.

DEAR SIR:—I have pleasure in forwarding the following reply to the inquiries contained in your communication of September 4, 1882.

At a meeting of the Board of Trustees of the University of Pennsylvania, held November 2, 1875, the following resolutions were adopted:

“Ten free scholarships, in the Towne Scientific School, shall be offered annually, to be competed for by the male pupils of the Public Schools in the City of Philadelphia, under the following conditions:

“1. These scholarships shall be awarded every year to any number of the pupils of the Public Schools of this City (not exceeding ten) who shall pass the best examinations for admission into the Freshman Class of the Towne Scientific School in the month of June of each year: *Provided*, That the candidates for the same shall fulfill all the requirements, as to age and attainments, now established or hereafter to be established for admission to said school; and further, shall have passed at least two years in the Public Schools of this City.

“2. The Board of Education shall determine the methods by which the candidates for these scholarships shall be selected and sent up for examination.

“3. These scholarships shall be tenable for four years: *Provided*, That those to whom they are awarded shall pursue the full course prescribed in the Towne Scientific School with due diligence and satisfactory result, and shall conform at all times to the general regulations of the University in regard to instruction, conduct, and discipline.

"4. The Provost shall communicate the action of the Board on this subject to the Board of Education, with such explanations as to the organization and aims of the Towne Scientific School as he may deem expedient."

Subsequently, in 1880, the course of study in the Towne Scientific School was prolonged to five years, when it was resolved (at a meeting held January 4, 1881),

"That the Faculty of the Towne Scientific School be informed that no change will be made as to the number of students to be admitted annually to the Towne Scientific School, and that the Vice-provost be requested to inform the Board of Education that the scholarships shall be tenable until graduation, not exceeding five years, instead of four years, as heretofore."

"These scholarships were not offered by the Board of Trustees in consequence of any obligation imposed by the terms of the will of John Henry Towne, the founder of the Towne Scientific School. On the contrary, the language of said will is as follows:

"All the rest and residue of my estate, and the reversion and remainder thereof I give and bequeath unto the Trustees of the University of Pennsylvania, to be held by them as part of the endowment fund of that institution, the income to be used exclusively for paying the salaries of professors and other instructors in the Department of Science."

And no other condition whatever was imposed. As a matter of fact, moreover, no income whatever has yet been derived from this legacy, but, on the other hand, its acceptance has been a source of annual expense to the University. Nor were these scholarships offered in return for any consideration or concession received from the City of Philadelphia; and it will be observed that in offering them care was taken to avoid the creation of any grant, or of any contract that might imply a permanent establishment of such scholarships.

The Board of Trustees was actuated simply by a desire to extend the facilities for instruction afforded by the University to as many as possible of the youth of this community, but of course reserved to itself the exclusive power to determine, from year to year, how many free scholars, if any, could thus be received.

The following figures will show the number of pupils of the Public Schools of Philadelphia, who were examined by the Faculty of the University, as well as the number who, under the foregoing resolutions of the Board of Trustees, annually received free scholarships :

1877, examined	6,	received	6,
1878, " "	11,	" "	9,
1879, " "	13,	" "	6,
1880, " "	16,	" "	10,
1881, " "	24,	" "	10 or 11,
1882, " "	34,	" "	23,

being the number of those who were found duly qualified on examination.

The number of students thus admitted, who remained on the rolls in January, 1882, was as follows :

Seniors,	.	.	.	5
Juniors,	.	.	.	4
Sophomores,	.	.	.	7
Freshmen,	.	.	.	10
				<hr/>
				26

It will be observed that each year several students forfeited their free scholarships either by withdrawing voluntarily from the University, or by proving unable to pursue the required course of study.

It may be considered certain that the steady increase in the number of paying students admitted to the Towne Scientific School, as well as the total failure of the estate of John Henry Towne to furnish any income whatever towards the maintenance of that school, and towards the payment of the salaries of the additional professors and instructors required by any considerable accession of students would soon have necessitated a reconsideration of the foregoing resolutions. On the 24th of January, 1882, however, an ordinance was passed by the Honorable City Councils, and approved by his Honor the Mayor, selling and conveying to the Trustees of the University of Pennsylvania certain lots of ground.

“Reserving thereon a ground rent to the City of Philadelphia of five hundred (500) dollars per annum, redeemable at any time by the payment to the said City of Philadelphia of the sum of ten thousand (10,000) dollars, lawful money of the United States, to have and to hold the said land to the said Trustees for the use of the said University of Pennsylvania for its authorized educational purposes, and subject also to the following conditions, to wit: That the said Trustees of the said University of Pennsylvania shall establish and forever maintain at least fifty free scholarships of an annual value of not less than seven thousand five hundred (7,500) dollars per annum, to be awarded under such conditions as may from time to time be deemed suitable, to worthy and deserving students of the Public Schools of Philadelphia.”

At a special meeting of the Board of Trustees, held January 28, 1882, it was resolved to accept the provisions of the above ordinance, and at the next stated meeting of the Board, held February 7, 1882, the following by-law was proposed, and subsequently adopted:

“In accordance with the provision of ordinance of the Select and Common Councils, of the City of Philadelphia, approved January 24, 1882, there shall be and hereby are established Fifty Free Scholarships in the University, to be perpetually maintained out of its current income.”

Due notice of this action was immediately sent to the President of each branch of City Councils, and to yourself as Chairman of the Committee on University, appointed by the Board of Education. At an interview subsequently held with you it was suggested that, as an unusual number of students were preparing to compete for the free scholarships offered by the Trustees, the Board of Trustees might be willing to admit ten free scholars for the year 1882, as though the first mentioned resolutions were still in force, and to charge only such number in excess of ten as might prove themselves duly qualified for admission, against the fifty free scholarships which from and after the above date of February 7, 1882, were established in perpetuity for the benefit of the pupils of the Public Schools of the City of Philadelphia.

In accordance with this, when in June, 1882, twenty-three of the competing students were found duly qualified they

were all admitted, and only thirteen of them have been charged against the fifty free scholarships now established.

It is here suggested that it is highly important that a conference shall be held without delay between representatives of the Board of Public Education and of the University as to the conditions as to time, etc., on which the remaining thirty-seven scholarships shall be awarded.

In reply to your second question, a reference to the text of the ordinance will show that it correctly expresses the understanding with which the Board of Trustees accepted the conditions of said ordinance, that the number of free scholarships to be established is *Fifty*, to be filled as vacancies may from time to time occur in the number.

With reference to your third question, I have the honor to state, that while the Board of Trustees have at the earliest possible moment complied with and carried into effect the conditions of the contract entered into by them with the City they reserve to themselves the power to deal with all applications for free scholarships in excess of the number of fifty, whether in the Towne Scientific School or in any other of the departments of the University.

Trusting that I have afforded you all the information desired on the subject of your communication, I have the honor to remain,

Your obedient servant,

WILLIAM PEPPER,

Provost.

It may be proper to state that the foregoing communication, although it is over the signature of Dr. Pepper, is nevertheless the deliberate and carefully expressed opinion and conclusion of the Trustees of the University in regard to the matters therein referred to and discussed. We are here for the first time informed of a fact in regard to which the community, we think, have been up to this time in complete ignorance. The fact that the Towne bequest, whatever may be the hopes or expectations formed of it for the future, has been in the past productive of no income whatever to the University. It has been generally understood and believed that when the Trustees, in 1875, granted to the City ten scholarships in the Towne Scientific School they did so because they hoped and believed that at an early day thereafter the

bequest would at least produce income sufficient to provide for the maintenance of some of the professorships to be established in the school. In this expectation they have been disappointed, and hence they now take the liberty of reminding us that the ten scholarships which were established in 1875 are not and never were the absolute property of the city of Philadelphia, but, on the contrary, may be *dis-established* at any time that the Trustees believe that the condition of affairs in the University may render such action necessary or expedient.

With regard to the later scholarships, which were established and granted to the City in 1882, in consideration of the conveyance of the Almshouse property to the University, the ordinance of Councils and the deed from the City to the Trustees *seem to be conclusive* upon all the parties to the contract. The City Solicitor, when spoken to by the Chairman of your Committee on the subject, could only declare that the deed had been prepared under his direction, in accordance with the ordinance of Councils, and that he had used the exact language of the ordinance in defining the rights and in reciting the obligations of both the parties to the contract. He was obliged to take the law just as he found it, and, whatever may be the opinions of others, Dr. Pepper declares that the Trustees never contemplated anything more than what is specifically set forth in the ordinance, that is to say, the establishment for pupils of the Public Schools of fifty scholarships only (not fifty annually), of the annual value of seventy-five hundred dollars. In this position the Trustees appear to be clearly sustained by the ordinance and the deed, and in this position your Committee advise and recommend that the matter be permitted to rest, and with the further and additional purpose on the part of our Board and the Trustees, to make these scholarships in the future productive of the greatest possible amount of good to the young men, and ultimately we hope to the young women, pupils of the Public Schools, who shall strive to win them, and who shall strive to profit by them when once they are won.

Respectfully submitted.

APPEAL.

Philadelphia, December 18, 1882.

To the Honorable the Members of the Common Council
of the City of Philadelphia.

GENTLEMEN:—We have the honor herewith to present to your consideration the following Preamble and Resolution adopted by the Philadelphia Sabbath Association, at a meeting of the Board of Managers held on Monday, the 18th of December, 1882, to wit.:

WHEREAS, It appears to the Board of Managers of the Philadelphia Sabbath Association, that the laws and ordinances against the sale of liquors on the first day of the week, commonly called Sunday, are very explicit and positive, and are well known to the whole community; and

WHEREAS, It appears that the Mayor is required to be vigilant and active in causing the laws and ordinances of the City and State to be executed, for which purpose the Chief of Police and all policemen shall obey his orders; therefore,

Resolved, That we most earnestly appeal to the gentlemen who represent us in the Select and Common Councils that they will solemnly consider their prerogative and responsibility in voting appropriations to any Department of the City, the officer and officers of which will not enforce the laws and ordinances forbidding the sale of intoxicating liquors on Sunday, when it is the manifest duty of such officer or officers to enforce the same.

[Extract from the minutes.]

ISAAC SULGER,

Recording Secretary.

APPENDIX No. 149.

LAW DEPARTMENT,

Philadelphia, December 21, 1882.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN :—I respond as follows to your resolution requesting me to give you my opinion as to your right to fill a vacancy in the office of City Controller :

By the 12th section of the Act of Consolidation the qualified voters of the City of Philadelphia were required to elect from time to time an officer to be denominated a City Controller, whose duty it should be to scrutinize and audit the accounts of the City and of the different Departments, to countersign warrants drawn on the City Treasurer, and to perform all the duties then enjoined by law upon the County Auditors ; and further to superintend the fiscal concerns of the City in such manner, and make reports thereon at such time, as should be prescribed by ordinance. The Councils have, by a number of ordinances, prescribed and defined his duties. *Vide City Digest*, page 63, pl. 1.

By the 46th section of the same Act it is thus provided : “ that the City Councils shall fix the compensation and prescribe the duties of all officers of said City,” and that “ when-ever any elective officer of said City shall die or become incapable of fulfilling the duties of his office, his place, except where other provision is made for filling the vacancy, shall be filled by a joint vote of the City Councils until the next City election and the qualification of a successor in office : *Provided*, that such vacancy shall exist at least thirty days before the next City election, otherwise such vacancy shall be filled at the next election thereafter. *Vide City Digest*, page 89, pl. 4.

The City Controller was created an elective officer of the City by the act from which I have quoted, and there was no other provision than that contained in the 46th section, for filling any vacancy occurring in the office.

By the Act of April 18th, 1867 (*vide* City Digest, page 300, pl. 3) it was enacted that, "The words, the *next city election*, in the 46th section of the Act, entitled 'An Act to incorporate the City of Philadelphia, approved February 2, 1854,' shall be construed to mean the election at which the qualified voters of the City of Philadelphia would, in accordance with existing laws, elect a successor in office had no vacancy occurred therein." This change was made because the Act of March 21, 1861, had abrogated the separate municipal election, and had directed that all the City officers should be elected at the fall election held for State and County officers.

Under the law, therefore, as it was prior to the adoption of the New Constitution, the Councils of the City of Philadelphia had the power to fill a vacancy in the office of the City Controller happening during a current term, and the citizen thus elected by them would hold the office until the next election at which "the voters of the City would have elected a successor had no vacancy occurred."

If Councils have not the right now to elect a person to fill such a vacancy it is because of either the first section of the fourteenth article of the New Constitution or of the seventeenth section of the act of March 31, 1876, *vide* City Digest, page 302, pl. 12, and page 306, pl. 34.

The Constitution reads thus: "County officers shall consist of Sheriffs, Coroners, Prothonotaries, Registers of Wills, Records of Deeds, Commissioners, Treasurers, Surveyors, Auditors or Controllers, Clerks of the Courts, District Attorneys, and such others as may from time to time be established by law."

The Act of March 31, 1876, in its seventeenth section, is in these words: "In all cases where a city containing over three hundred thousand inhabitants is co-extensive in boundaries with the county, all of the officers known therein as City Treasurer, City Controller, City Commissioners, shall severally be regarded as county officers, and as such shall severally be subjected to all the provisions of this act, and shall have all

the powers and perform all the duties herein enjoined, and be subject to the same penalties as if they had each been elected or appointed as county officers and had been designated as such."

. Whoever argues that the constitutional clause or the Act of Assembly referred to, or both of them, take away from Councils the power to fill a vacancy in the Controllershship must rest his argument upon the propositions that Councils, by virtue of the Act of 1854, can only fill a vacancy in a city elective office, and that the Controller of the City of Philadelphia, having been made a county officer by the first section of the fourteenth article of the Constitution, and by the seventeenth section of the Act of Assembly of March 31, 1876, ceased to be a city elective officer, and all legislation which regards him as such has been repealed. If this be sound, then one of the most important parts of the machinery of our municipal government has been removed, the pivot upon which the City's fiscal system turns is taken away, and we have a municipal corporation without an officer to audit its accounts or keep its books.

I have examined the debates of the Constitutional Convention to see how it came that "Controllers" were mentioned in the Constitution as county officers and in the alternative with "Auditors." I find that when the article upon Counties and County officers came from the appropriate committee it mentioned "County Auditors" as County officers, but did not name "Controllers." *Vide* Debates, Vol. 4, page 774. A delegate from Allegheny suggested that in his County they had a County Controller and had not had County Auditors for many years and did not wish to be compelled to elect them. As a result of this suggestion and of further objection made at a later period, the clause was amended so as to read "Auditors or Controllers."

If the whole of Article 14 be read, even without the light thus shed upon so much of its purpose, it will be seen that it was not meant thereby to create new offices in any County, but only to recognize existing County offices, and to make them Constitutional offices, thus putting it beyond the power of the Legislature to abolish them. Section 7 of the article well expresses this intention where it says that "three County Auditors shall be elected in each County when such officers are

chosen ;” and, while the article does not say in so many words that a County Controller shall be elected in each County when such an officer was then chosen, the clear meaning is to that effect. It must be remembered that there was and is in Philadelphia a situation dissimilar from that existing in any other part of the State. This is a City co-extensive with the County, and the powers of the City, as enlarged by the Consolidation Act, “are exercised and have effect within the whole County, and over all the inhabitants thereof.” This last phrase I have quoted from the case of *Philadelphia vs. The Commonwealth*, 2 P. F. S., page 455, in which the Court further says that “True, the County was not abolished by the Consolidation Act, but was expressly continued by the 41st section as one of the Counties of the Commonwealth ; but, so far as concerns revenue, finances, and taxation, its powers and liabilities were transferred to the consolidated City. In all the fiscal relations that exist between the Commonwealth and the people who dwell within the boundaries of the County of Philadelphia the City is become the responsible corporate representative of the people.”

All the official machinery of the county that had relation to finances in any form, whether in the collection and receipt or in the disbursement of moneys, was superseded by municipal officers, and in all such matters the City and county were one and the same thing, and in Philadelphia county municipal officers performed duties which in other counties were performed by county officers.

The county auditors were supplanted by the City Controller, who was charged with the performance of “all the duties now enjoined by law on the county auditors.”

Thus it will be seen that, at least in some of his functions, the Controller of the City of Philadelphia has been a county officer from the beginning, and has been so even during a time when no one could doubt that he was an elective officer of the City within the meaning of the 46th section of the Consolidation Act. If he is referred to at all in the Constitution it is as to this phase of his character, and if the fullest reasonable effect be given to the constitutional clause, it would only go to make a constitutional officer of one who is primarily a municipal officer, although he has always had upon him some duties of a county officer (*i. e.*, those of the former county auditors).

In *Mauch Chunk vs. McGee*, 31 P. F. S., 438, the Supreme Court said that the Constitution ought not to be interpreted "by too rigid an adherence to the letter," and that "great regard should be paid to the spirit and intention."

An article of the Constitution is but a law: to be sure, it is a part of the organic law, controlling the Legislature as well as the people, but the same rules of interpretation apply to it as apply to other laws. It does not repeal existing laws unless they are inconsistent with it, and the intention governs in its interpretation.

The intention of Article 14, as I have said, was to recognize the existing county officers in the various counties of the State, as known to the people thereof by their several names and by their legal powers and duties, and not to affect these officers further than they are necessarily affected by the particular requirements of the article.

These are only four, viz.: That county officers shall be elected at the general election, that they shall hold their offices for three years, that they shall be paid by salaries, and that they shall pay all fees into the public treasury. If the City Controller is at all affected by the Constitution, it is only in these particulars, and it would do violence to the intentions of the framers of it, and of the people who adopted it, to permit it to strike a line from any previous law or ordinance which affects him in any other way. The City Controller has been elected at the general elections since 1861, and, therefore, was so elected before the new Constitution was adopted; his term before that time was for the period of three years; he has always been a salaried officer, and has no legal fee.

Since the adoption of the new Constitution the Controller's security has been approved from time to time by the Councils, and he has proceeded in the performance of his duties as a City officer in obedience to the various ordinances of Councils affecting him, and thus the popular acceptance of the situation, the contemporaneous interpretation of the law by all the parties interested, has been in accordance with the view herein expressed.

It remains now to consider the 17th section of the act of March 31, 1876, which I have heretofore quoted. The title of this act is "An Act to carry into effect Section 5, Article 14,

of the Constitution, relative to the salaries of County Officers and the payment of fees received by them into the State or County Treasury, in counties containing over one hundred and fifty thousand inhabitants."

Section 5 of Article 14 of the Constitution reads thus: "The compensation of county officers shall be regulated by law, and all county officers who are, or may be, salaried, shall pay all fees which they may be authorized to receive into the treasury of the county or State, as may be directed by law. In counties containing over one hundred and fifty thousand inhabitants all county officers shall be paid by salary, and the salary of any such officer and his clerks, heretofore paid by fees, shall not exceed the aggregate amount of fees earned during his term and collected by or for him."

The third section of the third article of the Constitution compels a construction of the act of March 31, 1876, which will bring its effects within the scope of its title, and therefore if the act is claimed to remove the City Controller from among the corporate officers of the City of Philadelphia, the answer is that it would be unconstitutional for the Legislature to be permitted to effect such a purpose by such means.

The true construction of the act is not that the City Controller shall cease to be such and become the County Controller, but that he shall be subject to the various provisions of the act as if he had been elected as a county officer, that he shall be regarded as a county officer only to the extent that as such he shall have the powers, perform the duties, and be subject to the penalties prescribed by the act.

The City Controller is recognized as an existing officer by the act of June 11, 1879—the "pay-as-you-go" act—which gave us an improved system of finance, and in which the City Controller is a most important factor. He is there directed to estimate the City's income and expenditure, is made a check upon Councils, and penalties are put upon him to compel observance of the law.

The right given to Councils to fill a vacancy in the office of City Controller is a valuable corporate privilege, and should be maintained.

I am of opinion that Councils have the right to fill a vacancy in the office of City Controller, in accordance with the

provisions of the act of February 2, 1854, and April 18, 1867. I am, with great respect,

Your obedient servant,

WM. NELSON WEST,
City Solicitor.

APPENDIX No. 165.

Philadelphia, December 29, 1882.

To the Presidents and Members of Select and

Common Councils of the City of Philadelphia.

GENTLEMEN :—Your Joint Special Committee, appointed under resolutions adopted in Common Council on May 18 and November 16, 1882, and printed in Common Council Appendix as Nos. 66 and 77, respectfully report, that in obedience to the terms of their appointment, "after proper and thorough examination," they have prepared and do now, "at as early a day as possible," present for your consideration "a method of municipal government for the City of Philadelphia, whereby the demanded improvements in the organization and administration of municipal affairs can positively be attained," and ask your approval of the same, submitting at the same time as a supplemental report the views of some members of

the Committee calling attention to the radical changes therein proposed.

To the Select and Common Councils
of the City of Philadelphia.

The undersigned members of the Joint Special Committee on Municipal Government respectfully make the following as a

SUPPLEMENTAL REPORT.

The Committee has considered only a single system of municipal government, which has been presented to it by the framers of a bill based in part upon the report of the Commissioners appointed by the Governor of the Commonwealth under the Act of May 5, 1876, and partly upon the views of other citizens.

There are many reasons given in favor of the leading thought of this bill, some of which may be briefly stated as follows:

1. The concentration of power and responsibility in one official, the Mayor, chiefly by giving him the right to appoint and dismiss the heads of the Executive Departments of the City will, it is said, insure the choice of the right men for such Departments. And this is founded on the belief that no individual can alone withstand the criticism of public sentiment justly aroused by his failure to discharge properly the duties entrusted to him by the people.

2. The consolidation of the numerous Departments, Boards, and Commissions now existing into a few divisions, each under the supervision of a Director appointed by the Mayor, and forming with him a regulating council or cabinet, will obviate a conflict of authority and systematize the work of the municipality.

3. It is hoped that, by reason of the wide scope of the

Mayor's authority and the consequent need of popular interest in the election of a suitable man for the position, the people will be aroused to poll a full vote and will see that only an unexceptionable candidate is successful. As this choice is to take place at intervals of four years, it is thought that a great effort will be made to excite the attention and activity of all citizens, and that a few leaders will not be permitted to govern in such elections.

In opposition to these views there are others which may be generalized as follows: The necessity for a reduction in number and a revision and simplification of the present branches of the Executive Departments is conceded by all who are familiar with the affairs of this City. The exercise of the right to modify, change, and abolish the duties and offices now established (with the exception of Boards and Commissions in charge of public parks, taxes, and public buildings) may be at any time the subject of ordinances of Councils, under the Act of Assembly of May 19, 1874; or the Legislature may be appealed to for any alteration in reference to the same subjects (and with no exceptions). Improvements are needed and ought to be made. The present bill, however, is sweeping in its provisions—in effect, nearly equivalent to a new charter. The question is asked whether it would not be wise to make gradual changes, and by experimental tests ascertain the best modes of conducting the City's business, instead of at one blow destroying the whole present structure and creating one new and untried.

Reforms to be stable, it is said, must be growths, not revolutions. In this connection the danger of confusion and delay in reducing the new machinery to running order must be weighed. Again, while the right of suffrage in so vital a matter is to be exercised only once in four years, the voters do not either directly or by immediate representation choose the important directors who are to expend the City's revenue and to be charged with its order, its preservation, and its improvement. So remote an influence of electors, it is insisted, is not in accord with the principles of popular government. The Mayor has almost despotic powers, while the mode of calling him to account for a misdirected or evil use of his prerogatives, or to prevent such misuse, may be tardy and uncertain

in practice. Nor ought the argument founded on an analogy to the functions of the President and the members of his cabinet to prevail, because their powers are limited to the general affairs of the nation with State and local governments proximately affecting the people; but in this City the Mayor and his cabinet, under the present bill, are invested directly with all the executive work of the City government, which bears upon the every day life of every resident. If this distinction be unsound in theory, turn to the saddening reports of frauds in the journals of this and prior years, to ascertain the possibilities of wrongdoing under Federal administration.

Another serious consideration is the difficulty of finding a man whose experience and energy, whose integrity and tact, whose ability and firmness, make him eligible for the many-sided requirements of the office; and who, with all these qualities of mind and character, will also possess the gift of discovering the fitting endowments and acquirements in those others whom he may name for the control of the departments. If the Mayor be incompetent the entire management will be subject to injury because of his unwise selection of subordinates. If a worse event happen, and a corrupt or ambitious person be clothed with the exclusive privileges of the new Mayoralty, his influence for venal or selfish purposes would be very great, for his appointees would be his creatures and might be humbly subject to the will of their superior.

Summarily, then, some leading objections to the present bill are,

1. The danger of sudden and sweeping change.
2. The difficulty of electing a good Mayor and the risk of electing a bad or unfit one.
3. The plan is a departure from the theory and practice of local self-government by the people.

This paper is by no means exhaustive, nor is it intended to state herein all the points that may be made, both for and against the proposed new plan. The foregoing, however imperfectly expressed, are sufficient to show that the subject in the whole and in its divisions demands more prolonged and minute investigation and thought than could be given by this

Committee. Its sessions have been interrupted by the vacation of last summer and by the fall election; and there have been several fruitless meetings for want of a quorum. The members, too, have been engaged actively in private business and have been pressed by other duties as Councilmen, especially in the work of the appropriation for the year 1883.

It is stated to the Committee that the proposed Act of Assembly will be introduced at an early day in the Legislature, and its passage will be zealously urged by leading citizens of Philadelphia, who will be entitled to a favorable hearing. In view of this probability, the Committee feels obliged to make a report to Councils with some definite suggestions. It has endeavored to so strike out, alter and add to the bill in various articles and sections as to make its parts harmonize logically and properly with the general scheme of the proposed new law and to make its provisions as practicable as possible. These amendments are in many instances dissented from by members of the Committee, and all of them are admittedly subsidiary to the main plan of the act. There are diverse views in regard to several of these alterations, but it is deemed best not to discuss them separately, as they have in each instance been approved by a majority of those present when they were voted upon. It seems to be a "foregone conclusion" that the Act will be before the Legislature for action, and as containing suggestions to be laid before the Committee of that body to which the Act may be referred, the report of this Committee of Councils may be of some use.

A comparison of the printed bill, originally presented, with the printed bill as reported to Councils, will show the changes made by the Committee. It is not necessary now to set them forth in detail.

The signers of this paper are mindful of the defects of the present system of City government, with its past history of political abuses, and they heartily desire any modifications which will be wise and effectual in their provisions. Many able men, who unselfishly cherish the best interests of Philadelphia, believe in the re-organization now proposed. If it be all that such citizens think it is, none would be more ready to support and enforce it than those who, while they approve of the main idea of consolidating the departments and extending

the duties and responsibilities of the chief executive far beyond those now existing by law, and who also favor many minor portions of the act, do not feel that it should be adopted in its full extent. They agree with all who love free institutions, that "the welfare of the people is the supreme law."

Is there a reasonable assurance that the present bill will promote that welfare?

AN ACT

To provide for the better government of Cities of the First Class in this Commonwealth.

ARTICLE I.

SECTION 1. *Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same,* That in cities of the first class in this Commonwealth the executive power shall be vested in the Mayor and in the Departments authorized by this act.

SEC. 2. The Mayor shall be the chief executive officer of the City, and shall be at least twenty-five years of age, and have been a citizen and inhabitant of the State four years, and an inhabitant of the City for which he may be elected Mayor one year next before his said election, unless absent on the public business of the United States, or of this State, and shall reside in said City during his term of service.

SEC. 3. The Mayor shall be chosen by a plurality of the votes cast at the municipal election, and shall hold his office for the term of four years from the first Monday of April next ensuing his election, and serve until his successor is duly elected and qualified, but shall not be eligible to the office for the next succeeding term, and the Mayor first elected under this act shall hold his office for the term of three years only.

If two or more candidates be equal and highest in votes, one of them shall be chosen Mayor by a vote of the majority

of all the members of the incoming Councils in joint convention assembled, immediately upon their organization.

SEC. 4. When a vacancy shall take place in the office of Mayor, a successor shall be elected for the unexpired term at the next municipal election, occurring more than thirty days after the commencement of such vacancy, unless such election should occur in the last year of said term, in which case a Mayor *pro tempore* shall be chosen by Councils in joint convention, by the votes of the majority of the members elected, and the person elected Mayor shall hold office until the expiration of said term, and until his successor shall be duly elected and qualified, and it shall be the duty of the President of the Select Council to issue his proclamation for such joint convention, to be held not less than ten nor more than twenty days after such vacancy shall take place.

Until the vacancy is filled the President of Select Council shall act as Mayor.

SEC. 5. It shall be the duty of the Mayor—

I. To be vigilant and active in causing the ordinances of the City, and the laws of the State to be executed and enforced.

III. To communicate to Councils, at least once a year, a statement of the finances and general condition of the affairs of the City and also such information in relation to the same as either branch of Council may from time to time require.

III. To recommend, by message in writing, to the Councils all such measures connected with the affairs of the City, and the protection and improvement of its government and finances, as he shall deem expedient.

IV. To call special meetings of Councils or either of them when required by public necessity.

V. To perform such duties as may be prescribed by law or ordinance, and he shall be responsible for the good order and efficient government of the City.

SEC. 6. The Mayor shall call together the heads of Departments for consultation and advice upon the affairs of the city,

of his office a month, and at such meetings he may call on the heads of Departments for such reports as to the subject-matters under their control and management as he may deem proper. Records shall be kept of such meetings, and rules and regulations shall be adopted thereat for the administration of the affairs of the City Departments, not inconsistent with any law or ordinance, which regulations shall prescribe a common and systematic method of ascertaining the comparative fitness of applicants for office, position, and promotion, and of selecting, appointing, and promoting those found to be the best fitted, without regard to their political opinions or services.

The Mayor shall be *ex officio* a member of all Boards, and shall have the right as such to participate in their deliberations and proceedings and vote, whenever he may deem it advisable so to do.

SEC. 7. The Mayor may, by a written order giving his reasons therefor, remove from office any head of Department, Director, or other officer appointed by him.

SEC. 8. During the recess of Select Council he shall have power to fill all vacancies that may happen in offices to which he may appoint, in accordance with the regulations prescribed in Section 6 of this article, subject to the approval of the said Select Council at their next session, and if such appointment shall not be rejected within thirty days after said Select Council shall have convened, the same shall be considered confirmed.

SEC. 9. The several heads of Departments shall present to the Mayor annually, on or before the first Monday of February, a report of their proceedings during the preceding year, and he shall transmit the same to Councils with any recommendations he may think proper to make.

SEC. 10. The Mayor may disapprove of any item or items of any bill making appropriations, and the part or parts of the bill approved shall be the law, and the item or items disapproved shall be void, unless repassed, according to the rules and limitations prescribed by law for the passage of bills over the Mayor's veto.

SEC. 11. The Mayor shall, as often as he may think proper, appoint three competent persons to examine, without notice, the accounts of any City Department, trust, officer, or employé, and the money securities and property belonging to the City in the possession or charge of such Department, trustees, officer, or employé, and report the result of such investigation.

ARTICLE II.—*The Executive Department.*

SECTION. 1. There shall be the following Executive Departments :

- I. Department of Public Safety,
- II. Department of Public Works,
- III. Department of Finance,
- IV. Department of City Controller,
- V. Department of Law,
- VI. Department of Education,
- VII. Department of Charities and Correction,
- VIII. Sinking Fund Commission.

No Department shall be created other than those herein enumerated.

SEC. 2. Councils shall provide by ordinance for such bureaus, clerks, or other subordinate officers as may be required for the transaction of the business of the Departments.

SEC. 3. Each Department shall have power to prescribe rules and regulations, not inconsistent with any law or ordinance, or with the provisions of Section 6, Article I, hereof, for its own government, the conduct of its officers, clerks, and

employés, the distribution and performance of its business, and the custody, use, and preservation of the books, records, papers, and property under its control.

SEC. 4. Each Department shall furnish to the Mayor or Councils, or either branch of Councils, such information as he or they may at any time demand, in relation to its affairs.

ARTICLE III.—*Department of Public Safety.*

SECTION 1. The Department of Public Safety shall be under the charge of one Director, who shall be the head thereof.

SEC. 2. The care, management, administration, and supervision of the police affairs, and all matters relating to the public health, to the fire and police force, fire alarm telegraph, board of fire escapes, and the inspection of buildings and boilers, markets, and food sold therein, shall be in charge of this Department.

SEC. 3. No person shall be employed in this Department as a policeman or fireman who is not a citizen of the United States, or who has been convicted of crime, unless pardoned, or who cannot read and write understandingly in the English language, or who shall not have resided within the State at least one year preceeding his appointment.

SEC. 4. The Superintendent of Police, whenever directed by the Department, shall appoint, and cause to be sworn in, any number of additional patrolmen to do duty at any place in the City, designated by, and at the charge and expense of, the person or persons who may ask for such appointment. They shall be subject to, and obey the orders, rules, and regulations of the Department, and conform to the general discipline and special regulations thereof.

SEC. 5. The Mayor may, upon any emergency, or apprehension of riot or mob, take command of the police force, and appoint as many special patrolmen as he may deem advisable.

During their service the special appointees shall possess the powers and perform the duties of regular employees of the Department, and shall receive such compensation as shall be authorized by the Mayor, not exceeding that of the regular officers of the force performing corresponding duties.

SEC. 6. The Mayor shall have power to summon the *posse comitatus* for the preservation of the public peace, and hold and employ such *posse* subject to his direction.

SEC. 7. The Department shall make suitable regulations under which the officers and members of the fire, telegraph, and police force shall be required to wear an appropriate uniform. It shall be a misdemeanor, punishable by fine and imprisonment, for any person to falsely personate by uniform, insignia, or otherwise, any officer or member of the Department.

SEC. 8. There shall be created and established by ordinance a pension fund, to be maintained by an equal and proportionate monthly charge made against each member of the fire and police force, which fund shall be safely invested and held in trust by the Commissioners of the Sinking Fund, and applied upon such terms and regulations as Councils may by ordinance prescribe, for the benefit of such members of the fire and police force as shall receive honorable discharges therefrom by reason of age or disability, and the families of such as may be injured or killed in the service, but such allowance as shall be made to those who are retired by reason of the disabilities of age shall be in conformity with a uniform scale. And all appropriations made by Councils for the purposes named in this section shall be added to and be deemed a part of said fund, together with every gift, devise, and bequest made to the said force.

SEC. 9. The Board of Health shall continue with the powers and duties now vested in it by law, but the members thereof shall be five in number, to be nominated by the Mayor and confirmed by Select Council, for the period of three years. The present members thereof shall serve until the expiration of their terms of office respectively, but when

their number shall be reduced below five then the Mayor shall nominate persons to fill the vacancies resulting therefrom, so that the number shall be always five; but it shall be attached to the Department of Public Safety. The Director of Public Safety shall *ex officio* be a member and the President of the Board of Health; and, as Chief Executive Officer thereof, subject to the resolutions and orders of the said Board, appoint, supervise, and control all the subordinate officers and employés attached to the Board.

SEC. 10. The Board of Building Inspectors shall consist of five members, two of whom shall be appointed as hereinafter specified, and after the expiration of the respective terms of office of the several present Building Inspectors, their places shall be filled by appointment by the head of the Department in the manner pointed out in Section 4 of Article XI of this Act, but it shall be attached to the Department of Public Safety and shall perform the duties now by law allotted to it under the supervision and control of the Director of Public Safety.

ARTICLE IV.—*Department of Public Works.*

SECTION 1. The Department of Public Works shall be under the charge of one Director, who shall be the head thereof.

SEC. 2. Water works and gas works owned or controlled by the City, the supply and distribution of water and gas, the grading, paving, repairing, cleaning, and lighting of streets, alleys, and highways, the construction, protection, and repair of public buildings, bridges, and structures of every kind for public use, public parks, real estate (except such as now or hereafter may be used for educational or police purposes), surveys, engineering, sewerage, drainage, and dredging, and all matters and things in any way relating to or affecting the highways, footways, wharves, and docks of the City shall be under the direction, control, and administration of the Department of Public Works, as may be provided from time to time by ordinance.

SEC. 3. The operations of the City Ice-boats shall be under the direction of this Department.

SEC. 4. The provisions of Section 2 of an act entitled "An Act appropriating ground for public purposes in the City of Philadelphia," approved the twenty-sixth day of March, 1867, are hereby repealed.

SEC. 5. The provisions of Section 27 of an act entitled "A Further Supplement to an act entitled 'An Act to incorporate the City of Philadelphia,'" approved February 2, 1854, and of Section 3 of an act entitled "A Supplement to the Act Consolidating the City of Philadelphia," approved April 21, 1855, are hereby repealed, and Councils are hereby authorized by ordinance to divide the City into such Survey Districts as to them may seem proper. Until the expiration of the respective terms of office of the present District Surveyors, such Surveyors shall be attached to the Department of Public Works and shall perform their duties under the direction of the said Department, and at the expiration of their said respective terms, subject to such ordinances as Councils may make upon the subject, their places shall be filled in the manner pointed out in Section 4 of Article XI of this Act.

ARTICLE V.—*Department of Finance*

SECTION 1. There shall be a Department of Finance, to be under the charge and administration of a Director, who shall be the head of the said Department. He shall hold his office during good behavior, and until removed by the Mayor.

SEC. 2. The Department of Finance shall have charge of the fiscal concerns of the City. All officers charged with the duty of collecting taxes, and the care, receipt, collection, custody, management, or disbursement of funds derived from loans, licenses, water-rents, rents from markets, landings, wharves, and other public property, and interests, shall be attached and subordinate to this Department, and be subject to its supervision, control, and direction. But Boards of Directors of City Trusts now existing, created by any Acts of

Assembly of this Commonwealth, shall perform their functions as heretofore.

SEC. 3. The City Commissioners shall be attached to the Department of Finance, and shall perform their duties subject to the supervision and direction thereof.

SEC. 4. The Director of the Department of Finance shall have power, at any time, to inspect, examine, or copy vouchers, records, or papers in any Department.

The City Treasurer.

SEC. 5. The City Treasurer shall be elected as now provided by law, and shall hold his office for a term of three years, and until his successor shall be duly chosen and qualified.

SEC. 6. No person shall be eligible to the office of Treasurer, except a citizen of the City, resident therein for seven years next preceding his election, unless he shall have been absent on public business of the United States, or of this State, and he shall not be eligible to election for the next succeeding term.

SEC. 7. The City Treasurer shall demand and receive all moneys payable to the City from whatever source, and pay all warrants duly issued and countersigned.

SEC. 8. No money shall be drawn from the City Treasury, except by due process of law or upon warrants on the Treasurer, signed by the head of the appropriate Department, and countersigned by the Controller, which shall state the consideration of the same, and the particular fund or appropriation to which the same is chargeable. Warrants drawn by the Controller for the expenses of his office shall be countersigned by the Mayor.

SEC. 9. He shall be charged by the Controller with the full amount of all tax duplicates of the several Wards, and

also with all other accounts placed in his hands by the proper officer for collection, and shall make daily returns to the Controller of all moneys paid, and by whom paid.

SEC. 10. The Treasurer shall keep the accounts arising from the several sources of revenue and income separate and distinct from one another, and shall make daily deposits of all moneys received by him in such banks or institutions as may be designated by Councils, and shall make specific reports daily to the Controller of all receipts and deposits, and of all moneys withdrawn from the Treasury, and shall present and verify his cash account in such manner, and as often, as may be required.

SEC. 11. All the moneys of the City, received by any officer or agent thereof, shall be deposited daily in the City Treasury.

SEC. 12. The provisions of Section 11 of an act entitled "A further supplement to an act entitled 'An Act to incorporate the City of Philadelphia,'" approved the 2d day of February, 1854, be and the same are hereby repealed.

ARTICLE VI.—*Department of City Controller.*

SECTION 1. The City Controller shall be the head of this Department. He shall be elected as now provided by law, and shall hold his office for a term of three years, and until his successor shall be duly chosen and qualified.

SEC. 2. The City Controller shall—

I. Prescribe the form of reports and accounts to be rendered to his Department, and shall have the inspection and revision of the accounts of all other Departments and trusts.

II. Audit the accounts of the several Departments and trusts, and all other accounts in which the City is concerned, and submit annually to Councils, in such manner as may by ordinance be directed, a report of the accounts of the City,

verified by his oath or affirmation, exhibiting the revenues, receipts, and expenditures, the sources from which the revenues and funds are derived, and in what manner the same have been disbursed, which report shall be published in pamphlet or book form.

III. Keep separate accounts for each specific item of appropriation made by Councils to each Department, and require all warrants to state specifically against which of said items the warrant is drawn. Each account shall be accompanied by a statement in detail, in separate columns, of the several appropriations made by Councils, the amount drawn on each appropriation, the unpaid contracts charged against it, and the balance standing to the credit of the same.

IV. He shall not suffer any appropriation to be overdrawn, or the appropriation for one item of expense to be drawn upon for any other purpose, or by any Department other than that for which the appropriation was specifically made, except on transfers made by ordinance of Councils, nor unless sufficient funds, out of which said warrant is payable, shall actually be in the Treasury at the time.

V. If any warrant presented to the Controller contain an item for which no appropriation has been made, or there shall not be a sufficient balance of the proper fund for the payment thereof, or which for any other cause should not be approved, he shall notify the proper Department of the fact, and if the Controller shall approve any warrant contrary to the provisions hereof, he and his sureties shall be individually liable for the amount of the same to the holder thereof.

VI. Whenever a warrant or claim shall be presented to him he shall have power to require evidence that the amount claimed is justly due, and for that purpose may summon before him any officer, agent, or employé of any Department of the City, or any other person, and examine him upon oath or affirmation relative to such warrant or claim.

VII. He shall also perform all duties required of him by law or ordinance, not inconsistent with the provisions of this Act.

SEC. 3. Detailed, statements of the receipts and expenditures of the several Departments shall be made on the third Monday of each month to the Controller.

SEC. 4. Every contract involving an appropriation of money shall designate the item of appropriation on which it is founded, and shall be numbered by the Controller in the order of its date, and charged as numbered against such item, and so certified by him before it shall take effect as a contract, and shall not be payable out of any other fund; and if he shall certify any contract in excess of the appropriation properly applicable thereto, the City shall not be liable for such excess, but the Controller and his sureties shall be liable in damages for an amount not exceeding such excess, which may be recovered in an action on the case for negligence by the contracting party aggrieved.

SEC. 5. The Controller shall, at the end of each fiscal year, or oftener, if so required by Councils, and also upon the death, resignation, removal, or expiration of the term of any officer, audit, examine, and settle the accounts of such officer, and if he shall be found indebted to the City, the Controller shall state an account, and file the same in the Court of Common Pleas of the proper county, together with a copy of the official bond of such officer, and give notice thereof to him, or his legal representatives, and if any person or persons affected thereby shall be dissatisfied with such settlement, he or they may appeal therefrom. The appeal, with his or their exceptions to the account as stated, verified by the oath of the person or persons appealing, shall be filed in the office of the Prothonotary of said court within ten days after the service of notice. The appellant shall, within ten days, enter security to be approved by the court, to prosecute the appeal with effect, and pay the costs, and the debt and interest which may appear by the judgment of the court to be due to the City. The balance of account, as shown by the settlement filed as aforesaid, shall constitute a lien on the real estate of the officer so indebted, and his sureties from the date of the filing thereof, which lien shall continue for the period of five years from the date of filing. A writ *scire facias* to enforce the lien shall be issued thereon, within six months, which shall

contain a clause warning the sureties, or the executors or administrators of the officer, or of his sureties, to appear and make defence, and the case shall thereupon be proceeded with to final judgment according to law.

Notice of the audit shall be given by the Controller to the officer or his legal representatives, before the final statement of the account, and, if desired by such officer or his legal representatives, opportunity shall be given for a hearing. A copy of such notice, with an affidavit of the proof of service thereof, shall be filed with the statement of account as evidence of service of notice.

ARTICLE VII.—*Department of Law.*

SECTION 1. The Department of Law shall consist of a City Solicitor who shall be the head thereof; he shall be elected as now provided by law, and shall hold his office for a term of three years and until his successor shall be duly chosen and qualified; the Department shall consist of as many assistants and clerks as may be authorized by ordinance. The Solicitor and Assistant Solicitors shall be attorneys-at-law, admitted and qualified to practice in the courts of this Commonwealth.

SEC. 2. The City Solicitor shall—

I. Be the legal adviser, and act as attorney and counsel for the City and all its Departments, trusts, and officers.

II. Prepare all contracts to be made with the City or any of its trusts and Departments, and endorse on each his approval of the form thereof, before the same shall take effect, and be the custodian of all such papers and records as may be designated, and perform such other duties appertaining to his Department as may be required by law or ordinance.

III. He shall make a return daily to the City Controller of each item of money or moneys received by or through him, or his assistants, by virtue of his office, including all fees and perquisites, for the preparation of any contracts, bonds, or

other instruments of writing, or such as may be derived from any other subject-matter connected with the City or its affairs, and shall pay daily such amount to the City Treasurer.

SEC. 3. All contracts, bonds, and other instruments of writing, in which the City is concerned, shall be prepared in the office of the City Solicitor, and he shall receive for the City a reasonable fee from the persons for whom such contracts, bonds, or instruments may be drawn, to be fixed by ordinance; and he shall approve all security required to be given for the protection of the City, and a proper registry shall be kept by him of all such contracts, bonds, and instruments.

SEC. 4. No Department of the City shall employ any other solicitor, but assistant counsel may be employed in any particular matter or cause by the Mayor, with the consent of Councils.

SEC. 5. Judgments recovered against and payable by the City, remaining unpaid with the interest due and to become due thereon, shall be reported to the Councils, by the City Solicitor, at their first session after the same shall become payable, and if there shall be no funds in the Treasury provided for and applicable to the payment thereof, the amount shall be raised in the next levy of taxes. Such judgments shall be paid, in the order of their priority, out of the first moneys paid into the City Treasury on account thereof, by reason of such levy, but if there be any moneys in the Treasury not otherwise appropriated, Councils shall direct the payment therefrom of the judgments in the order of their priority, and the plaintiffs in such judgments shall have the right to enforce compliance with the provisions hereof by mandamus or other proper process, but shall not have the right to collect or compel the payment of any such judgments in any other manner, or out of any other funds of the City.

ARTICLE VIII.—*Department of Education.*

SECTION 1. There shall be a Board of Education, consisting of a Director and associate members, one from each Ward of the City, of whom the Director shall be the president and executive officer, and the associate members shall serve without compensation. The Director and members shall be appointed by the Mayor, with the advice and consent of Select Council, and their term of office shall be for five years from the date of their several appointments; but of the members first appointed the terms of six shall expire at the end of one year, the term of six at the end of two years, the term of six at the end of three years, the term of six at the end of four years, and the term of the remainder at the end of five years, and the duration of the terms of the members so appointed shall be determined by lot. The Director shall hold office during the term for which the appointing Mayor was elected, and the associate members shall hold office for the term of five years.

SEC. 2. The Board of Education shall have the general care and supervision of the public schools; the power to determine the number and location of the school houses; to make all purchases of furniture, fuel, books, and supplies of every kind which may be necessary in the carrying on of the schools, and to prescribe such grades and courses of study within the limit of the appropriations made to the Department for the item of salaries; to fix and determine the amount of salary to be paid to the teachers of the respective grades, the janitors and other subordinates of the Department, subject to the approval of Councils, and establish and enforce all such general rules and regulations for the management and conduct of the schools as they may deem proper.

SEC. 3. The School Directors of the several Wards in cities of the first class shall continue to be elected by the qualified voters of the several Wards in the manner now prescribed by law, and to exercise a care and supervision over the schools located in their several Wards, subject to the rules and regulations prescribed by the Board of Education; to appoint, subject to the restriction that no appointment shall be made unless

the person appointed have received a certificate of qualification duly issued by the authority of the Board of Education, the teachers of the several schools within their respective Wards, and to exercise all the powers and perform all the duties now belonging to their office, except in so far as may be otherwise provided in this act.

× SEC. 4. The provisions of this bill relative to the Department of Education shall be in force and effect from and after the first Monday of April, 1884, and immediately thereupon the powers and duties of the present members of existing Boards of Education shall cease.

ARTICLE IX.—*Department of Charities and Correction.*

SECTION 1. The Department of Charities and Correction shall be under the charge of a president and four directors, to which Department shall be confided the care, management, administration, and supervision of the charities, prisons, almshouses, hospitals, houses of correction, and all other similar institutions, the control or government of which is entrusted to the City: *Provided*, That no part of this section shall interfere with the Municipal Hospital or Lazaretto as now under the control of the Board of Health.

SEC. 2. The Board shall keep a complete record of all its proceedings, which shall always be open to the inspection and examination of the Mayor and of any Committee appointed by Councils, or either branch thereof, and shall appoint all officers and servants required for the several institutions under its management.

SEC. 3. Councils shall have power to provide, by ordinance, for all things needful for the proper and efficient management of the said institutions and the said Department, not inconsistent with the provisions of this Act, and all able-bodied paupers, vagrants, and other persons, admitted or committed to any of the said institutions, may be required to work upon the public streets or roads, or elsewhere.

SEC. 4. The Board of Inspectors of the County Prison shall continue as now constituted by law, but they shall be attached to the Department of Charities and Correction, and, except in so far as is now otherwise provided by this Act, shall perform the duties now by law allotted to them. The President and Directors shall be *ex-officio* members of the said Board, and the said President shall be the presiding and chief executive officer thereof, and subject to the resolutions and orders of the said Inspectors, shall appoint, supervise, and control all the subordinate officers and employés attached to the Board.

ARTICLE X.—*Sinking Fund Commission.*

SECTION 1. The Sinking Fund Commission shall continue as now established by law.

ARTICLE XI.—*Appointment of Departmental Officers, Clerks, and Employés.*

SECTION 1. The Mayor shall nominate, and by and with the advice and consent of the Select Council, appoint the following officers, who shall hold office during the term for which the appointing Mayor was elected, and until their successors shall be respectively appointed and qualified :

I. The Director of the Department of Public Safety.

II. The Director of the Department of Public Works.

III. The Director of the Department of Finance.

IV. The President and Directors of the Department of Charities and Correction shall also be appointed by the Mayor, but their term of office shall be five years from the date of their appointment, if they shall so long behave themselves well.

SEC. 2. Except in the Department of Finance, the Direc-

tors or chief officers of Departments shall appoint all subordinate officers and clerks.

Except in the Department of Finance the directors or chief officers of Departments may, by written order giving their reasons therefor, remove or suspend subordinate officers and clerks, provided the same is not done for political reasons.

In the Department of Finance, the subordinate officers, except the City Treasurer and City Commissioners, shall be appointed by the Director, subject to confirmation by the Select Council, and shall be removable at the discretion of the Department. In case of such removal the Director shall appoint a successor, who shall hold office, subject to confirmation, within ten days after such appointment by the Select Council, if then in session, or within ten days after the beginning of the next succeeding session, if such appointment be made during a recess.

SEC. 3. The City Treasurer shall appoint his own clerks.

SEC. 4. All officers, clerks, and employé in the several Departments and sub-divisions thereof or of any Board attached thereto shall be appointed by the head of the said Department, but after six months from and after the passage of this Act no such appointment or any promotion of any subordinate official, excepting only of assistants or laborers employed for special or temporary purposes, and professional experts, and such others as are specially excepted by this Act, shall be lawful except when made under and in pursuance of rules and regulations providing for the ascertainment of the comparative fitness of all applicants for appointment or promotion by a systematic, open and competitive examination of such applicants, which rules and regulations it shall be the duty of the Mayor and the heads of Departments to make and promulgate within six months after the passage of this Act. One of the said rules shall provide that any personal solicitation of the officers of said Board, or of the appointing power, in favor of any candidate by any person whomsoever, unless fraudulently done in order to injure him, shall be taken and deemed to have been at the instance of the candidate himself, and shall disqualify him from competing at any such examination or appointment for and during one year thereafter.

ARTICLE XII.—*Impeachment of Municipal Officers.*

SECTION 1. Municipal officers shall be liable to impeachment, suspension, and removal from office for any corrupt act or practice, malfeasance, mismanagement, mental incapacity, or incompetency for the proper performance of official duties, extortion, receiving any gift or present from any contractor, or from any person seeking or engaged in any work for, or furnishing material to the City, or from any incumbent or occupant of, or candidate, or applicant for any municipal office, and for wilfully concealing any fraud committed against the City.

SEC. 2. Complaint in writing may be made to the Court of Common Pleas of the proper County, by not less than twenty freeholders of the City, each of whom shall write his occupation and residence opposite his signature, charging any municipal officer with any of the offences named in the preceding section, and setting forth the facts on which the said charge is founded, supported by the oaths or affirmations of at least five of the complainants, according to the best of their knowledge, information, and belief. If, in the judgment of the Court, there appears to be reasonable ground for such proceeding, the Court shall direct the complaint to be filed of record, and grant a rule upon the accused, returnable on a day certain, to appear and answer the same.

SEC. 3. If, on the return day of the rule, the Court shall find sufficient cause for further proceedings, it shall appoint a Committee of five competent and reputable citizens to investigate the charges contained in said complaint, who, having been first severally sworn or affirmed to perform the duties of their appointment with fidelity, shall have full authority for that purpose, to examine the books of the office held by the accused, and any papers, contracts, letters or documents filed therein, and examine witnesses under oath or affirmation, whose attendance the Court shall enforce, if necessary, by subpœna and attachment.

SEC. 4. It shall be the duty of the Committee to make a

written report to the Court of the facts found by them, which shall be filed of record, accompanied by the testimony taken, within three weeks next after their appointment, unless the time shall be extended by the Court upon their application. In any stage of the proceedings, if the public interest so require, the Court may, by an order to be filed of record in the case, suspend the accused from office until he shall be tried and acquitted.

SEC. 5. If the Committee, or any three of them, shall find that any charge made as aforesaid is well founded, they shall, in their report, so state in specific form, and in such case the Court shall cause a certified copy of the whole record, with the specifications of the charges against the accused, to be transmitted to the Select Council, which shall be assembled within ten days thereafter in special and open session, as a Court of Impeachment, and the members shall be severally sworn to try and decide the same according to the evidence. A copy of the specifications shall be served on the accused, or left at his last place of residence, at least five days before the commencement of the trial, and he shall be entitled to be heard therein, in person or by counsel, and to produce evidence in his defence, and the prosecution before the Select Council shall be conducted on the part of the City by the City Solicitor.

SEC. 6. The President Judge of the said Court of Common Pleas, or, in his absence, an associate law judge thereof, shall preside during the trial, and decide finally all questions of law and evidence that may arise in the case. He shall have power to issue subpoenas for witnesses, and compel their attendance by attachment, and the production, of books, papers, and documentary evidence required or called for by the said Court of Impeachment, and to punish witnesses and others for contempt, as fully as any Court of this Commonwealth may lawfully do, in any case.

SEC. 7. The decision of the Court of Impeachment shall be entered upon the record of its proceeding, and certified by the Clerk to the Court in which the complaint was filed. If the accused shall be found guilty on any of the specifications,

the said Court of Common Pleas shall enter judgment accordingly, and declare the said office vacant.

ARTICLE XIII.—*Contracts.*

SECTION 1. All contracts relating to City affairs shall be in writing, signed and executed in the name of the City, by the officer authorized to make the same, after due notice; and in cases not otherwise directed by law or ordinance, such contracts shall be made and entered into by the Mayor. No contract shall be entered into or executed directly by the City Councils or their Committees, but some officer shall be designated by ordinance to enter into and execute the same. All contracts shall be countersigned by the Controller, and filed and registered by number, date, and contents in the Mayor's office, and attested copies furnished to the Controller and to the Department charged with the work.

SEC. 2. Every contract for public improvements shall be based upon an estimate of the whole cost, furnished by the proper officer through the Department having charge of the improvement, and no bid in excess of such estimate shall be accepted. Every such contract shall contain a clause that it is subject to the provisions of this Act, and the liability of the City thereon shall be limited by the amounts which shall have been or may be from time to time appropriated for the same.

Such contracts may be suspended for want of means or other substantial cause by the officer who was authorized to make such contracts, with the written approval of such suspension by the Mayor, and if such suspension be proven in any trial to be founded on the want of means or other substantial cause, then the City shall not be in any manner held liable therefor.

SEC. 3. Every contract made by or on behalf of the City shall be subject to the right and authority of the Mayor to supervise the performance of the same, and to suspend the execution thereof for not more than ten days, for the purpose

of investigation, whether such contract expressly reserves the right so to do or not.

SEC. 4. On the complaint of any citizen and tax-payer, that public work is being done contrary to contract, or the work, or material used, is imperfect, or different from what was stipulated to be furnished or done, the Mayor may appoint three reputable citizens, acquainted with the subject-matter, to examine and report on the work or material, and if it shall be found that the contract has been violated by the contractor, the Mayor shall have power to annul the same, subject to revision by proceedings in equity, upon application by the party aggrieved.

SEC. 5. The Court of Common Pleas of the proper county shall have power to restrain, by injunction, the execution or performance of any contract in which the City is concerned, and cancel the same on bill filed by any five freeholders, charging fraud in the making, execution, or performance thereof, and the proceedings in such case shall conform to the practice and rules of courts of equity in this Commonwealth.

SEC. 6. No contract for work to be done for or property or materials to be sold or supplied to any City of the first class or any Department thereof shall be made with any Councilman, officer, or employé of such City, or with any firm, copartnership, or association of which such Councilman officer, or employé is a member, and if any Councilman, officer, or employé during the term for which he shall have been elected or appointed knowingly acquire an interest in any such contract, he shall forfeit his office.

SEC. 7. In all contracts for improvements, the cost of which is to be paid by assessments upon the property abutting or benefitted, the City shall not be liable to any claim for the amount to be collected from such assessments, but the contractor shall look to the assessment for his compensation.

ARTICLE XIV.

SECTION 1. The first elections under this Act shall be held on the third Tuesday of February immediately preceding the expiration of the term of the Mayor in office at the time of its approval.

SEC. 2. The City Treasurer, the City Controller, the City Commissioners hereinbefore mentioned are hereby declared to be officers of said Cities of the first class, and their several terms are hereby extended to the first Monday of April following the expiration of their several terms now provided for by law. They shall severally perform the duties now devolving upon them by law.

Hereafter, where Cities of the first class are co-terminus with the counties wherein they are located, the offices of County Treasurer, County Controller, and County Commissioners shall no longer exist.

SEC. 3. For the purpose of enacting legislation to properly carry out the provisions of this Act, the Councils, as soon as conveniently may be, shall enact ordinances providing for the reorganization of the several Departments of the City, so as to conform to the requirements of this Act. All executive powers and duties of the several officers of the City, not hereinbefore otherwise distributed, shall be assigned by ordinance to the appropriate Department hereby created, and when so assigned, all other Departments now existing shall be abolished.

SEC. 4. Each branch of Councils shall have power to compel the attendance of witnesses, and the production of books, papers, and other evidence, at any meeting of the body, or of any Committee thereof, and for that purpose may issue subpoenas and attachments in any case of inquiry, investigation, or impeachment, and cause the same to be served and executed in any part of the Commonwealth; and if any witness shall refuse to testify as to any fact within his knowledge, or to produce any books or papers within his possession or under his control, required to be used as evidence in any such case,

the Clerk of that branch of Councils by whose authority such witness was subpoenaed shall forthwith report the facts relating to such refusal to that one of the Courts of Common Pleas of the county to which current new actions and proceedings may at the time be distributed, apportioned, and assigned, and all questions arising upon such refusal and also upon any new evidence not included in said Clerk's report (which new evidence may be offered either in behalf of or against such witness) shall at once be heard by said Court. If the Court determine that the testimony or evidence required by such witness is legally and properly competent and ought to be given or produced by him, then said Court shall make an order commanding such witness to testify or to produce books and papers (or both, as the case may be), and if said witness shall thereafter refuse to testify or to produce books or papers as aforesaid, in disobedience of such order of the Court, then the said Court shall have power to order the commitment of such witness to the jail of the proper county for contempt.

SEC. 5. No witness shall be excused from testifying in any criminal proceeding, or in any investigation or inquiry before either branch of the Councils, or any Committee thereof, or any officer of the City having the right to conduct the investigation, touching his knowledge of any offence committed against the provisions of this Act. But such testimony shall not be used against him in any criminal prosecution whatever, and the accused shall not be convicted in any Court on the testimony of an accomplice, unless the same be corroborated by other evidence, or the circumstances of the case.

SEC. 6. All persons who, at the time of the passage of this Act, shall be employed by any Department of the City government, which is abolished by this Act, shall be transferred, by operation hereof, to the appropriate Department, hereby created, and shall perform such duties as may be required of them by the head of such Department.

SEC. 7. All salaried officers, whose offices are not abolished by this Act, shall serve out the several terms for which they were respectively elected, except where the right of removal

already exists. They shall perform their several duties subject to the supervision and control of the appropriate Department, and shall receive the same salary, fees, and emoluments to which they were severally entitled before the passage of this Act.

SEC. 8. The Office of Receiver of Taxes and Collector of Delinquent Taxes are hereby abolished from and after the expiration of the term of the present incumbent.

SEC. 9. The Board of Managers of the House of Correction and the Board of Guardians of the Poor are abolished from and after the first day of January, 1884.

SEC. 10. The following provision, to wit: "And the said Commissioners shall make requisition on the Councils of said City prior to the first day of December in each year for the amount of money requisite by them for the purposes of the Commission for the succeeding year, and said Councils shall levy a special tax sufficient to raise the amount so required" of an Act entitled "An Act to provide for the erection of all the public buildings required to accommodate the courts, and for all municipal purposes in the City of Philadelphia, and to require the appropriation, by the said City, of Penn Square, at Broad and Market streets, to the Academy of Fine Arts, the Academy of Natural Sciences, the Franklin Institute, and the Philadelphia Library, in the event of the said squares not being selected by a vote of the people as the site for the public buildings for said City," approved the fifth day of August, Anno Domini one thousand eight hundred and seventy, shall be and the same are hereby repealed, and the said act is hereby amended so that the said Commissioners shall be subject to the provisions of the third section of the Act entitled "An Act to authorize cities of the first class to levy and fix a tax rate, to fix the time of opening and closing the tax duplicates, to regulate the appropriations and expenditures of said cities and prescribing the penalties for the violation of the provisions of the Act," approved the eleventh day of June, 1879.

SEC. 11. No person shall hold more than one office in any

City Department, and no person shall hold any office of honor, trust, or profit under the City, or any Department thereof, while holding any other official or representative position in or under the Government of the United States, or of this Commonwealth, or of such City, except in the militia service of this Commonwealth.

SEC. 12. If any officer or employé of any Department shall receive or share in any present, fee, gift, or emolument for official services other than his regular salary or pay, except by the consent of the Director of the Department given in writing, he shall be dismissed from the service.

SEC. 13. No officer or employé of any Department shall be a member of or delegate to any political convention, nor shall he be present at any such convention, except in the performance of duty relating to his position as such officer or employé, and any violation of these provisions shall work a forfeiture of his position, and it shall be the duty of the Department to dismiss him from office and enter upon their record the cause of such dismissal.

SEC. 14. No officer or employé of the City shall collect any fees or perquisites for his own use, but all such fees or perquisites now collectable under the law shall be paid into the City Treasury; and Councils by ordinance shall provide for the payment of proper salaries to all officers or employés of the City, except for such of them as it is herein provided shall serve without compensation.

RESOLUTION

Of request to the Board of Public Education in regard to surplus fund.

WHEREAS, The Board of Public Education have not yet reported to Councils any disposition of, or introduced any ordinance making a distribution of, the three hundred thousand (300,000) dollars appropriated to them from the surplus of 1880 and 1881, under the ordinance of June 21, 1882; and

Whereas, The children of the City, especially in the outlying wards, are in great need of school accommodations and clamoring for education, which they should, in our judgment, speedily and properly receive; therefore be it

Resolved, That the Committee on Schools be and they are hereby requested to report to these Councils, on or before March 1 next, an ordinance appropriating said sum, and designating where the school buildings are to be located, and setting aside and appropriating a specific sum to each school building or improvement or addition to the school building so designated.

APPENDIX No. 184.

Philadelphia, January 14, 1883.

To the Honorable Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—Your petitioners beg to call the attention of your honorable bodies to the following considerations connected with the care of the poor and sick of the City, and with the Almshouse grounds, which considerations seem to them of such importance as to merit bringing them before your notice with the request that a Special Committee be appointed to examine into them. It seems that the time has come when suitable provision should be made for the pauper inmates of the Almshouse, at some location farther removed from the centre of the City. Their presence in the Twenty-seventh Ward is unquestionably a serious injury to real estate in that district, and must become increasingly objectionable to the community. On the other hand, it appears difficult to suggest any spot where a large City Hospital, which will always be required, could be located so advantageously as that where the present Almshouse buildings, which include the Philadelphia Hospital, stand.

These buildings were erected a number of years ago at a cost of about \$1,000,000, and probably could not be replaced to-day without largely increased outlay. They have been examined by highly competent persons, and there seems no doubt that, after the removal of the pauper inmates and the expenditure of a comparatively small sum, not exceeding \$20,000, in the renovation of the buildings and in improvement of the heating apparatus, they would be thoroughly well adapted for the purpose of a large hospital, and would supply all the accommodation, both for the sick and the insane, that could be needed for the City for many years to come. Those for whom Philadelphia must provide a Municipal Hospital do not come, for the most part, from the Almshouse population, but are admitted from the City, and are drawn in a large proportion from the laboring classes, who can support themselves in health, but who become necessarily dependent on charity when disabled by sickness. At the new Almshouse, wherever located,

it will only be necessary to have an infirmary of small capacity.

At the present time that portion of these buildings devoted to hospital purposes, and to the care of the insane, is so overcrowded that, unless the pauper inmates are removed, it will speedily be necessary to erect further buildings on the present site. Even now it is found necessary to send from 600 to 750 insane patients from Philadelphia to the Norristown Asylum, and the annual appropriation for their maintenance there is \$121,430. It is safe to say, if space were provided for these patients in the Almshouse buildings, the City would save not less than \$50,000 per annum.

A hospital in this position will always be readily accessible from every part of the great Philadelphia of the future. Sick or injured persons could be brought by water and by steam or passenger railway to within a few squares of its doors.

The services of distinguished physicians and surgeons can always be commanded without cost while it remains in such a central and accessible location.

The important interests of medical education, which demand that the large numbers of medical students drawn to this City may have ready access to clinical instruction, will be best subserved by retaining the hospital where it now is.

Finally, if the high wall now surrounding the buildings were removed and a suitable railing erected, so as to inclose a limited amount of well-kept grounds in connection with the buildings, the Institution would become not only unobjectionable, but, as is seen in cases of all well-managed hospitals, really a desirable improvement. It appears to your petitioners that every motive of humanity, economy and policy urges the adoption of the two suggestions above made.

Assuming that your honorable bodies will give courteous attention to these points, we beg further to ask your consideration of the great advantages of reserving the ground lying east and northeast from the present Almshouse buildings, and between those buildings and the land owned by the West Chester Railroad Company, to be improved and maintained perpetually as a public park for the citizens of Philadelphia, embracing the ground between South street on the north, Thirty-fourth street and Vintage avenue on the west, Cleveland avenue on the south, and the land of the West Chester Railroad on the east. There would be about twenty-five acres,

more or less, available for such purposes. It has, we understand, always been proposed to reserve a considerable portion of this as a park for the use and recreation of the community, and, indeed, some years ago a legislative enactment directed that such reservation of a part of the Almshouse property should be made. The proposed plan would afford a park of moderate but sufficient dimensions, readily accessible by South street bridge, by the bridge to be erected in the future at a point farther south, from the south and west portions of West Philadelphia, and by steam and passenger railways from all portions of the City and suburbs. Taken in connection with the open ground of Woodland Cemetery and of the University of Pennsylvania, it would surround the great City Hospital located in this district with abundance of open space and pure air, which are so essential to the healthfulness of such institutions, and would prevent the construction of obnoxious and unwholesome factories in its vicinity. It would further improve, in a most desirable manner, an important portion of the west bank of the Schuylkill river, and would thus aid materially in stopping the development and diffusion of malarial poison which now influences so prejudicially the population on both sides of the river. The estimated market value of this whole piece of ground does not exceed \$150,000, and we would respectfully submit that this sum is a small one for the City to forego in consideration of the immense and lasting advantages which it would derive from devoting the ground to the purpose above described. In the experience of all great cities it has been found essential to provide numerous parks at different points, and where due provision has not been made in advance, difficulty and large expense have been incurred in subsequently meeting the demand. We believe that by devoting this part of the City's property to the public use as a park the best interests of the community for the present and the future will be subserved, and we will ever pray.

For Wages, taxes, etc.....			43,950 75

The works of the Company have now been in operation since the year 1838, and the Trustees take pleasure in reporting their ability still to supply all demands upon them, not only as to quantity, but as to the quality of the gas.

While the capacity of the works of the Company for the manufacture of gas is in excess of the needs of the District, yet it is expected that the increasing demand for gas, will, in the near future, require additional capacity for Distribution, which matter is receiving the attention of the Trustees.

The lighting, extinguishing, cleaning, and repairing the street and market lamps, which has been in the charge of the Trustees of these works since the 1st inst., they hope to keep in such condition as to insure the streets of the District at all times an ample supply of light.

Respectfully submitted,

By order of the Board of Trustees,

W. P. FODELL,

Secretary.

You have the surplus cash balance for 1882 of.....		<hr/> \$372,425 22

The year 1882 commenced with a surplus balance of \$1,360,559.75, out of this sum there has been appropriated \$1,342,000, leaving a balance of the surplus of 1880 and 1881 to appropriate of \$28,559.75, and in addition the surplus for 1882 of \$372,425.22. All the current expenses having been promptly met with cash payments, and a cash balance in favor of the City at the close of the year.

Receipts.

Compared with the year 1881 the receipts from the Departments present a decrease of \$469,075.63. The revenue for 1882 was principally derived from a tax rate of \$1.90 on a property valuation of \$553,775,229. Of the tax levy of 1882 (\$10,117,396.14) there was collected \$9,405,146.60, leaving a balance to register (deducting the discount allowed) of \$711,034.01, or about 7 per cent. of the tax levy uncollected.

Of the tax levy of 1881 \$10,181,800.02 there was collected \$9,373,435.16, leaving a balance to register (deducting the discount allowed) of \$808,364.86, or about 8 per cent. of the tax levy uncollected.

During 1882 the tax payers were allowed \$43,644.96 in discount, but the City received back again in penalties \$42,429.43.

There has been a decrease in the amount of delinquent tax collections. There was collected in 1881, \$1,339,457.92. In 1882 the collections were \$981,725.96, a decrease of \$357,731.96.

New items of receipts appear in the years' accounts from

Disbursements.

The disbursements were \$532,385.97 less than 1881. During the year 1882 \$404,002.65 of the warrants of previous years were paid. For Departments, including Public Buildings, there was paid \$7,486,324.67, and if to this be added \$441,814.42 warrants countersigned for the Departments, and yet outstanding the total cost of the Departments, including Public Buildings, for the year 1882, will be \$7,928,139.09, an increase of \$247,967.21 over 1881. The cost of Departments, exclusive of Public Buildings was \$7,100,561.18.

There has been a decrease in the payment of judgments, executions, etc. below 1881 of \$56,263.69.

The following is a statement of the appropriations of 1882 to the Departments. This includes balances carried into the books of 1882, which were provided for in 1881, and includes appropriations out of the surplus of 1880 and 1881.

Appropriated.	Countersigned.	Merging.	Not merging.
\$9,765,718 11	\$7,928,088 69	\$286,226 59	\$1,551,402 83

The estimated receipts for the year 1882, as computed upon an average of the five preceding years, were as per statement of the Controller, presented in September, 1881, \$13,209,725.42. The actual receipts were \$13,425,404.97, an increase of \$215,679.55.

The average annual amount of Taxes collected within the year, based upon the collections of the five years preceding 1881, and computed upon the proportion of a \$1.90 tax-rate, was, as set forth in the same statement, \$8,165,446.91. The amount actually collected in 1882 was \$9,405,146.60, which exceeds the estimate \$1,239,699.69.

The revenue other than current taxes was \$4,020,258.37. The average for the past five years, as per same statement, was \$5,044,278.51, showing a decrease of \$1,024,020.14.

Increase over estimate of current taxes.....	\$1,239,699 69
Decrease below estimate of revenue other than current taxes.....	1,024,020 14

Floating Debt.

The outstanding warrants remaining unpaid are of the following years :

1877.....	\$2,155 93
1878.....	1,665 39
1879.....	3,172 57
1880.....	2,404 24
1881.....	3,364 02
1882.....	441,814 02
Total.....	<u>\$454,576 17</u>

By Ordinance of Councils, approved June 21, 1882, the City Controller "was authorized and directed not to carry forward on the books any outstanding warrants that have been countersigned more than six years." As a matter of account the amount of the warrants of 1876, and prior, \$76,621.06 will have to be carried upon the books of the City, as payments are likely to be demanded at any time. The warrants of 1882 are cash warrants issued at the close of the year, and not presented for payment to the Treasury until 1883.

Funded and Floating Debt.

The funded debt of the City, January 1, 1882, was...	\$68,139,916 24

Unexpended Balances of Loans.

The unexpended balances of loans were, by Ordinance of Councils, December 31, 1879, placed to the credit of the Sinking Fund Commissioners, subject to drafts of payments on account of loans by the departments. The amount of loan warrants countersigned during the year was \$65,222.05, leaving a balance of \$98,597.84 unexpended.

In transmitting this Annual Report to the Councils, I make my last communication as Controller, before severing my official relationship with the Municipal Government. Having been chosen to undertake executive duties in connection with the State administration, I will in accordance with law assume those functions on Tuesday next, the 16th instant. It will be impossible for me, however, in dissolving my official relationship with the municipality to lay aside a solicitude for its advancement and prosperity. I shall always retain a deep interest in its affairs, and will watch with undiminished anxiety for its progress towards good government and civic greatness. It will very much depend upon the Councils of the City whether she shall advance and prosper according to her possibilities. Those bodies are vested with great powers and grave responsibilities. The faithful performance of their duties requires constant watchfulness, unremitting industry and the most impartial and disinterested service. These qualities of late have characterized the Councils in a gratifying degree. This is largely due to the good sense the people have shown in selecting the members of that body without regard to political considerations, and solely for their integrity, competency and tried public fidelity. It is to be hoped this rule will continue to guide the people in their choice of Councilmen, and that it will be extended to all municipal officers. Nothing has done, and nothing will do so much to purify and advance our government as the separation of politics from municipal concerns. The progress made by the City during the last few

years towards a wiser, better, and more economical conduct of its affairs, should convince the Citizens of the wisdom of adhering to and enlarging the application of this principle. I cannot refrain from admonishing the Councils of the importance of maintaining and enforcing the provisions of the Act of 1879. It was a wise and beneficial piece of legislation for Philadelphia.

It has been necessary for me in former reports to point out its good effects, and urge the importance of its being faithfully followed. But there is some danger that its strictness may at times tempt a loose interpretation of its provisions, and a plain departure from them. This should be constantly guarded against. No consideration of expediency or temporary embarrassment should be allowed to interfere with its rigid enforcement. Such excuses for deviations from the letter of the law in the expenditure of public money always grow in number and increase in importance with every allowance. Every step out of the straight path is an apology and argument for another. It was for this reason that at the beginning of the year, I opposed the expenditure of the surplus funds in the Treasury which had accumulated under the healthful workings of the Act of 1879. It was my opinion that the Act did not warrant such a use of the money, and that it would soon be needed for the ordinary expenses of the government. But it was otherwise decided, and that surplus has since been all appropriated. I am still of the opinion that in a few years the correctness of my views will be vindicated, and that it will be found that there will be need for any surplus in paying warrants drawn against appropriations unrealized by the collections. At all events it would be safest for Councils not to expend the entire surplus (less than the two previous ones) which the current year will show we possess, until the complete working of the Act of 1879 is developed by a few more years of trial. It will be easy enough to spend it

then, if it is found to be needed. It may be difficult to supply its place, if it is found to be wanted. Apart from this, however, the "pay-as-you-go" system should be rigidly maintained. That system was made possible and inaugurated by the Act of 1879, to which reference has been made. It will be continued only as long as that statute is scrupulously adhered to.

I have, from time to time, during the five years I have been Controller, made suggestions and recommendations to Councils, some of which they have followed, and some they have not. Among others was the passage of an ordinance making water rents payable to the Tax Receiver, and chargeable against the property on the same bill with the tax on real estate. This would be of great convenience to the citizen, would be simpler than the present system, would, I believe, result in fuller and more prompt collections, and would enable us to dispense with a number of employees in the Water Department. No tenable objection has been made to this plan, and, I believe, its adoption by the Councils would be a source of saving to the City, and an advantage to the Department of Water, in confining its attention to the mechanical duties pertaining to that branch of the municipal service. My solicitude for the welfare of the City in whose prosperity I have so great an interest, and with whose concerns I have been so intimately connected for five years must be my excuse for making these parting suggestions in this, my last, Annual Report.

For information in detail, connected financially with the operations of the Department of the City Controller, your attention is respectfully invited to the subjoined tables:

APPENDIX No. 190.

OFFICE OF THE COMMISSIONERS OF THE SINKING FUND,

Philadelphia, January 6, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—In compliance with a “Resolution of instruction to the Commissioners of the Sinking Fund, in relation to settlement of North Pennsylvania Railroad stock,” passed January 4, 1883, the Commissioners of the Sinking Fund respectfully submit the following:

A copy of the original agreement or memorandum of sale of the North Pennsylvania Railroad stock (30,870 shares), signed by the Sinking Fund Commissioners.

(Copy).^a

[MEMORANDUM OF SALE.]

Philadelphia, February 8, 1875.

The Commissioners of the Sinking Funds of the City of Philadelphia, have sold to Messrs. A. Pardee & Co., E. C. Knight & Co., E. C. Knight, F. A. Comly, Henry Lewis, William H. Stevenson & Co., and R. J. Dobbins, 30,870 shares of the stock of the North Pennsylvania Company, at par, payable in the loans of the City of Philadelphia, free from tax, at par, say one-fourth payable within the year 1875, one-fourth within the year 1876, one-fourth within the year 1877, and one-fourth within the year 1878. The sale to bear interest at six per cent. per annum from the 1st of January, 1875, payable semi-annually, and the purchasers to have credit for the accrued interest on the City loans as paid in.

The purchasers have the privilege to anticipate the stipulated payments in part or in whole.

Two thousand shares of the North Pennsylvania Railroad Company have been deposited with the Commissioners of the Sinking Funds, as an earnest and security, and are to be returned pro rata at the end of each year as the contract shall have been complied with. The dividends on the shares of the North Pennsylvania Railroad Company purchased and those deposited as security are to be paid to the purchasers.

In default of payment within the year as stipulated, it shall be the duty of the said Commissioners to sell on the 10th day of January following, or at any time thereafter with or without notice by public sale or private, at their option, all or any part of the said shares, both those purchased and those deposited as security, and to apply the proceeds to the fulfillment of this contract, and to pay to the said purchasers any surplus resulting therefrom, or hold them responsible for any deficiency.

In the event of a decline in the market value below par of the shares of the North Pennsylvania R. R. Co., the purchasers are to put additional security into the hands of the said Commissioners, equal to the decline on the shares which may at the time be held by them as security, so as to make the security at all times equal to the par value thereof.

[MEMORANDUM OF PURCHASE.]

Philadelphia, February 8, 1875.

The undersigned have purchased from the Commissioners of the Sinking Funds of the City of Philadelphia, thirty thou-

sand eight hundred and seventy (30,870) shares of the North Pennsylvania Railroad stock at par, payable in the six per cent. loan of the City of Philadelphia, free from tax at par, one-fourth part to be paid within the year 1875, one-fourth part within the year 1876, one fourth part within the year 1877, and one-fourth part within the year 1878. The sale to bear six per cent. interest from the 1st of January, 1875, payable semi-annually, and the purchasers to have credit for accrued interest on the City loans as paid in. As an earnest and security for the faithful performance of the contract, two thousand shares of the North Pennsylvania Railroad Company have been deposited with the said Commissioners, with the condition on the part of the undersigned, that should the market value of the said shares fall below par, additional security shall at once be deposited by us with the said Commissioners for an amount equal to the decline, so that the said security shall always be equal to the par value of said shares, and with the further condition, that when each payment, as stipulated, shall have been made, one-fourth of the said security shall be returned to the undersigned. It is further understood and agreed, that the dividends on the said stock purchased and deposited as security, shall be paid to the undersigned, as and when they may be payable, and that the undersigned shall have the privilege to anticipate the stipulated payments in part or in whole; and further, that in default of the payment within the year as stipulated, the said Commissioners of the Sinking Funds of the City of Philadelphia, shall be and are hereby authorized to sell on the 10th day of January following, or on any day thereafter, with or without notice to us, by private or by public sale, at their option, all or any part of the said shares, both those purchased and those deposited as security, and apply the proceeds to the payment of this contract, and the undersigned are hereby held responsible for any deficiency, or should any surplus result therefrom, the amount thereof is to be paid to them.

Commissioners of the Sinking Funds.

GENTLEMEN :—Referring to a certain agreement of February 8, 1875, between the Commissioners of the Sinking Funds of the City of Philadelphia and the undersigned contracting parties, for the purchase of the stock of the North Pennsylvania Railroad Company owned by the City, we beg leave to submit whether, under *all the circumstances connected with the case*, you would not feel fully justified in making some modification in the time or times for the payments for the remaining portion of said stock—say so to change the time as to divide the remaining portion into *ten* equal semi-annual payments, to be made on the first days of April and October in each year, commencing on the first day of April, 1878. In making this request we do not feel that the interest of the City would in any way suffer or be impaired by the extension, but, on the contrary, we think it would be for the mutual interest of all concerned.

Yours with respect,

The Commissioners of the Sinking Fund objected to a modification of the agreement into ten (10) semi-annual payments, but agreed to extend the time into twenty (20) quarterly payments, provided that the syndicate would increase the security to the extent of one hundred thousand (100,000) dollars. See copy of letter enclosed :

[EXTRACT FROM MINUTES OF THE SINKING FUND COMMISSIONERS OF MEETING, HELD NOVEMBER 13, 1877.]

WHEREAS, Messrs. E. C. Knight and others have this day addressed the Commissioners, praying for a modification of their contract, dated 8th of February, 1875, and the proposition therein contained is not agreeable to the Commission, whilst, at the same time, there is a desire on their part to give them every reasonable facility; be it

Resolved, That on the increase of the security to the extent of one hundred thousand dollars (the contract requiring a much larger sum), the Commission will consent to such modification as will divide the payments into twenty quarterly periods, beginning on first of January next.

[Signed,] GEO. GILLINGHAM,
Secretary.

Attest: W. N. HIRST,
Secretary.

The syndicate accepted the terms, and gave the required security—two thousand (2,000) shares of North Pennsylvania Railroad stock—as collateral.

HON. JOHN WELSH,
Chairman.

DEAR SIR:—In answer to the letter and resolution of the Commissioners of the Sinking Fund of the City of Philadelphia, bearing date November 13th, we beg to state that

at a meeting of the parties in interest, held on the 17th inst., the terms and conditions therein stated were accepted, and the additional security required will be furnished at our earliest convenience.

With many thanks for the prompt and generous modification of the original contract, we remain

Yours truly,

E. C. KNIGHT.

For F. A. Comly, W. H. Stevenson & Co., E. C. Knight & Co., Pardee & Co., Henry Lewis, and R. J. Dobbins.

On November 24, 1877, the security was furnished and deposited with the City Treasurer for safe-keeping.

On the above modification the syndicate, between the date of the modification, October 10, 1877, to December 9, 1879, settled and paid for four thousand three hundred and fifty (4,350) shares of stock. The last payment made by the syndicate was December 9, 1879.

On January 1, 1883, when the last quarterly payment became due, the syndicate owed for twelve thousand seven hundred and eighty-four (12,784) shares of stock and were some fifteen (15) quarterly payments back.

At a meeting of the Sinking Fund Commissioners, held April 9, 1878, the Secretary was directed by resolution of the Commissioners to notify E. C. Knight *et al.*, that the first quarterly payment (on the modified agreement) was due on January 1, 1878, and not paid, and to make payment. There was no response until May, when the syndicate made a payment in City Loan for one hundred (100) shares of stock, five thousand (5,000) dollars; the next payment was made in September for two hundred (200) shares of stock, ten thousand (10,000) dollars, in City Loan. On January 30, 1879, the Secretary was directed to communicate with E. C. Knight *et al.*, and inform them that three (3) quarterly payments were due and must be paid.

At a meeting of the Commissioners, held April 8, 1879, the Secretary was instructed to inform E. C. Knight *et al.*, that they must make at least one payment on account of North Pennsylvania stock purchased forthwith.

On June 10, 1879, the Syndicate informed Mr. Cochran

that they were purchasing City Loan in order to comply with the request of the Sinking Fund Commissioners, but had not succeeded in securing sufficient of the same to make payment. When, upon motion, it was

Resolved; That the Secretary be instructed to notify Messrs. E. C. Knight *et al.*, "to make two payments on account prior to July 1, 1879, or they, the Commissioners, would proceed to sell the securities they now held."

The Secretary was instructed again, at the meeting held September 11, 1879, to inform E. C. Knight *et al.*, to make at least one payment on account of North Pennsylvania Railroad stock by the first of October, and that the loan to pay for the same must be free from tax and bear six per cent. interest, as per agreement. On October 1, 1879, E. C. Knight *et al.*, responded by paying for eight hundred (800) shares of stock the sum of forty thousand (40,000) dollars in City Loan.

At a meeting of the Commissioners, held October 27, 1879, the following communication was received from E. C. Knight *et al.*, and read.

(Copy.)

Philadelphia, October 25, 1879.

To the Commissioners of the Sinking Fund.

GENTLEMEN :—We are desirous of taking up at as early a date as possible the balance of the North Pennsylvania Railroad stock sold to us, as per minute of sale of February 8, 1875. In order to do so we will purchase the amount in new City Loan required to settle the same. An early and favorable answer will greatly oblige

Yours very truly,

R. J. DOBBINS.

When, on motion, it was

Resolved, That the communication be received and the Secretary be instructed to inform E. C. Knight *et al.*, "That the Commissioners will accept the proposition made by the syndicate to pay off the balance of their indebtedness; *provided*, that the whole amount of the balance due be paid on or before December 1, 1879; *and further provided*, that the payment for said balance be in the new 4 per cent. Loan, at a premium sufficient to yield the amount of interest that would be paid under the original agreement up to the date of maturity."

In regard to making settlement with the syndicate, his Honor, the Mayor, W. S. Stokley, requested the opinion of E. M. Lewis, Esq., President of the Farmers' and Mechanics' National Bank, as to how much of the 4 per cent. loan should be received in settlement. (See original letter of E. M. Lewis enclosed.)

FARMERS' AND MECHANICS' NATIONAL BANK.

Philadelphia, October 30, 1879.

HON. WILLIAM S. STOKLEY,
Mayor of the City of Philadelphia.

DEAR SIR:—At your request I have carefully considered the contract between the City and the syndicate which purchased the stock of the North Pennsylvania Railroad Company, and beg to offer you the following as the result of my examination :

The modification of the contract, extending the time of payment to 20 quarterly payments, through the years 1878, 1879, 1880, 1881, and 1882, the last being on October 1, 1882, does not alter the other terms of the contract.

By this contract these payments are to be made, not in cash, but in the untaxed six per cent. loans of the City of Phila-

delphia. The syndicate, however, desire to settle now, in the untaxed four per cent. loan of 1879.

The question to be answered is, what amount of the Four per cent. loan will pay the debt of \$692,200 which is payable in untaxed six per cent. loan?

Now the earliest maturing untaxed six per cent. loans are those due in 1886, and if the syndicate desired to settle to-day in untaxed six per cents., they could not tender any maturing earlier than in 1886.

Again, there are

\$400,000	new four per cents.	maturing in	1886,
400,000	"	"	1887,
and 400,000	"	"	1888,

which might be applied to the payment desired.

The present worth of a four per cent. loan, interest payable semi-annually, to realize six per cent. semi-annually until 1886, 1887, and 1888, is severally as follows:

1886.	\$88,703,926	per cent.
1887.	87,438,897	"
1888.	86,246,485	"

Applying these figures to the question before us, the result will be as follows: It will require of new four per cents. maturing in

1886,	\$260,000	to pay	\$230,630	21	of untaxed sixes.
1887,	264,500	"	231,275	88	" "
1888,	267,000	"	230,278	11	" "
<hr/>		<hr/>			
	\$791,500		\$692,184	20	
	Balance in cash,			15	80
		<hr/>		\$692,200	

While I think this a very favorable settlement for the syndicate, if they will agree to it, yet I would advise the City to accept it, if it is considered desirable to close the transaction.

It will cost the syndicate about	-	-	-	\$100,000
\$692,200 City sixes at 20 per cent.				
premium would cost them	-	-		\$138,440
Less accrued interest, allowed by con-				
tract,	-	-	-	13,844
				<hr/>
			Say about	125,000
				<hr/>
This settlement would save them about				\$25,000

There are about \$21,700,000 sixes maturing before December, 1895, and about \$33,300,000 sixes maturing after December, 1895.

I state this because if the City should on the other hand receive untaxed sixes, agreeably to the contract, the syndicate in purchasing for the purpose, would, without additional cost to themselves, necessarily receive nearly all in loans maturing after 1886, 1887, and 1888, and most likely the larger proportion in those maturing after 1895.

Will the advantages of the immediate settlement of the contract, by the payment of \$791,500 new four per cent. loan, counterbalance those which would accrue from the compounding in the Sinking Funds of long dated six per cents. delivered at par?

Very respectfully,

EDWIN M. LEWIS,

President.

November 11, 1879, E. C. Knight *et al.*, made a settlement for five hundred and fifty (550) shares, paying the sum of twenty-seven thousand five hundred (27,500) dollars in City six per cent. loan free of tax.

December 9, 1879, E. C. Knight *et al.*, made a settlement for one thousand (1,000) shares of stock, paying the sum of fifty thousand (50,000) dollars in City six per cent. loan free of tax. This was the last payment on the stock.

At a meeting of the Commissioners held December 9, 1879, on motion, the Secretary was instructed "to notify Messrs. E. C. Knight *et al.*, that they decline to accept the four per

cent. loan of the City of Philadelphia in payment of the shares of the North Pennsylvania Railroad stock held by the Commissioners, unless made equal to a six per cent. loan, as proposed by the Commissioners."

December 9, 1879. The amount of stock held by the Commissioners at this date, unsettled for, is twelve thousand seven hundred and eighty-four (12,784) shares.

April 13, 1880. The Secretary was instructed "to inform E. C. Knight *et al.*, to make at least one payment on account of the North Pennsylvania Railroad Company, purchased by the first of May, otherwise to increase the security to the amount of one quarterly payment, forty-two thousand eight hundred (42,800) dollars."

In response the Secretary received the following communication from F. A. Comly, Esq.:

(Copy.)

Philadelphia, April 17, 1880

W. N. HIRST, Esq.,

Secretary, Commissioners of Sinking Fund.

DEAR SIR:—I am in receipt of yours of the 13th inst., informing me that "at a meeting of the Commissioners of the Sinking Fund held that day, you were instructed to inform Messrs. E. C. Knight *et al.*, to make one payment on account of the purchase of the North Pennsylvania Railroad stock by the first of May, otherwise to increase the security to the amount of \$42,800." In reply I beg leave to say that at a meeting of all the parties referred to and interested, I was authorized to reply in their behalf, that they are now, and have at all times been, ready since the twenty-seventh day of October last to carry out the proposition invited by the Commissioners and submitted under date of October 25, and by them accepted, as per their resolution of October 27, 1879.

Acting under the agreement then made, arrangements were immediately entered into for the whole of the money necessary to carry the same out in good faith, and a very large portion of the amount was actually in hand and specially provided for

that purpose, consequently the fault is not with Messrs. E. C. Knight *et al.*, that the transaction has not been closed in accordance with proposition of October 25th and the resolution of October 27, 1879.

Yours, with respect,

F. A. COMLY.

When, upon motion, the communication was received and referred to Thomas Cochran, who was appointed a Committee to see the syndicate and report.

At a meeting of the Commissioners, June 15, 1880, Mr. Thomas Cochran, the Committee to wait upon the syndicate relative to payments on account of North Pennsylvania Railroad stock purchase reported progress. Mr. Cochran stated that he had a conference with them, but before reporting to the Commissioners desired to have a further conference, and would report at our next regular meeting.

At a meeting of the Commissioners, held February 23, 1881, Mr. Cochran, the Committee appointed to wait upon the syndicate, reported that they were to have prepared a case stated to submit to the Court as to the terms of payment. When, upon motion, it was

Resolved, That the Secretary address the following communication to F. A. Comly, Esq.:

(Copy.)

OFFICE OF THE COMMISSIONERS OF THE SINKING FUND.

Philadelphia, February 23, 1881.

F. A. COMLY, Esq.

MY DEAR SIR:—The Commissioners of the Sinking Fund having understood that the syndicate for the purchase of the North Pennsylvania Railroad stock from the City was to have prepared a case stated to submit to the Court as to the terms

of payment, and not having heard from you for several weeks, beg leave to call your attention to the matter, and will be pleased to consider the same at the earliest day possible for you to submit it to them.

Respectfully,

W. N. HIRST,
Secretary.

At a meeting of the Commissioners, held March 8, 1881. the following communication was read:

MY DEAR SIR:—At a meeting of the Commissioners of the Sinking Fund, held this day, the Secretary was requested to call your attention to the proposition of a case stated in the

matter of the North Pennsylvania Railroad Syndicate Stock. Will you please give it your immediate attention.

Very respectfully,

W. N. HIRST,

Secretary.

At a meeting of the Commissioners, held July 12, 1881, Mr. Cochran stated that in the matter of the case stated of the North Pennsylvania Syndicate, counsel for the syndicate and the City Solicitor were conferring together to place the same in proper form for presentation.

At a meeting of the Commissioners, held December 15, 1881. Present: Messrs. King, Cochran, and Pattison, the matter of the overdue payments on the North Pennsylvania Railroad stock was brought up. The syndicate owe some \$440,000, being the amount of eleven (11) quarterly payments of \$40,000 each. The Secretary was instructed to send the following letter to F. A. Comly, Esq., Chairman of the North Pennsylvania Syndicate:

MY DEAR SIR:—I am in receipt of your favor of the 8th inst. enclosing copies of agreement with the North Pennsylvania Syndicate, statement, etc. Will you please state briefly exactly what the North Pennsylvania Syndicate claim the right to do in the matter of payments for stock ; also the nature of the objections to the same on the part of the Commissioners of the Sinking Fund.

Very truly yours,
W. NELSON WEST,
City Solicitor.

W. NELSON WEST, Esq.,
City Solicitor.

MY DEAR SIR:—Yours of the 10th inst. received. The Sinking Fund Commissioners claim that the syndicate must pay in the six per cent. loans of the City of Philadelphia *free of tax*, as set forth in the agreement made with the Commissioners. While the syndicate claim the right to pay in other loans of the City than the above or cash. This is the disputed point in question. No payments have been made since November 16, 1879.

Very respectfully,
W. N. HIRST,
Secretary.

A special meeting of the Commissioners of the Sinking Fund, was held October 6, 1882, to take action in regard to the letter of W. Nelson West, City Solicitor, in reference to the controversy between the Sinking Fund Commissioners

and the North Pennsylvania Railroad Stock Purchase Syndicate.

Present, Messrs. King and Pattison.

The letters of W. Nelson West, Esq., and John G. Johnson, Esq., were received and read, and are as follows:

LAW DEPARTMENT,

Philadelphia, October 4, 1882.

ROBERT E. PATTISON, Esq.,
City Controller.

MY DEAR SIR:—I enclose you a letter I have received from John G. Johnson, Esq., in reference to the controversy between the Sinking Fund Commissioners and the North Pennsylvania Railroad Syndicate. The compromise proposed by Mr. Johnson appears to be very reasonable. I have sent copies of the letter to the Hon. Samuel G. King, and Mr. Cochran, and will be pleased to hear from you as to what answer I shall make to it.

Very truly yours,

W. NELSON WEST,
City Solicitor.

The following is the letter from John G. Johnson, Esq.

708 WALNUT STREET,

CITY
vs.
KNIGHT *et al.* }

DEAR SIR:—In the above suit, before we proceed to have the issues of law and fact involved practically determined, I would like to know if a compromise can be effected. My motive is more one of saving my clients litigation which they dislike, than of fear for the results, for you cannot but be aware of the almost insuperable obstacle in the way of your

recovering more than the balance due in money at par. My clients, for the sake of peace, and without prejudice, will pay their indebtedness at your option, in City four per cent. loan, dollar for dollar, or will liquidate the balance due, in cash at a premium of ten per cent.

Very truly yours,

JOHN G. JOHNSON.

CHAS. E. MORGAN, ESQ.,

W. NELSON WEST, ESQ.,

Solicitor for City.

When, upon motion, it was *Resolved*, "That the City Solicitor be instructed to require from the syndicate for the North Pennsylvania Railroad stock purchase, a compliance with the terms of their contract made with the Commissioners of the Sinking Fund, and for an immediate enforcement of the same, and that the Secretary be directed to communicate with the City Solicitor and inform him of the action of the Commissioners."

In response to the above resolution the following letter was sent to the City Solicitor.

DEPARTMENT OF THE SINKING FUND COMMISSIONERS,

W. NELSON WEST, ESQ.,

City Solicitor.

MY DEAR SIR:—At a special meeting of the Sinking Fund Commissioners held this day, the following resolution was passed: *Resolved* "That the City Solicitor be instructed to require from the Syndicate for the North Pennsylvania Railroad stock purchase, a compliance with the terms of their contract made with the Commissioners of the Sinking Fund, and for an immediate enforcement of the same, and that the Secretary be directed to communicate with the City Solicitor and inform him of their action."

Very respectfully,

W. N. HIRST,

Secretary.

At a meeting of the Commissioners of the Sinking Fund, held December 12, 1882, the following letter was presented by Mr. Cochran from the Hon. John Welsh. Present at this meeting, Messrs. King, Pattison, and Cochran.

304 Walnut Street.

The undersigned; at the request of the parties in interest, and after a very careful consideration of all the circumstances connected with and following the purchase of Edward C. Knight, Esq., and others, from the Commissioners of the Sinking Funds of Philadelphia of the stock held by the City in the North Pennsylvania Railroad Company, respectfully advises that a settlement shall be made for the shares remaining unpaid for, on the basis of sixteen and two-thirds per cent. premium on the par value of the stock, and that should a payment of the full amount at once be inconvenient to the purchasers, a reasonable accommodation on the unpaid part be allowed by the Commissioners, provided that any amount so extended shall bear interest at the rate of six per cent. per annum, and that all shall be paid within six months of this date.

JOHN WELSH.

Philadelphia, December 6, 1882.

To the Commissioners of the Sinking Funds of Philadelphia, and Edward C. Knight, Esq., and others.

When, upon motion, it was resolved that the secretary send the following communication to W. Nelson West, Esq., City Solicitor.

DEPARTMENT OF SINKING FUND COMMISSIONERS,

Philadelphia, December 12, 1882.

W. NELSON WEST, Esq.,
City Solicitor.

MY DEAR SIR:—At a meeting of the Commissioners of the Sinking Funds held this day, the Secretary was instructed to communicate the following to the City Solicitor: “At the

request of the parties interested in reference to the purchase of the North Pennsylvania Railroad stock still held by the City of Philadelphia, the question was submitted to the Hon. John Welsh, to adjust a proper settlement of the balance due the City. The enclosed communication from Mr. Welsh has been received in answer. The Sinking Fund Commissioners submit the same to you in order that they may have your opinion as to how far the law warrants them in accepting the settlement proposed."

Very respectfully,

W. N. HIRST,

Secretary

A special meeting of the Commissioners was held December 20, 1882, to consider the following opinion of W. Nelson West, Esq., relative to settlement of the North Pennsylvania Railroad stock purchase.

Present—Messrs. King, Cochran, and Pattison.

The following letter from Mr. West was received, and read.

(Copy.)

LAW DEPARTMENT.

Philadelphia, December 15, 1882.

To the Commissioners of the Sinking Fund.

GENTLEMEN:—Your communication of the 12th inst., enclosing me paper over the signature of Mr. John Welsh, in which he advises a settlement upon the basis therein mentioned with the purchasers of the stock, formerly held by the City in the North Pennsylvania Railroad Company, asks me for an opinion as to "how far the law warrants you in accepting the settlement proposed."

The settlement proposed, as I have already said to you, will bring into your hands more than you can recover by suit, and there can be, therefore, no legal difficulty in the way of your acceptance of it.

I unhesitatingly advise that the law warrants you to accept

the settlement suggested by Mr. Welsh, that is a settlement on the basis of sixteen and two-thirds per cent. premium on the par value of the stock.

Yours, very respectfully,
 [Signed,] W. NELSON WEST,
City Solicitor.

After reading the above letter, the following statement was submitted to the Board by Mr. Hirst, the Secretary.

Statement.

Syndicate owes the City as per contract on	
12,784 shares of stock, at \$50 per share.....	\$639,200 00
A premium on the above, at $16\frac{2}{3}$ would be.....	102,698 13
Total	<hr/> \$741,898 13

The stock of the North Pennsylvania Railroad is now worth on the market \$63.50 per share.

12,784 shares at \$63.50 would net.....	<hr/> \$811,784 00
---	--------------------

A loss to the City on market value of \$69,885.87⁷

There would not only be the above loss on the market value, but a settlement in cash on the above basis of $16\frac{2}{3}$ per cent. premium gives the Commissioners \$741,898.13 to invest at $3\frac{1}{2}$ or 4 per cent. per annum, while the stock is paying a dividend of eight per cent.

After reading the above statement, on motion, it was

Resolved, "That the Secretary be directed to further ask the opinion of the City Solicitor on the above statement, and as to whether the contract has been forfeited by the non-payment of the quarterly payments due by the syndicate, and whether the Commissioners can take the stock and hold it, and declare the contract forfeited, draw the dividends upon the stock, and proceed as if their were no contract in existence."

A copy of the above resolution was sent to the City Solicitor signed by the Secretary on the same day.

A special meeting of the Sinking Fund Commissioners held this day, December 30, 1882, the following letter having been received from City Solicitor West, in answer to the letter addressed him by the Commissioners on the 20th inst.

Present—Messrs. Cochran and Pattison.

LAW DEPARTMENT,

December 28, 1882.

MESSRS. KING, COCHRAN, AND PATTISON,

Commissioners of the Sinking Fund.

MY DEAR SIRs:—I have received your favor of the 20th inst. enclosing a statement of account against Messrs. Pardee & Co. and others, constituting the syndicate which contracted for the purchase of the North Pennsylvania Railroad stock held by the Sinking Fund, and requesting my opinion as to the right of the Commissioners to “declare the contract of purchase forfeited because of the non-payment of the quarterly payments due by the syndicate, . . . and to retain the stock, draw the dividends thereupon, and proceed as if there were no contract in existence.”

I understand, from the communications relating to this matter heretofore sent to me, as well as from the minutes of the Board, that you have invariably demanded in payment of the stock City loans, and have repeatedly refused to accept anything other than City 6's. I understand further that no demand for \$50 per share in money has been made by you, and that the syndicate have always been willing to pay that sum and more. You, therefore, are not in a position to annul the contract, unless it can be construed to be an agreement to *exchange City loans for the stock*. The agreement, which is dated February 8, 1875, recites that “the Commissioners of the Sinking Fund of the City of Philadelphia have sold to Messrs. A. Pardee & Co. and others, thirty thousand eight hundred and seventy shares of the stock of the North Pennsylvania Railroad, at par, payable in the six per cent. loans of the City of Philadelphia, free from tax.” The contract was for the purchase of stock at a specified price, viz., \$50 per share, with the option in the purchasers to pay therefor in City 6's at par.

That such is the effect of a contract of this character cannot be seriously questioned. In *White vs. Tompkins*, 52 Pa. State Reports, page 363, the Supreme Court, in an opinion by Justice Thompson, held that when the contract is to pay for a thing purchased a fixed sum of money in specific articles, the vendee has the option to pay in money or in the articles.

In that case a vendee contracted to buy land for a price fixed, "it being expressly agreed that the said payments are to be made . . . in axes. *Held*, that the vendee might elect to pay in money, and also that the measure of damages on failure of the vendee was the *interest* of the money, not the profit, which the vendor might have made on the axes. To the same effect are numerous cases both in this State and elsewhere.

See Sedgwick on Measure of Damages; *Roberts vs. Beatty*, 2 Penrose & Watts, 68; *Church vs. Fellow*, 2 Penrose & Watts, 301; *Fleming vs. Potter*, 7 Watts, 381; *Cheependale vs. Thurston*, 4 Carr & Payne, 98; *Gleason vs. Penriery*, 5 Wend., 393; *Brook vs. Hubbard*, 5 Conn., 58.

I advise you that the facts of the case as above set forth are such that you cannot ignore or rescind the contract and retain the stock, and that upon payment to you of \$50 per share and accrued interest, the syndicate would be entitled to receive from you the shares you now hold.

Yours, very truly,

[Signed,]

WM. NELSON WEST,

City Solicitor.

When, upon motion, it was

Resolved, "That the Secretary be instructed to inform E. C. Knight *et al.*, purchasers of the North Pennsylvania Railroad stock, that the Commissioners will accept payment in cash for the balance due on the same upon the basis calculated by the Hon. John Welsh, viz., a premium of sixteen and two-thirds per cent., provided that the final payment for the same be made within thirty days from January 1, 1883."

As directed by the above resolution of the Commissioners, the Secretary addressed the following communication to F. A. Comly, Esq., President of the syndicate, for the purchase of the North Pennsylvania Railroad stock:

OFFICE COMMISSIONERS OF THE SINKING FUND.

Philadelphia, December 30, 1882.

F. A. COMLY, ESQ.

MY DEAR SIR:—At a meeting of the Commissioners of the Sinking Fund, held this A. M., the following resolution was passed:

Resolved, That the Secretary be instructed to inform E. C. Knight *et al.*, purchasers of the North Pennsylvania Railroad stock, that the Commissioners will accept payment in cash for the balance due on the same upon the basis calculated by the Hon. John Welsh, viz., a premium of sixteen and two-thirds per cent., provided that the final payment for the same be made within thirty days from January 1, 1883."

Yours, truly,

W. N. HIRST,
Secretary.

The syndicate for the purchase of the stock of the North Pennsylvania Railroad accept the terms offered in the above resolution, as per copy of letter of F. A. Comly, Esq., below.

OFFICE OF THE NORTH PENN'A. R. R. Co.,

Philadelphia, 407 Walnut street, January 2, 1883.

W. N. HIRST, Esq.,

Secretary of the Sinking Fund Commissioners, Philadelphia.

DEAR SIR:—I have this day received your communication under date of December 30, 1882, with a copy of a resolution passed by the Sinking Fund Commissioners, instructing you to inform E. C. Knight *et al.*, purchasers of the North Pennsylvania Railroad stock, that the Commissioners will accept in cash for the balance due, on the basis submitted by the Hon. John Welsh, viz.: "A premium of sixteen and two-thirds per cent., provided final payment be made within thirty days from January 1, 1883." In reply, I beg to say that the parties interested direct me to say that the proposition is accepted, and that they will proceed to take up the stock and pay for the same immediately.

Yours, with respect,

F. A. COMLY.

In compliance with the proposition made to the syndicate by the Commissioners and accepted by them, as per letter of January 2, 1883, E. C. Knight, Esq., on January 3, 1883, made settlement with Mr. Hirst, the Secretary of the Commissioners of the Sinking Fund, for 7,005 shares of the North Pennsylvania Railroad Company, on the basis of $16\frac{2}{3}$ per cent. premium, as follows :

7,005 shares @ \$50 per share.....	\$350,250
$16\frac{2}{3}$ per cent. premium.....	58,375
Total	<u>\$408,625</u>

E. C. Knight, Esq., also paid to Mr. Hirst 6 months' interest due January 1, 1883, on \$350,250, amounting to \$10,507.50.

The above amounts were paid by Mr. Hirst into the City Treasury, \$408,625 being placed to the credit of the Sinking Fund Commissioners, and \$10,507.50 to the credit of the general fund.

On the following day, January 4, 1883, J. S. Wise, Esq., on behalf of E. C. Knight *et al.*, made a tender to Mr. Hirst, the Secretary of the Commissioners of the Sinking Fund, for the balance of the stock, 5,779 shares, with six months' interest on the amount, but owing to the declination of the Hon. Samuel G. King to sign the transfer of the stock paid for by the syndicate on January 3d, Mr. Hirst declined to receive the same.

The following is the letter of Mr. J. S. Wise on behalf of E. C. Knight *et al.*, tendering the balance due for the stock.

(Copy).

Philadelphia, January 4, 1883.

To the Commissioners of the Sinking Funds
of the City of Philadelphia.

GENTLEMEN :—On behalf of Messrs. E. C. Knight and others, I hereby tender payment for the balance of North Pennsylvania Railroad Company's stock, 5,779 shares at \$58 $\frac{1}{2}$

per share, with six months' interest on the same to January 1, 1883, amounting to \$345,776.83, being the balance of stock purchased by them from the Commissioners of the Sinking Funds of the City of Philadelphia.

J. S. WISE,

For E. C. Knight and others.

Respectfully submitted,

SAMUEL G. KING,
THOMAS COCHRAN,
ROBT. E. PATTISON,

Sinking Fund Commissioners of the City of Philadelphia.

APPENDIX No. 191.

FORTY-EIGHTH ANNUAL REPORT OF THE
TRUSTEES OF THE PHILADELPHIA
GAS WORKS.

Philadelphia, January 18, 1883.

To the Select and Common Councils
of the City of Philadelphia.

The Trustees of the Philadelphia Gas Works present their Forty-eighth Annual Report of their proceedings, and the statement of the financial condition of the Works under their control, and the results of the business for the year 1882.

Since the last Annual Report there has been expended :

For street mains.....	\$23,596 34
“ Services.	55,918 97
	<hr/>
Making a total of.....	\$79,515 31
From which deduct amount received on ac-	
count of services.....	16,249 86
	<hr/>
Leaving a balance of expenditures over	
receipts for street mains, and ser-	
vices of.....	\$63,265 45

The quantity of gas manufactured during the year 1882 was 2,319,898,000 cubic feet, an increase over 1881 of 110,753,000 cubic feet. The largest consumption in any twenty-four hours was on the night of the 22d of December, amounting to 10,667,000 cubic feet, an increase over 1881 of 559,000 cubic feet.

The street mains laid during the year were 57,664 feet, making the entire length $722\frac{3}{10}$ miles, an increase of about 11 miles over 1881.

The total number of services laid, is 100,855, an increase over 1881 of 1,619.

The whole number of lamps, on the first of January of this year, was 12,923, of which 12,414 are supplied with Gas from these works, and 509 from the Northern Liberties' Works.

The total number of consumers, is 101,958, an increase over 1881 of 1,590.

The Cashier's Report, herewith submitted, shows that loans created by Councils, from time to time, for the construction of the Works, and for the increase of their manufacturing capacity, the laying of mains, and for the purchase of other Works, amounted to \$7,820,000.

The amounts paid from the Sinking Funds, for Loans 1, 2, 3, 4, 5, 6, 7, and 8, as they became due, was \$1,370,000 ; also 450,000 City Loans—cost of other works—leaving in the Sinking Fund, in charge of the Trust for the payment of Loan No. 9, \$2,094,845.38.

The amount of loans and cash in the hands of the Commissioners of the Sinking Funds of the City, for the redemption of Loans 10, 11, 12, 13, 14, 15, and 16, is \$2,615,941.64.

The amount of Loans unpaid, on the 30th day of December, 1882, was \$6,000,000, also \$3,000 of Loan 8 (as yet uncalled for) from which deduct the amount of Loans and cash in charge of the Trustees and Commissioners of the Sinking Funds of the City, \$4,710,787.02, leaving a balance to be provided for amounting to \$1,289,212.98.

For the purchase of the Southwark and Moyamensing, Germantown, Manayunk, and Richmond Gas Companies' Stock, amounting to \$300,740, the Trustees have in the several Sinking Funds, for the redemption of the same, \$260,000.60.

The net profits of the Works during the past year were \$510,586.57, making the accumulated profits, to the end of the year \$4,538,957.23, an increase over the profits of the year 1881 of \$87,022.96.

They herewith submit the average illuminating power of the gas made at the several Works under their charge during the year 1882, reported from tests made daily by Professor Robert E. Rodgers, of the Jefferson Medical College, and Professor Lemuel Stephens, of Girard College.

Average for January.....	16·22 Candles.

“ August.....	16·23 “
“ September.....	16·23 “
“ October.....	16·24 “
“ November.....	17·02 “
“ December.....	17·38 “

Average for the year 16.39 candles.

By resolution of the Trustees, gas has been supplied the city lamps without cost, since October 1, 1882.

Also the price of gas to private consumers reduced to \$1.90 per 1,000 feet, from October 14, 1882.

The details of the manufacturing and distributing operations of the year are fully given in the report of the Engineer, which is herewith submitted for your information.

By order of the Trustees,

ALBERT C. ROBERTS,
President.

ENGINEER'S REPORT.

To the Trustees of the
Philadelphia Gas Works:

GENTLEMEN:—I have the honor to present the Forty-eighth Annual Report of the condition of the Works, together with a detailed statement of the operations for the year 1882.

The total amount of gas made during the year was 2,319,898,000 cubic feet, being an increase in quantity as compared with that made during the year 1881 of 110,753,000 cubic feet, making the total product of the Works since their erection 37,342,521,000 cubic feet.

The amount manufactured at the different stations was as follows:

	Cubic feet.
Gas made at the Twenty-sixth Ward Works..	713,212,000
Gas made at the Ninth Ward Works.....	1,079,907,000
Gas made at the Fifteenth Ward Works.....	23,155,000
Gas made at the Twenty-first Ward Works...	41,627,000
Gas made at the Twenty-fifth Ward Works...	461,997,000
	<u>2,319,898,000</u>

The maximum consumption of gas in twenty-four hours was 10,667,000 cubic feet, which occurred on the night of the 22d of December.

The maximum production of gas in twenty-four hours was 10,049,000 cubic feet.

The annexed statement shows the quantity of materials used in the manufacture and purification of gas.

In Moyamensing.....	141
In Southwark.....	74

In Richmond.....	28
In Kensington.....	208
In Twenty-first Ward.....	74
In Twenty-second Ward.....	75
In Twenty-third Ward.....	78
In Twenty-fourth and Twenty-seventh Wards.....	191
In all.....	<u>1,619</u>

Adding these to the total number before in use, makes the total number 100,738.

The applications for gas registered during the year have been—

At the Seventh Street office.....	6,123
At the Spring Garden office.....	5,085
At the Twenty-first Ward office.....	299
At the Twenty-second Ward office.....	459
At the Twenty-third Ward office.....	342
At the Twenty-seventh Ward office.....	1,277
Total.....	<u>13,585</u>

Deducting removals and discontinuances, amounting to 11,995, shows an increase of 1,590, which, added to former number of consumers, makes the total number now on the books of the Trust 101,958.

The lights added during the year were—

In old City.....	9,316
In Spring Garden and Penn.....	19,669
In Southwark.....	1,078
In Moyamensing.....	2,431
In Richmond.....	460
In Kensington.....	4,569

In Twenty-second Ward.....	1,505
In Twenty-third Ward.....	1,422
In Twenty-fourth and Twenty-seventh Wards...	4,818
	<u>46,997</u>
Previously in use.....	1,548,951
Total.....	<u>1,595,948</u>

There are now under the charge of the Trust 12,414 public lamps supplied with gas from these Works, and 509 from the Northern Liberties Works, making a total of 12,923.

57,664 feet of street mains were laid during the year, making the entire length of mains belonging to the Trust 3,813,777 feet, or 722 and 3-10 miles.

The increase in item of repairs in engineer's account was caused by expense incurred in alterations of coal-shed and erection of wall, railing, and pavement on Market street, at Ninth Ward Works, the renewal of three exhausters and four boilers and repairing holder at Manayunk Works.

In Gas Account, by the additional amount of labor required during the hot weather of last summer, light work being continued one month longer than usual.

I would again call the attention of the Board to the dilapidation of the Gas Holder at the Twenty-sixth Ward Works, which is now in such a state that it is necessary to repair it at once.

I also desire to call your attention to the necessity of an increase in number and size of distributing mains, for the purpose of furnishing a better supply of gas to sections now in need, and also for the purpose of equalizing the pressure in the different parts of the City.

It is with pleasure I state that the management of the officers in charge of the different departments of the Works has been entirely satisfactory.

Yours respectfully,

W. K. PARK,
Chief Engineer.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Chief Commissioner of Highways is hereby authorized and directed to enter into a contract with competent mechanics for the construction of the following sewers: 1. On Snyder avenue, from Thirteenth to Sixteenth street, and on Fifteenth and Sixteenth streets, from Snyder avenue to Wharton street; 2. On Sansom street, from Forty-sixth to Meadow street, and on Meadow street, from Sansom street to Market street; 3. On Washington street (Twenty-third Ward), from Spring street to the Delaware

river; 4. On Vienna street, from Beach street to the Port Wardens' line.

SEC. 2. That it shall be the duty of the Chief Engineer and Surveyor to prepare plans and specifications for said sewers, and that the contract entered into for the construction thereof shall be in accordance with such plans and specifications.

SEC. 3. That before entering into the said contract, the Chief Commissioner of Highways shall cause advertisements to be made for sealed proposals for the construction of the sewers at a specific sum per lineal foot; that the total cost of said sewers shall not exceed the estimates of the Chief Engineer and Surveyor for the work to be done, and that the contract therefor shall be awarded by him to the lowest and best bidder, who shall agree to keep said sewers and streets in repair for three years after its completion; and no contract therefor shall be binding on the City of Philadelphia, until the same shall have been authorized by these Councils.

SEC. 4. That no proposal for the construction of the said sewers shall be considered by the said Chief Commissioner of Highways, unless accompanied by an engagement in writing from two or more sufficient sureties, guaranteeing the faithful execution of the contract in case such proposal be accepted.

SEC. 5. That as the work of said sewers shall progress, there shall be assessed, and charged upon the properties in front of which the same shall be completed, the sum of one (1) dollar and (50) cents for each lineal foot of the front of the said properties.

SEC. 6. That it shall be a condition of such contract that the contractor shall accept the sums so assessed and charged under the foregoing section of this ordinance in part payment of his contract price, and that he shall collect the same at his own cost; and the better to enable him so to do, he

may use the name of the City of Philadelphia, and employ all legal remedies or proceedings, whether of lien or otherwise, to which the said City may be competent.

SEC. 7. That payments may be made while the work of constructing the sewers are in progress by the Chief Commissioner of Highways, in warrants upon the City Treasurer, charged to surplus of the appropriation to the Department of Highways for the year 1883, said payments in all cases to be made upon certificate of the Chief Engineer and Surveyor, estimating the amount of the work done: *Provided*, That for all current estimates no payments shall exceed four-fifths of the money meritoriously earned under said contract, after deducting the ratable proportion of the assessments referred to in section 5th of this ordinance.

SEC. 8. Satisfactory evidence shall be furnished by the contractor to the Chief Commissioner of Highways that full payment has been made for all labor done and materials furnished, previously to drawing a warrant for the final estimate of any work done by virtue of this ordinance, and the Chief Commissioner of Highways shall require full and entire payment by the contractors of all labor and materials on account of such work, and the said Commissioner shall give one month's notice, in two daily newspapers of the time at which final payment will be made on final estimate: *Provided, however*, That the total sum to be paid, as provided in section 7th of this ordinance, shall not exceed the amount of twenty-three thousand (23,000) dollars for sewers on Snyder avenue, Fifteenth street and Sixteenth street; the amount of forty-eight thousand (48,000) dollars for Mill Creek sewer; the amount of seven thousand six hundred (7,600) dollars for Washington street sewer, Twenty-third Ward, and thirteen thousand five hundred (13,500) dollars for Vienna street sewer. Total ninety-two thousand one hundred (92,100) dollars.

HEADQUARTERS REYNOLDS POST, No. 71, G. A. R.

Philadelphia, January 25, 1882.

To the President and Members of

Common Council of the City of Philadelphia.

GENTLEMEN --At a regular muster of General John F. Reynolds Post, No. 71, G. A. R., held January 24th, a resolution was unanimously adopted extending to your honorable body our warmest thanks for the interest taken by you in your efforts to secure a lot for our use at Twelfth and Wharton streets. At the time the request was made by our Committee, we occupied a building upon which a suitable lease could not be had; since that time, however, a lease has been obtained which is satisfactory to our entire membership, hence the lot granted will be of no service to us. Again thanking you for your efforts in our behalf, I remain

Yours, most respectfully,

ROBT. R. MARTIN,

Commander.

Attest:—R. ANDERSON SKEEN,

Adjutant.

APPENDIX No. 205.

RESOLUTION.

To appoint a Joint Special Committee in reference to the Navy Yard.

WHEREAS, His Honor, the Mayor, has received a communication from Com. S. B. Luce, U. S. N., President of the Commission on Navy Yards, appointed by an Act of Congress, approved August 5, 1882, stating that "the Commission will visit this City during the ensuing three weeks, when they will be pleased to meet those citizens who are interested in the sale or retention of the Navy Yard at League Island; and

WHEREAS, The City of Philadelphia deemed the location of a Navy Yard at this City of so much importance to the welfare of our people that the present site was purchased and presented to the General Government by Councils; therefore, be it

Resolved by the Select and Common Councils of the City of Philadelphia, That a Joint Committee of five from each Chamber be appointed to meet said Commission on behalf of the City of Philadelphia.

APPENDIX No. 206.

RESOLUTION

Of request to the Gas Trustees in reference to number and salaries of employees.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Gas Trustees of the City of Philadelphia be requested to inquire into and report to Councils the number of employees, the position and salary of each man, also, how many of these employees can be dispensed with, in order to conduct this department more economically.

APPENDIX No. 207.

DEPARTMENT OF HIGHWAYS, BRIDGES, SEWERS AND STREET CLEANING,

Philadelphia, January 31, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—Proposals duly received for cleaning streets and removing garbage for the year 1883, make the cost by the lowest bids \$324,408. For inspection and contingencies that may arise by reason of the failure of one or more of the fifty bids, there should be a further sum of \$10,000, making

a total of \$334,408. The sum at present available for this purpose, viz: Item 24 in appropriation for the Department of Highways is \$250,000. The further sum of \$84,408 is therefore required to meet the emergency, and I would respectfully ask the addition of that amount to the appropriation. With this sum appropriated and conditioned that any of the amount unexpended at the end of the year shall not merge, the contracts may be made to extend one year from date of award, and thus provide for the collection of ashes and garbage at the beginning of the year 1884.

JOHN D. ESTABROOK,
Chief Commissioner of Highways.

APPENDIX No. 208.

RESOLUTION

To appoint a Committee in reference to paving over gas mains.

Resolved by the Common Council of the City of Philadelphia, That a Committee of three from Common Council be appointed, the Chairman of which shall be the Chairman of the Highway Committee, to confer with the President of the Gas Trust with reference to the transferring of the paving over gas mains and gas breaks to the Highway Department.

DEPARTMENT OF SURVEYS.

Philadelphia, February 8, 1883.

WM. H. LEX, ESQ.,

President of Common Council.

DEAR SIR:—I respectfully submit for the approval of Councils, plans and specifications for a stone bridge over the river Schuylkill at Market street, as directed by ordinance. The width of the bridge is 100 feet and it consists of three river spans, the centre of 123 feet and the side arches of 117 feet 4 inches each, with a rise of $\frac{1}{6}$ of span; there is also a shore arch of 50 feet width on each side of the river.

The amount of security required from contractors should be definitely stated and provision made for an assistant engineer and rodman.

Very respectfully,

SAM'L L. SMEDLEY,

Chief Engineer and Surveyor.

DEPARTMENT OF POLICE AND FIRE ALARM TELEGRAPH.

Philadelphia, February 15, 1883.

To the Presidents and Members of the

Select and Common Councils of the City of Philadelphia.

GENTLEMEN:—In reply to the “Resolution of instruction to the Superintendent of the Police and Fire Alarm Telegraph to report to Councils by what authority the Philadelphia Local Telegraph Company, or Bell Telephone Company, maintain a line of telegraph poles on the west side of Fortieth street, between Market street and Lancaster avenue, Twenty-fourth Ward,” I respectfully report that I called upon Mr. Henry Bentley, the President of the Philadelphia Local Telegraph Company, who in reply to my inquiry stated that the Company claimed the right to erect the poles above mentioned, and maintain the same under the provisions of their charter, granted by the State Legislature, and approved May 10, 1871. The following is the section of their charter referred to:

“SECTION 2. That the said Printing Machine Telegraph Company shall on and after the passage of this Act, have authority from time to time to erect, lay down, construct, maintain and keep up, and operate a line or lines of telegraph wires, conductors, and other materials used in telegraphing, within the corporate limits of the City of Philadelphia, either along, over, upon, or under any of the public streets, roads, or highways, or through, across, at the bottom of, or under any of the waters, navigable or unnavigable, within the limits of said City of Philadelphia, and also along, through, over, across, or under any other land within the limits of said City, by the erection of masts, poles, posts, and all other necessary and usual fixtures and materials for sustaining wires, conductors, and other materials thereon, and therefrom, or by constructing, establishing, and maintaining a line or lines of wire, or other materials used in telegraphing, upon, or under said lands, or under water, with or without tubes or covering, or by any other means or instruments, which shall

be from time to time deemed most suitable by such Company ; and said company shall be authorized to select and adopt, from time to time, in lieu of the rout or routes selected by it, another route or routes for said line or lines within the limits aforesaid ; said line or lines to be used, occupied and maintained by said Printing Machine Telegraph Company, for the purpose of transmitting and delivering messages to, and from any and all parts of the said City, and to facilitate the business and other interests of the citizens or residents thereof, and to generally exercise all the powers, rights, privileges, and franchises of telegraph companies in said City : *Provided*, That such line or lines, or improvements thereon, shall in no case be constructed in such manner as to incommode the public use of said streets, roads or highways, or injuriously interrupt the navigation of said waters."

The corporate title of this company was the Printing Machine Telegraph Company.

Very respectfully,

W. J. PHILIPS,

Superintendent.

DEPARTMENT OF SURVEYS.

Philadelphia, February 13, 1883.

To the Select and Common Councils :
of the City of Philadelphia.

GENTLEMEN :—We, your Committee on Surveys and Regulations, to whom was referred the accompanying petition, asking that Eadline street, between Forty-second and Somerset

streets, be stricken from the plan of the City, beg leave to report that Eadline street was laid out on the City plan from Thirty-second to Forty-fifth street, that it was never opened between Lancaster avenue and Forty-second street.

The probable expense of opening within these limits was so great, that by Act of Assembly, approved April 12, 1866, and by ordinance of Councils it was stricken from the plan, from Lancaster avenue to Somerset street; this being the case, it ceases to be a through street, and the remaining distance from Somerset street to Forty-second street, a distance of one hundred and twenty-five (125) feet can be dispensed with and the cost thereof saved. We recommend the adoption of the ordinance herewith.

APPENDIX No. 245.

Philadelphia, February 13, 1883.

ANNUAL REPORT OF THE BOARD OF FIRE COMMISSIONERS.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—The Board of Fire Commissioners respectfully submit this their Twelfth Annual Report of the condition and operation of the Department for the year ending December 31, 1882. Annexed hereto is a statement in detail of the expenditures, rolls of the several companies, the apparatus and material owned by the City and under the charge of this Department, together with a statement of fires and alarms which have occurred during the past year, with the losses and insurance on the property exposed, and other matters of such general character as will tend to a correct knowledge of the workings of this Department.

JACOB LAUDENSLAGER,
President.

REPORT OF CHIEF ENGINEER.

Philadelphia, January 1, 1883.

To the President and Members of the
Philadelphia Fire Commission.

GENTLEMEN :—In accordance with the requirements of the eleventh section of the ordinance, approved on the 29th day of December, 1870, creating and reorganizing the Fire Department of the City of Philadelphia, I have the honor to submit this the twelfth annual report of the present condition and efficiency of the Department in my charge, embracing a statement in detail of the number of fires and the causes of such fires, the losses and insurances for the year as near as has been possible to obtain them. Also, a full and complete list of all the employés attached to the Department with their names, rank, age, residence, and occupation, with a schedule of property held in charge by the different companies on the first day of January, 1883. Also, a tabular statement of the number of alarms by days, number of second and third alarms, false alarms, fires where losses have exceeded twenty thousand (20,000) dollars, Chief and assistant engineers attendance at fires, company attendance at fires, together with such other information as may be of benefit for future reference.

The Department, as now organized, consists of—

One Chief Engineer.

Five assistant engineers.

Twenty-eight foremen of engine companies.

Five foremen of hook and ladder companies.

Twenty-eight engineers of companies.

Twenty-eight firemen of companies.

Thirty-three drivers of companies.

Five tillermen of hook and ladder companies.

Two hundred and sixteen permanent hoseman.

Fifty permanent hook and laddermen.

Eight temporary hosemen in rural districts.

They are divided into thirty-three companies, as follows :

Twenty-eight steam engine companies, five hook and ladder companies, with the addition of hose and hose carriage at each station.

Fuel Wagons.

There are six fuel wagons in the Department, each capable of carrying one ton of engine coal and one-half cord of wood, to be used in case of large fires where more fuel is required than is carried by the engines.

One stationed at headquarters, No. 1328 Race street.

One stationed at Station No. 2, Montgomery avenue, above Tenth street.

One stationed at Station No. 10, No. 810 Morris street.

One stationed at Station No. 26, No. 1011 Hamilton street.

One stationed at Station C, No. 2003 North Second street.

One stationed at Station E, corner Twentieth and Hand streets.

Fires.

The accompanying statement shows that the whole number of fires attended by this Department during the past year was seven hundred and fifty-six (756), with a loss of property amounting to two million three hundred and fourteen thousand seven hundred and eleven (2,314,711) dollars, which by a comparison with the previous year shows a decrease of seventeen (17) fires and an increased loss of property of five hundred and eighty-eight thousand nine hundred and eighty (588,980) dollars. The losses, as near as could be ascertained, are covered by insurances amounting to eight million two hundred and thirty-five thousand nine hundred and sixty-three (8,235,963) dollars.

Hose.

There are in use at stations forty-three thousand six hundred and eighty feet of gum and eleven thousand nine hundred and fifty feet of rubber-lined cotton hose, all with the Jones' coupling.

General Remarks.

The almost unprecedented spreading out of the City, with its vast manufacturing establishments has created a great want of apparatus and water supply in case of fire. Mills of every description, and of almost unthought of proportions, have been erected, giving employment to thousands of people, where a short time ago nothing but open commons could be seen, and consequently the dwellings to accommodate the working people have followed close in their wake. Capitals of millions are invested without the fire protection needed, where such vast wealth is at stake. Protection to life itself seems to be uncared for until some terrible calamity occurs which brings the authorities to a sense of the awful responsibilities which have been trifled with. Now as the City grows in extent, and

capital invested increases in the erection of buildings, and population extends, protection from fire should be afforded in proportion. In other words, the Fire Department should keep pace with the growth of the City.

The fallacy of being economical at the risk of life and property has shown itself in the fire record for the past decade. And again, we need more fire apparatus, for should two fires occur at the same time, the Department as equipped at the present time is not in condition to meet such emergency.

The Hayes' Hook and Ladder Truck has afforded such general satisfaction that two more of them have been added to the Department during the past year. Words can but faintly convey an idea of the practicability of this ladder. Compact, strong, easily worked, it has filled a want that was long felt, and with this wonderful contrivance height and heat are no obstacles in reaching the flames.

The quantity of hose in the Department has been increased by the addition of thirteen thousand feet of multiple, woven, rubber-lined, cotton hose, enabling us to retire some of the old unreliable hose, which we had in use. As this is our first experience in the use of cotton hose, we are happy to state that it is in every way satisfactory. We have had it constantly in service since April last and it has stood the strain remarkably well, the only injured sections were cut by being run over. The running over hose by drivers of vehicles is a matter which should be looked after. In nine cases out of ten there is not the slightest necessity for it, as it arises from either a sulkey and sullen spirit or sheer maliciousness, as it is done when neither firemen or police are near. An example should be made of one or two of these drivers, which might prove a salutary lesson to others, and tend to break up a practice which not only destroys the hose but which hinders the Department in their effort to quench the flames.

The Telegraph system in the City of Philadelphia is in such a condition as to require serious consideration. There appears to be a complex system which would be of more profit to the public if unravelled. There are two distinct systems which should be separated and placed under different managements. I mean the Police and Fire Alarm Telegraph. The Fire Alarm Telegraph should be placed under the control of the Fire Department. If so placed this Department would be responsible for all errors, and an operator should be made to understand that if once a mistake occurs, there never would be an opportunity afforded for a repetition. If this Department had the telegraph in charge there would be such guards thrown around it as to make mistakes almost impossible, and the public would reap the benefit of the change. As it is at present we are entirely at the mercy of those who have no interest in the success of this Department, and little care whether they send the proper alarm or send the companies miles away in entirely contrary direction from the fire.

The water system for fire protection has not been improved much during the past half century. The same mains and the same number of fire-plugs then as now. The water supply which was thought sufficient at that time, is vainly forced to supply present wants. We want more fire-hydrants, and those at the cross streets, and of such pattern as to allow two steamers to attach. Besides, fire-hydrants are cheaper than hose, and an increased number of them would avoid the long leads of hose, be less obstruction to travel, and enable the engines to force more effective streams of water to an altitude which could not be attained when stationed at a greater distance from the fire.

As to the discipline of the Department, I have nothing but praise to bestow on those composing it. Ever on the alert, when the alarm is struck no one fails to respond. Fearless in the discharge of duty there is no danger they will not face,

and indeed many an act of daring has brought forth applause from the people who witness them, and which serves only to nerve the men to try to outdo each other. From the foremen down they appear to possess an emulation to strive to perform their duty, not only well, but to endeavor to excel each other in acts which no one would dare but those having a pride in their calling and a desire to assist their fellow-citizens. Ever respectful to their officers and obedient to their commands, I can fearlessly say that the Philadelphia Fire Department to-day stands unrivalled for daring and discipline by any Department in this country or any other.

In conclusion, I desire to express my acknowledgment of the valuable services of Assistant Engineers Joseph T. Hammond, James C. Baxter, Jr., William F. Mooney, William Stagar, and John Smith, and for the intelligent and prompt manner in which they have performed their duties. I desire to return my thanks to Capt. Geo. R. Stillman of the Insurance Patrol, and the active body of men attached to that organization, who have at all times rendered valuable assistance to this Department.

And to the President and Members of the Fire Commission I offer my sincere thanks for their many acts of kindness, and trust that my efforts to protect the property of our fellow-citizens may merit the favor I receive and the confidence which has been so fully reposed in me.

Respectfully submitted,

JNO. R. CANTLIN,
Chief Engineer.

APPENDIX No. 246.

Philadelphia, February 26, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—On the 17th day of January, 1883, in conformity with an opinion given by the City Solicitor, William Nelson West, I was elected by your honorable bodies, in Joint Convention, as Controller of the City of Philadelphia, for the unexpired term of Robert E. Pattison, elected Governor of the State of Pennsylvania. I accordingly entered security which was duly approved by your honorable bodies and the Mayor of the city, after which I took the oath of office and was prepared to enter upon my duties, but before doing so, legal proceedings were instituted in Common Pleas Courts Nos. 2 and 3, to prevent me from taking possession of the office upon the ground that the Governor of the State was authorized to fill the vacancy for the unexpired term.

Common Pleas Court No. 3 decided that the appointment to fill the vacancy was vested in the Governor, and a judgment of ouster was entered against me as the appointee of the City Councils.

By advice of my counsel the case was appealed to the Supreme Court and the judgment of the lower Court was affirmed.

Under these circumstances I respectfully ask that Councils make an appropriation of \$916.66 for my salary as Controller, from January 17th, the date of my election and appointment, to the 19th of February, the date upon which the Supreme Court rendered its final decision; and also the sum of \$1,500 to reimburse me for legal and other expenses involved in defending the right of City Councils to fill the vacancy.

I was not responsible for this litigation, as it was forced upon me as the appointee of the City Councils, and in all fairness and justice I claim that the City should pay my salary for the time specified and for the necessary legal and other expenses involved in the case.

Very respectfully,

WILLIAM M. TAGGART.

DEPARTMENT FOR SUPPLYING THE CITY WITH WATER.

Philadelphia, March 1, 1883.

To the President and Members
of Common Council.

GENTLEMEN:—I enclose opinion of the City Solicitor in regard to my status under the law, a copy of which I have also sent to the President and Members of Select Council, in accordance with his directions and instructions. I respectfully await your orders.

As, under said decision, my term of office expired yesterday, and as I must seek service elsewhere, I most respectfully request that you order an examination of my accounts and the release of my securities at the earliest possible moment compatible with the interests of the City.

In a letter from Col. Wm. Ludlow he informed me that he would not be able to enter upon his duties until after the adjournment of Congress.

Yours, very truly,

WM. H. McFADDEN,

Chief Engineer of Water Department.

—

LAW DEPARTMENT,

Philadelphia, February 27, 1883.

DR. WM. H. McFADDEN,
Chief Engineer.

MY DEAR SIR:—I understand from your note that your last term of three years began on the first day of March, 1880, and will therefore expire on the last day of February of this year.

The ordinance of October 3, 1854 (*vide* City Digest, page 488, P. L.), is that the Chief Engineer “shall hold his office until his successor be chosen at the annual time fixed therefor.”

Your term and duties end to-morrow, and if you know from your successor that he cannot then enter upon the performance of his duties, I advise that you at once inform the Presidents of Councils of the situation, and ask for a meeting of Councils and instructions from them. In the absence of instructions from Councils your better course is to remain at your post until relieved by your successor, doing, however,

only such things as are absolutely necessary to the City's water supply and the preservation of her property.

Yours, very truly,

WM. NELSON WEST,

City Solicitor.

APPENDIX No. 253.

LAW DEPARTMENT,

Philadelphia, March 1, 1883.

To the Presidents and Members of Select and
Common Councils of the City of Philadelphia.

GENTLEMEN :—Some time since I received from you a request to furnish you with an opinion “as to the power of passenger railway companies to lay the cable motor in the streets of the City.”

The consideration of so general a question as you have submitted to me involves the examination of scores of Acts of Assembly, by which are given to the several passenger railway companies their respective rights and franchises, and which constitute their charters.

The charters of some of the companies are so explicit upon the subject that no such right as is questioned would ever be asserted.

The charters of others are so framed as to make the question you ask, as to them, a difficult and doubtful one.

I beg to suggest that if in any special case you believe that the interests of the City require that the question should be raised, it can easily be done by suit, to be brought to test the power.

By the Act of May 8, 1876 (P. L., 147), you are authorized to endow any of our passenger railway companies with the right to use other than animal power in the carriage of passengers in their cars, upon the conditions in said Act contained.

I am, with great respect, your obedient servant,

WM. NELSON WEST.

City Solicitor.

APPENDIX No. 254.

DEPARTMENT OF CITY CONTROLLER,

Philadelphia, March 1, 1883.

WM. HENRY LEX, Esq.,

President of Common Council.

MY DEAR SIR:—I find that my approval is asked by the Board of Education for certain bills of goods needed for the schools, furnished upon sworn proposals, which have been accepted by the Committee of Councils upon Schools, whereby the bidder is to provide all such supplies as ordered by the Board, without other security for the City in case of failure to comply with proposal than the respectability and responsibility, moral and pecuniary, of the bidder; and I learn that such bills have been approved by former Controllers because foreign bidders have greater facility in supplying the demand at fairer and cheaper rates under such system than under that required by law and ordinance.

I believe that the present system has so far worked advantageously to the City of Philadelphia, but I do not wish to sanction the apparent disregard of law when sworn to support it.

I beg to submit the whole matter to the consideration of the City Councils, and ask instructions in the premises; the interests of the City being the main end of all our efforts.

Yours truly,

S. DAVIS PAGE,

City Controller.

APPENDIX No. 255.

RESOLUTION

To appoint a Joint Special Committee to proceed to Harrisburg in reference to the abolition of the Building Commission.

Resolved by the Select and Common Councils of the City of Philadelphia, That a Committee of five members of Select and Common Councils be appointed to proceed to Harrisburg to urge the repeal of the Building Commission Act before the Legislature.

APPENDIX No. 256.

RESOLUTION

Of request to the Trustees of the Philadelphia Gas Works to regulate the deposit of Funds.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Trustees of the Philadelphia Gas Works be and are hereby requested to deposit all the cash on hand, and as collected, in the several banks or City depositories in the same proportions in each bank as the City Treasurer now does under the ordinance of Councils of June 21, 1882.

APPENDIX No. 257.

RESOLUTION

Requesting the City Controller to countersign a warrant in favor of James O'Neill for grading Germantown avenue.

Resolved by the Select and Common Councils of the City of Philadelphia that the City Controller be and hereby is requested to countersign a warrant in favor of James O'Neill, for the sum of two thousand three hundred (2,300) dollars for the grading of Germantown avenue, under a contract en-

tered into with the Highway Department, by the authority of an ordinance approved March 10, 1879, the bill therefor having been approved by the Surveyor of the District, the Commissioner of Highways for the District, the present Chief Commissioner of Highways, and the Committee on Highways.

APPENDIX No. 258.

RESOLUTION

Of request to the Legislature of the State of Pennsylvania, to repeal the powers of the Building Commission.

WHEREAS, By the Act of June 5, 1870, creating the Public Building Commission, that body is clothed with powers which are repugnant to every principle of popular government, embracing the right to make requisition for money from the taxpayers without the assent of the people or their proper authority, to expend millions of money without accountability, to perpetuate its power indefinitely by electing its own successors, and to assume control of Independence Square without any direction from the people or their municipal government; therefore,

Resolved by the Select and Common Councils of the City of Philadelphia, That the Legislature is again respectfully, but earnestly, urged to repeal the despotic powers of the Building Commission; restore to the people of Philadelphia and their constituted authorities, just supervision of all future contracts and expenditures by said Commission; provide for the selection of Building Commissioners for specified terms, by the representatives of the people; for the approval of all future contracts by the City government; for stated monthly or weekly returns to the proper accounting officers of the City, of all expenditures in detail; for the absolute restoration of Independence Hall and Square to the control of the City government; and the absolute repeal of all powers to command revenues or make expenditures without the assent of the legitimate authority that controls all other municipal revenues and expenditures.

OFFICE BOARD OF FIRE COMMISSIONERS,

Philadelphia, March 1, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—At a stated meeting of the Board of Fire Commissioners, held February 27, 1883, the following was passed: "That Councils be requested to locate an Engine Company in the vicinity of Third street and Lehigh avenue, Twenty-fifth Ward."

"And also to grant the use of the market plot on Girard avenue, facing east side of Lawrence street, for the purpose of erecting a Fire Station for this Department, and to appropriate an adequate amount for the building of the same."

President.

APPENDIX No. 260.

BOARD OF FIRE ESCAPES,

Philadelphia, February 28, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—The Board of Fire Escapes submit this their first annual report for the year ending December 31, 1882. The eradication of long standing abuses, or the introduction of new innovations on old habits and appliances are naturally of slow progress, as prejudice, old habits, and advanced opinions meet us in every step as we advance. The remarks apply to the fire escape, as well as to all modern

improvements on old methods in art and mechanism. In old times buildings were not so lofty an altitude as they are at the present day, and fire escapes were hardly necessary, but of late days when buildings are shot up to the height of one hundred feet, and the greatest number of employees are engaged in the upper stories, it is absolutely necessary to have avenues of escape outside of the building as well as inside in case of fire. Architects and owners of buildings are thoughtless and negligent in the matter of such vital importance, and your Board have met cases of almost criminal negligence, where old buildings have been remodelled, or two buildings thrown into one, where only a single narrow stairway is used for ingress and egress for hundreds of employees. Even after the ordinance, compelling the adoption of the fire escapes was passed, parties persist in evading the provisions, by promises which are never fulfilled, and only made to baffle the enforcement of the law.

Your Board feel it their duty to proceed legally against them, and make them understand that human life must not be placed in peril, nor the law trifled with. Others have promptly obeyed the ordinance, and in their anxiety to protect life have erected appliances fully adequate in any emergency.

Following is a statement in detail of the expenses incurred by the Board in carrying out the provisions of the ordinance under which they were appointed.

The Board have issued 336 certificates of fire escape approval, for which \$672 was received, and the amount paid to the City Treasurer.

Respectfully,

JACOB LAUDENSLAGER,

President.

Philadelphia, March 1, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN: We, your Committee on Surveys and Regulations, to whom was referred the petition for a sewer on York street, from Coral street to Gunner's Run, beg leave to report, that many places in the Eighteenth and Thirty-first Wards are flooded at the times of heavy rains, and a remedy is greatly needed. An appropriation having been made in the annual appropriation bill of the Highway Department for this year, to build a sewer on York street, from Coral street to Gunner's Run, to afford relief, we recommend the passage of the accompanying ordinance, directing the work to be contracted for.

THOS. M. HAMMETT.	

AN ORDINANCE

To authorize the construction of a sewer on York street, from Coral street to Aramingo canal, and to rebuild and repair various other sewers, in the Thirty-first Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Chief Commissioner of Highways is hereby authorized and directed to enter into a contract or contracts with competent mechanics for the construction of a sewer on York street, from Coral street to Aramingo canal, and to rebuild and repair any portion of present sewers on Huntingdon, Amber, Sergeant, Diamond, Cedar, Dauphin, and York streets, in the Thirty-first Ward.

SEC. 2. That it shall be the duty of the Chief Engineer and Surveyor to prepare plans and specifications for said sewers, and that the contracts entered into for the construction thereof, shall be in accordance with such plans and specifications.

SEC. 3. That before entering into said contract, the Chief Commissioner of Highways shall cause advertisements to be made for sealed proposals for the construction of the sewers at a specific sum per lineal foot ; the total cost of said sewers shall not exceed the estimates of the Chief Engineer and Surveyor for the work to be done, and no contract therefor shall be binding on the City of Philadelphia until the same shall have been approved by these Councils.

SEC. 4. That no proposal for the construction of the said sewers shall be considered by the said Chief Commissioner of Highways unless accompanied by an engagement, in writing, from two or more sufficient sureties, guaranteeing the faithful execution of the contract in case such proposal be accepted.

SEC. 5. That as the completion of the said sewers shall progress, there shall be assessed, and charged upon the properties in front of which the same shall be completed, the sum of one (1) dollar and fifty (50) cents for each lineal foot of the front of the said properties, except where sewers are now built.

SEC. 6. That it shall be a condition of such contracts that the contractor shall accept the sums so assessed and charged under the foregoing section of this ordinance, in part payment of his contract price, and that he shall collect the same at his own cost, and the better to enable him so to do, he may use the name of the City of Philadelphia, and employ all legal remedies and proceedings whether of lien or otherwise to which the said City may be competent.

SEC. 7. That payments may be made while the work of the sewer is in progress, by the Chief Commissioner of Highways, in warrants upon the City Treasurer, charged to item of appropriation to the Department of Highways, Bridges, and Sewers, for the year 1883, said payments to be made upon a certificate of the Chief Engineer and Surveyor, estimating the amount of work done: *Provided*, That for all current estimates no payments shall exceed four-fifths of the money meritoriously earned under said contract after deducting the ratable proportion of the assessments referred to in section 5 of this ordinance; said payments to be made in the bonds of the City of Philadelphia, or in cash, at the discretion of the Mayor.

SEC. 8. Satisfactory evidence shall be furnished by the contractor to the Chief Commissioner of Highways that full payment has been made for all labor done, and materials furnished previously to drawing a warrant for the final estimate of any work done by virtue of this ordinance; and the Chief Commissioner of Highways shall require full and entire payment by the contractors of all labor and materials on account of such work; and the said Commissioner shall give one month's notice in two daily papers of the time at which final payment will be made on each and every final estimate.

APPENDIX No. 273.

Philadelphia, February 27, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys and Regulations, to whom was referred the ordinances and petitions for sewers, beg leave to report that the location for these sewers have been examined by the Board of Surveyors, who have approved their construction, and from whose reports we find their aggregate length will be 6,237 feet, costing to the property owners upon the lines thereof \$14,510 and to the City, not exceeding \$5,000. We respectfully ask the approval of the ordinance herewith submitted for their construction.

AN ORDINANCE

To authorize the construction of sewers on Front, Second, Carpenter, Moyer, Philip, Thirty-ninth, Myrtle, Palm, Twenty-second, and Mascher streets, and Kensington, Lehigh, and Westminster avenues.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Highways be and is hereby authorized to construct the following sewers, viz.: On Front street, from the sewer in Coral street, northward, four hundred and ninety feet; on Second street, from Vine to Wilmer street; on Carpenter street, from east line of Sixth street to the sewer in Passyunk avenue;

on Moyer street, from the sewer in Vienna street to the northeast line of Montgomery street; on Philip street, from the sewer in Norris street, southward, three hundred and twenty-five feet; on Thirty-ninth street, from the sewer in Oregon street to north curb line of Aspen street; on Myrtle street, from sewer in Preston street to Palm street; on Palm street to Westminster avenue, thence westward on said avenue to the west curb line of Holly street; on Twenty-second street, from Locust to Spruce street; on Lehigh avenue, from the sewer in Waterloo street to Mascher street, thence on Mascher street to the north line of Somerset street; and on Kensington avenue, from the middle of Venango street to a point three hundred and forty feet, southwest of Tioga street. Said sewers to be built of brick, oval in shape, and in accordance with specifications prepared by the Chief Engineer and Surveyor.

SEC. 2. The Chief Commissioner of Highways shall advertise according to law, announcing that bids will be received for the sewers above designated, and he shall allot them to the lowest bidders, and it shall be a condition of the contracts that the contractor shall keep the said sewers and that portion of the street, along which the said sewers shall be laid, in good order and repair for three years from and after the date of the completion of the said sewers, and shall accept the sums assessed upon and charged to the properties lying on the lines of said sewers in manner and form authorized by ordinance entitled "An ordinance regulating the assessment upon property for the construction of branch culverts or drains," approved May 12, 1866, and supplement thereto, approved February 16, 1869; any excess over and above said assessment, in addition to that provided for by ordinance entitled "An ordinance authorizing the Chief Commissioner of Highways to draw warrants for street intersections, manholes, and legal deductions in the construction of branch sewers," approved April 3, 1868, to be charged to item (for branch sewers) of annual appropriation made to the Department of Highways for the year 1883: *Provided*, That said excess does not exceed the sum of five thousand (5,000) dollars.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—We, your Committee on Surveys and Regulations, to whom was referred the accompanying ordinance for the construction of a drawbridge, at Frankford Creek and Orthodox street, beg leave to report that the old drawbridge is built with a pivot pier in the centre of the stream, where the bend in the creek is so great as to approach very near to a semi-circle in the distance of about a square. The location and construction is such as to be highly objectionable for navigation. We believe that the stream should be straightened before new permanent improvements are made ; to do this it would have to be carried about 500 feet through the marsh, which is nearly as low as the stream, and 300 feet distance will be saved to navigation and a straight line secured through the draw. The property to be cut is all owned by Richard J. Dobbins, who was visited by a Sub-Committee, and he has made a written proposition, which is appended, agreeing to dedicate the ground. The construction we regard as urgent, and recommend the passage of the ordinance and the appropriation of thirty thousand dollars for that purpose.

MR. SAMUEL L. SMEDLEY,
Chief Engineer.

DEAR SIR:—Answering your letter, Capt. Thornton called on me in reference to straightening the Frankford Creek, at Orthodox street. I will dedicate the ground as it was explained to me, provided the property is left in as good condition as it now is, and you have the dirt which they dig out put on my lowland. I will call at your office and sign a contract to that effect.

Very respectfully,

R. J. DOBBINS.

AN ORDINANCE

For the construction of a bridge across Frankford Creek at Orthodox street, in the Twenty-third Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Chief Commissioner of Highways be and is hereby authorized to enter into contracts with one or more competent persons or corporations for constructing of a new channel for Frankford creek and a bridge across the same at Orthodox street; the said bridge to be of iron, in three spans, with a draw or turn bridge for the passage of vessels with masts through the centre, with such approaches with retaining walls as may be necessary and requisite to meet the elevation of the roadway of said bridge.

SEC. 2. That it shall be the duty of the Chief Engineer to prepare plans and specifications for the said channel and bridge, and that the contract or contracts entered into for the construction thereof shall be in accordance with such plans and specifications.

SEC. 3. That before entering into such contract or contracts the Chief Commissioner of Highways shall cause advertisements to be made, giving notice that sealed proposals for the

construction of the whole or part of said channel and bridge will be received; and the contract or contracts therefor shall be awarded to the lowest responsible bidder; but no contract or contracts shall be binding on the City of Philadelphia until the same have been duly approved by Councils.

SEC. 4. That payments may be made while the work is in progress. The Chief Commissioner of Highways is hereby authorized to draw warrants upon the City Treasurer, charged to said payments to be made in all cases upon certificate of the Chief Engineer and Surveyor, estimating the amount of work done.

SEC. 5. Satisfactory evidence shall be furnished by the contractor to the Chief Commissioner of Highways that payment has been made for all labor done and materials furnished, previous to drawing a warrant for the final estimate; and the Chief Commissioner of Highways shall require full and entire payment by the contractor for all labor and materials on account of said work, and the said Commissioner shall give thirty days' notice in two daily papers of the time at which final payment will be made.

GENTLEMEN:—We, your Committee on Surveys and Regulations, to whom was referred the accompanying ordinance to place Letitia street on the City plan, beg leave to report that they have carefully examined the subject, and believe that it would be a great advantage to merchants and owners of property on the line of the street to have it opened. The street is 36 feet wide from Chestnut street to Market street, except 75 feet at the north end, where a property on each side would have to be taken to secure the full width. It is there only 16 feet 9 inches in width. Their removal would cost several

thousand dollars, which should be paid by those benefitted. We therefore report the ordinance favorably, with the proviso exempting the City from payment of damages.

GENTLEMEN :—Your Sub-Committee, to whom was referred the resolution of Councils directing the Gas Committee to investigate the sale of gas tar and the contracts for hauling, make the following report :

That a meeting of the Sub-Committee was called for January 19, 1883. Notices were sent to the Committee on Works of the Philadelphia Gas Works, to the Chief Engineer of said Works, to Messrs. Warren, Lober & Co., to Messrs. Stellwagons' Sons, to Mr. Michael Ehret, Jr., and to Mr. Frank Martin ; the Chairman also addressed a letter to the Chairman of the Committee on Works of the Philadelphia Gas Works, stating the information desired by the Committee, and asking that it be furnished. No response was made by anyone connected with the Gas Works.

Mr. Stellwagon, of the firm of Messrs. Stellwagon's Sons, and Mr. Michael Ehret, Jr., dealers in coal tar and coal tar products, attended in response to the invitation to be present.

Mr. Stellwagon being sworn, testified that the firm of which

he is a member, are purchasers of coal tar in large quantities; that they have been ready, and are now ready, to contract for the whole or a part of the tar produced at the Philadelphia Gas Works; that they would prefer not taking the whole product, but would do so if necessary; that they have bought the greater part of the tar they have been using from works outside of the City of Philadelphia, the tar costing them from \$1.40 to \$1.50 per barrel of 45 gallons at their works, they finding the barrel; that the price asked at present by Warren, Lober & Co. is \$2.25 per barrel, the purchaser furnishing the barrel; that the tar produced from each ton of coal carbonized should be from 10 to 13 gallons.

Mr. Michael Ehret, Jr., being sworn, testified that he is a distiller of coal tar; that he takes the tar produced at the Northern Liberties Gas Works for which he pays \$1 per barrel, he furnishing the barrels, and being at all expense except filling the barrels; does not consider the Northern Liberties tar as good as that produced at the Philadelphia Gas Works, the Northern Liberties using more English coal, which makes a lighter tar than American coal; the cost of hauling, etc., from the Northern Liberties to my works is about 40 cents per barrel.

Mr. Ehret continued: A former partner of mine had the contract for the tar produced at the Spring Garden Gas Works for some years, paying either 2 or 2½ cents per gallon for it. On going to the Gas Office for a renewal, I was shown by Mr. White that a contract had been entered into with Messrs. Warren, Lober & Co., to go into effect at the expiration of my partner's contract, they to have the tar at 1 cent per gallon. I would have gladly taken it at \$1 per barrel of 45 gallons; do not think there would be any difficulty in disposing of the whole tar product of the Philadelphia Gas Works at \$1 per barrel. A better price can be obtained if the works are given or contracted for separately than if put up as a whole.

The Committee adjourned to meet at the call of the chairman, the meeting not to be called until the new Board of Trustees had organized.

The next meeting was held at the office of the Philadelphia Gas Works, February 9, 1883. The chairman having previously addressed a note to the President of the Board of Trustees, Mr. Gardner, who gave directions that every facility

should be given to the Committee to obtain such information as they required.

The contract with Messrs. Warren, Lober & Co. not being at the Seventh street office, the Committee took up the sales of tar to Messrs. Warren, Lober & Co. (during the term of the existing contract with them), a statement of which was furnished. Mr. Park, Chief Engineer of the Gas Works, was present. He stated that 10 to 12 gallons of tar should come from each ton of coal carbonized; sometimes got 14 to 15 gallons; thought 11 gallons to the ton a fair, safe estimate. When asked to explain why there was such a marked difference in the quantity of tar in different years, said he could account for it only by having used more soft coal some years than others; but stated that all coal used at their works should yield 11 gallons of tar to the ton.

The sales of tar to Messrs. Warren, Lober & Co. (who were under contract to take, and who, as Mr. Park stated, and the books show, did take all the tar sold), show that they paid for $6\frac{37}{100}$ gallons for each ton of coal carbonized in 1878, for $8\frac{2}{10}$ gallons to the ton in 1879, for $7\frac{95}{100}$ gallons to the ton in 1880, for $10\frac{90}{100}$ gallons to the ton in 1881, for $12\frac{92}{100}$ gallons to the ton in 1882.

Mr. Park stated that Messrs. Warren, Lober & Co. had their works at Point Breeze and at the Market Street Gas Works, on the property belonging to the Gas Works. At Point Breeze they occupy from one-third to one-half of the wharf, the wharf having a frontage of 300 feet, and a depth of 150 feet; for this they pay an annual rental of \$300. At the Market Street Works they occupy what ground they require without charge. All their works for distilling and other purposes are on the ground belonging to the Gas Works, their stills being connected with the tar tanks by means of pipes, so that by opening a valve they can be filled direct from the gas tanks.

Reviewing the evidence your Committee find: That at the time of awarding the existing contract to Messrs. Warren, Lober & Co., no proposals were asked for, no publicity was given to the fact that valuable privileges would be conceded to the party or parties contracting for the tar, said privileges being equal to 35 or 40 cents per barrel, the evidence showing that distillers of tar purchasing from Warren, Lober & Co., are at an expense of 35 to 40 cents per barrel, in freight,

handling, etc., to place the tar in the same position at their works as Messrs. Warren, Lober & Co. enjoy for theirs at the Gas Works.

Had those facts been made public and proposals invited, your Committee feel certain that at least \$1 per barrel could have been obtained for the entire product during the time for which Messrs. Warren, Lober & Co., have had their last contract, or from July, 1878; your Committee also find that there should be a yield of at least 11 gallons of tar for each ton of coal carbonized. While the sales to Messrs. Warren, Lober & Co. (who took all the tar sold), show an average of nine and $\frac{6.2}{100}$ gallons, and as the coal carbonized during the four and one-half years amounts to 1,129,933 tons, we find 1,569,307 gallons of tar unaccounted for.

Your Committee also find, that in the year 1878 the tar at the Spring Garden Works was, without any notice, taken from a party who was paying two cents per gallon for it, and given to Warren, Lober & Co., at one cent per gallon.

To sum up, your Committee find from the evidence before them, that the tar sold in the last four and a half years is 1,569,307 gallons less than should have been sold according to the coal used; that a contract for the tar was made extending over a term of years at the price of one cent per gallon, when on the same conditions (had any publicity been given to the matter), it could have been sold for at least \$1 per barrel of 45 gallons, or .0222 cent per gallon; that the City has thus been a loser in the time mentioned, to the extent of \$167,696.35, the amount received being \$112,237.63 instead of \$279,933.98, as it should have been, the loss being as follows: 34,873 barrels of tar unaccounted for at \$1, \$34,873; 241,497 barrels of tar sold at 45 cents per barrel instead of \$1, loss 55 cents per barrel, \$132,823.35; total loss, \$167,696.35. That for this loss the Trustees of the Philadelphia Gas Works, acting at the time, should be held responsible, your Committee being clearly of the opinion that it is to be attributed to gross mismanagement on the part of said Trustees and those employed by them.

HAULING.

Your Committee find that Mr. A. Thompson, member of Common Council from the Twenty-sixth Ward does the hauling for the Twenty-sixth Ward Works, and although there is

no contract in writing with Mr. Thompson, the evidence of Mr. Park, Chief Engineer, shows that practically there is a contract with Mr. Thompson for doing this work, or at least an arrangement which has for some years given him a monopoly of the work done, Mr. Thompson hauling all the coal to the works, and hauling away all the coke sold by the Company to consumers.

The Trustees although claiming to have nothing to do with the hauling of the coke, do make the cost of hauling a part of the price, collect the same from the purchaser, and pay it over to Mr. Thompson.

Mr. Thompson also has the preference as a purchaser of coke, other parties being excluded except at such times as Mr. Thompson does not want it.

In view of these facts your Committee would suggest, that an examination by the Trustees of the Gas Works into the methods or manner in which this work is done would probably result in benefit to the City.

The only written contract for hauling in force at present, is one with Messrs. Sloan and Macauley, for the Ninth Ward Works, for one year from December 1, 1882.

The minute book of the Gas Trust shows that Gas Trustee Wm. H. Smith, endeavored to have this work advertised for, and offered a resolution to that effect, the resolution was referred to a Committee, who recommended that the contract be awarded to Messrs. Sloan and Macauley at prices recommended by the Committee in their report, this was agreed to by a majority of the Board of Trustees.

Your Committee are of the opinion that radical changes can be made as regards the hauling at the different works, with benefit to the City.

APPENDIX No. 291.

DEPARTMENT OF CITY CONTROLLER

Philadelphia, March 8, 1883.

WM. HENRY LEX, ESQ.,
President of Common Council.

DEAR SIR:—Certain warrants drawn by the present Commissioner of Highways upon the appropriate items of the appropriation to his Department for the year 1882, in payment of bills for repairing paved streets and unpaved roads and bridges, in various Wards of the City of Philadelphia, after approval by the late Commissioner of Highways, the Joint Committee of Councils on Highways, and himself, specifically set forth in a communication from the Highway Department, herewith inclosed, have been presented to me for my approval and signature.

Upon a sworn protest against the payment of any of these bills, and the approval of the warrants so presented, I demanded from the several contractors evidence in support of their respective claims under the twenty-fourth section of the Act of May 13, 1856 (West's Dig. p. 119, pl. 4), and the sixth section of Ordinance of Nov. 6, 1862 (West's Dig. p. 66, pl. 15), and for three days I have almost entirely been occupied in investigating the whole matter as far as possible.

I learn that from the bills of all these several contractors, with the single exception of Mr. Daniel McNicholl, certain deductions have been made by the Highway Department, with the approval of the Joint Committee on Highways, as a sort of compromise on account of the character of the work done. These contracts are all similar in terms and ostensible purpose, binding the chosen bidder to repair and keep in repair during the year 1882 the roads and streets awarded, and forbidding the first payment, due on the first day of July, unless the respective Wards have been thoroughly repaired, the work to be under the supervision of the Highway Department, and upon default to be by that Department completed according to the specifications, which are made a part of the contract in each case, at the cost and charge of such defaulting contractor. The specifications and contracts are of the most stringent sort, in every particular, and from the evi-

dence before me, they neither have, nor could have been carried out from the amount at which they had been awarded in any case, and several of the contractors swore that they had been informed by the Department that the work required in 1882, under these specifications would be like as in former years, "merely patching." The work done under each of the contracts before me was much better than had been seen in any of the Wards during any of many years, at least five, preceding, and in none of them was the work done of less value than the amount of the warrant in each case given, but in all the work fell far short of the contracts and specifications. The particular failure in every case appears to have been in not, in any, getting the Ward in thorough repair, so that the citizens using the streets and roads, could during the year have had some benefit for the outlay made, while the lateness of the repairing in most cases rendered the expenditure almost useless, as the frost and bad weather of the season prevented good work, or such as would last any wear or any time.

If the Commissioner of Highways or his assistants did approve of such work, and consent to the payment of the bills, their action would not bar the City from a defence against the claim under the contract, unless both parties had accepted the head of the Department as the final arbiter, which may be questioned under the terms of the contract, as matter of fact as well as law. Decency requires that the City should pay for all work done for her, but the law demands that the contracts by these several men made should be carried out, and every consideration of good policy exacts that all who deal with the public should be guided by the same rules of conduct as when dealing with private persons.

These contracts were made by the City, and the Councils of the City alone have the power to modify or alter them. Restricted in my action by their terms, I cannot, under all the evidence, approve any of these warrants without express authority and direction from the bodies, over one branch of which you preside, the fact that so much more work was done under these contracts in 1882, than in former years, under similar contracts, does not effect my judgment, especially as I see plainly from the testimony that such work was simply the result of the attention paid to the subject as a mere matter of business, by that body of citizens, who have for a short time

been occupied in persuading the public at large that the affairs of the City are the affairs of her citizens, and that each must be conducted on the same basis; we all owe them a debt of gratitude here as in many other places.

As for the reductions made in most of the bills, I question whether I have a right to recognize them at all in view of the provision of the second section of the ordinance 29th June, 1868, which says: "No claim . . . against the City shall in any way or manner be compromised by the City Solicitor or any other officer of the City, unless the same is reported to the said Committee on Law, and an ordinance be by them submitted to Councils and passed for the compromise and settlement of the same" (West's Dig., p. 72, pl. 19). All of these bills should be paid; but without the interposition of Councils, the warrants before me cannot be approved.

If there be time before the termination of the present Councils, upon a reference of the matter of the reductions or compromise to the Law Committee, an ordinance could be passed authorizing the payment of these bills. If not, I would take the liberty of suggesting the passage of a resolution by both Chambers, setting forth in a preamble the impossible demand of the contracts, and then authorizing and directing my own action in the premises. In any event, I think the claim of Mr. McNicholl, although no more meritorious than others, could be met by such a resolution.

Regretting the length of my communication, and much more the necessity of it, so unexpected amidst the vast accumulation of labor thrown upon me,

I am, with high consideration, yours truly,

S. DAVIS PAGE,
City Controller.

OFFICE PHILADELPHIA GAS WORKS.

Philadelphia, March 15, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—In compliance with the annexed resolution, I am directed by the Board of Trustees to submit to your honorable bodies the accompanying report in reference thereto.

Very respectfully,

WM. D. GARDNER,

President.

CLERKS' OFFICE, COMMON COUNCIL.

Philadelphia, February 2, 1883.

RESOLUTION

Of request to the Gas Trustees in reference to number and salaries
of employees.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Gas Trustees of the City of Philadelphia be requested to inquire into and report to Councils the number of employees, the position and salary of each man; also, how many of these employees can be dispensed with in order to conduct this department more economically.

(Signed)

RESOLUTION

To appoint a Joint Special Committee to investigate into the alleged abuse in the awarding of contracts for meat by the Managers of the House of Correction.

Resolved by the Select and Common Councils of the City of Philadelphia, That a Joint Special Committee of five members from each Chamber be appointed to investigate into the alleged abuse in the awarding of contracts for meat by the Managers of the House of Correction.

APPENDIX No. 296.

OFFICE OF CITY TREASURER.

Philadelphia, March 14, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—I submit herewith for your consideration and action, a demand of the Auditor General, made through me, for excess of State tax on personal property collected by the City from 1875 to and including the year 1882. I annex also the correspondence on the subject.

Very truly yours,

WM. B. IRVINE,

City Treasurer.

AUDITOR GENERAL'S DEPARTMENT,

Commonwealth of Pennsylvania.

HARRISBURG, *January 19, 1883.*

WM. B. IRVINE, Esq.,

City Treasurer, Philadelphia, Pa.

DEAR SIR:—My letter to Controller Pattison, referred to you, has evidently not been fully understood. What I wanted

was a statement of all State tax on personal property paid into the City Treasury by the City of Philadelphia from the year 1875 to and including the year 1882. The statement you furnished includes only the tax paid during the year it was levied. Please examine at your earliest convenience the following statement, and advise me if the same is correct.

Truly yours,

JOHN A. LEMON,

Auditor General.

OFFICE OF CITY TREASURER.

Philadelphia, January 25, 1883.

HON. JOHN A. LEMON,

Auditor General, Harrisburg, Pa.,

DEAR SIR:—In reply to your letter of the 19th inst., I desire to state that the figures originally sent to you, showing the receipts for State tax, were obtained from the records in the Controller's office. For the reason, that as the moneys received from this source are not a part of the revenue of the City of Philadelphia, they are not among the Ledger entries of our office, but from and after the time of each annual settlement, the receipts from State tax became the property of the City, and these items we have gathered together and combined with amounts received during each year mentioned in your letter, for prior years show the enclosed amount to be added to the total amount sent you in my previous letter on the subject.

Very truly yours,

WM. B. IRVINE,

City Treasurer.

AUDITOR GENERAL'S DEPARTMENT,

Commonwealth of Pennsylvania.

HARRISBURG, March 5, 1883.

WM. B. IRVINE, ESQ.,

City Treasurer, Philadelphia, Pa.

DEAR SIR:—I make demand on the City and County of Philadelphia, through you, for the excess of State tax on personal property collected from the year 1875, to and including the year 1882, as stated in your letter of January 25, 1883. I do this after consulting the Deputy Attorney General as to the right of the Commonwealth to claim the same. The amount fixed by the Board of Revenue Commissioners is a

minimum, and if a larger sum is collected it belongs to the Commonwealth.

This question was decided by the Court of Common Pleas of Dauphin County (Pearson, Judge), which is clothed with jurisdiction to hear and determine cases in which the Commonwealth is a party.

Truly yours,

JOHN A. LEMON,

Auditor General.

APPENDIX No. 297.

AN ORDINANCE

Directing the construction of bridges over the Connecting Railroad upon the lines of certain streets.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Chief Commissioner of Highways be and is hereby authorized and directed to advertise for proposals for constructing wrought iron bridges, with the necessary masonry and approaches, over the Connecting Railroad upon the lines of Sixth and Second streets, and also Kensington and Frankford avenues, and allot said work to the lowest bidder. Said bridges to be constructed upon

plans to be approved by the Board of Surveyors, both as to elevation and details.

SEC. 2. That the sum of fifty thousand (50,000) dollars be and the same is hereby appropriated to the Department of Highways, Bridges, and Sewers, specifically for the work herein designated and hereby authorized, out of the surplus revenue remaining in the City Treasury after the appropriations for the year 1882 shall have been paid.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—The Committee on Finance respectfully report that they have considered a communication from the Commissioners of the Sinking Fund in answer to a resolution of instruction in relation to settlement of North Pennsylvania Railroad stock, and for accordance with the recommendation of Sub-Committee, whose report is hereto appended, submit the annexed resolution and recommend its passage.

To the Committee on Finance.

GENTLEMEN:—The Sub-Committee, to whom the communication of the Commissioners of the Sinking Fund of Jan-

uary 6, 1883, relating to sales of the North Pennsylvania Railroad stock (Common Council Appendix No. 190) was referred, respectfully report that having carefully examined the contract in question, the correspondence and other data connected with the transaction, and having conferred with the City Solicitor, and it appearing that the opinion of the law officer of the City to the effect that the purchasers have a right to receive the stock upon payment of \$50 per share and accrued interest therefor, is positively adhered to by him; and it also appearing that Mr. John Welsh was practically an arbitrator to adjust the differences between the parties interested in said contract; and it further appearing that if a settlement be made upon the basis of a discharge of the obligations of the purchasers by their payment of a sum equal to the prices of any of the short six per cent. loans, not maturing after the year 1890 (it being admitted that even on the theory of an exchange, such short loans might meet the demands of the City), a less amount would be realized than can be produced by a payment for the shares of stock in issue upon the basis of the premium of sixteen and two-thirds upon the par value of the stock, the settlement advises by Mr. Welsh in his finding upon the matter, the Sub-Committee recommend that the said settlement be approved, and that the annexed resolution be favorably reported by the Committee on Finance to Councils.

JNO. W. PATTON, *Ch'n*, WM. HENRY LEX,

 GEORGE R. SNOWDEN for report.

—
 To the Chairman and Members
 of the Finance Committee.

GENTLEMEN:—For the purpose of bringing before you the conclusions of the Sub-Committee, I have signed the foregoing “for report” simply.

It would seem to me that the contract of February 8, 1875, was made for the purpose of exchanging the shares of the railroad company for the City stock, two shares of stock at par for one certificate of loan at par. After reading the contract

carefully no other construction seems consistent with the stipulations and conditions of the contract. I am compelled, therefore, to dissent from the report of the Sub-Committee.

Respectfully,

GEORGE R. SNOWDEN.

RESOLUTION

To approve of the settlement made by the Commissioners of the Sinking Fund of the shares of stock of the North Pennsylvania Railroad Company, purchased by Edward C. Knight, Esq., and others, and remaining unpaid for.

Resolved by the Select and Common Councils of the City of Philadelphia, That the settlement made by the Commissioners of the Sinking Fund with Edward C. Knight, Esq., and others, purchasers of the stock of the North Pennsylvania Railroad Company of the shares remaining unpaid for on the basis of sixteen and two-thirds per cent. premium on the par value of the stock be and the same is hereby approved.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—We, your Committee on Surveys and Regulations, to whom was referred the accompanying communication and ordinance, regulating Plumbing, House drainage, Registration and Licensing of Plumbers, beg leave to report, that they have held several meetings and visited New York and Brooklyn, where there is municipal control of these matters, they carefully examined their laws and those of several other cities, and for the purpose of a thorough knowledge

of our local requirements, invited the co-operation of a Committee of Twenty-one, composed of plumbers, architects, and physicians, who, after numerous meetings, reported to us a complete set of regulations. We think that public health demands a thorough supervision on the part of the City. We submit the annexed ordinance and regulations, and recommend the passage thereof.

CHAS. A. KAUFFMAN,	JOHN SIMMONS,
CHARLES LAWRENCE.	

AN ORDINANCE

To regulate the Plumbing, House drainage, Registration, and Licensing of plumbers in the City of Philadelphia.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That on or before the first day of July, 1883, every master or journeyman plumber, carrying on his trade in the City of Philadelphia, shall and must, under such rules and regulations as are herein prescribed, register his name and address, with and at the Survey Department of said City, and after the above date it shall not be lawful for any person to carry on the business of plumbing in said City, unless his name and address be registered as provided, and he or they shall have procured a license for the same.

SEC. 2. Each and every person or firm shall, before obtaining said license pay to the Survey Department the sum of twenty dollars, and upon the payment of said sum he shall receive from the above Department a license to carry on said business from the above date for the term of one year. Each and every license must be renewed on or before the first day of July, in each and every year.

SEC. 3. The Chief Engineer and Surveyor shall appoint eight inspectors, to be approved by Select Council, whose duty under

and subject to his direction shall be to examine all plumbing and house drainage work, and if the same be in accordance with the rules and regulations, herein contained, he shall give certificate of approval, a copy of which shall be filed in the Department.

SEC. 4. A list of the registered plumbers of the City of Philadelphia shall be published at least once in each year, the time and paper to be named by the Committee of Councils on Survey.

SEC. 5. The expenses of this branch of the Survey Department shall be paid from the fees received for licenses. All blanks, forms, plans, and specifications to be furnished by this Department, and no charge made therefor, and no expense to be entailed on any person other than the fee for the license, all fees for license to be paid into the City Treasury, and Councils shall make such appropriations as may be necessary for the carrying out of this ordinance.

SEC. 6. The salaries of the Inspectors shall not exceed one hundred (100) dollars per month, or more than the revenue received from license, and so much of said revenue is hereby appropriated as may be necessary for the payments herein provided for.

SEC. 7. Any person or persons violating any of the provisions of this ordinance, or of the rules and regulations contained therein, shall be deemed guilty of a misdemeanor, and shall be subject to a fine of twenty (20) dollars for the first offence, fifty (50) dollars for the second offence, and for subsequent offence, forfeit his or their license, said fines and penalties to be collected by due process of law, prescribed for the collection of like penalties.

RULES AND REGULATIONS.

I.—Registration and Licensing of Plumbers.

RULE 1. Every person engaged or about to engage in the plumbing business in the City of Philadelphia shall appear in person at the office of the Survey Department for examination as to his qualifications as a plumber, and if found competent

he shall be registered and receive a license ; and no person other than a licensed and registered plumber shall be allowed to carry on or engage in the plumbing business or make any connection with any sewer, drain, soil, or waste pipe, or any pipe connected therewith.

RULE 2. Each license must be renewed during January of each year, and it shall be the duty of every plumber to give immediate notice of any change in residence or place of business, for the correction of the Register.

RULE 3.—Any plumber violating the rules of this Department shall be liable to a fine of twenty (20) dollars for the first offence ; fifty (50) dollars for the second offence, and for any subsequent offence shall forfeit his license at the discretion of the Department ; and any other person so offending shall be liable to a fine of not less than twenty-five (25) dollars nor more than one hundred (100) dollars, to be collected upon the complaint of any citizen before a Magistrate.

II.—*Plans and Specifications.*

The plumbing and drainage of all buildings, public and private, shall be executed in accordance with plans and specifications previously approved in writing by the Survey Department ; and suitable drawings and descriptions of the said plumbing and drainage shall, in each case, be submitted and placed on file in the Survey Department, said drawings and descriptions to be furnished by the architect or builder where one is employed ; any application for a change in plan must be made in writing by the owner or his authorized agent.

Drawings and descriptions of the plumbing and drainage of buildings erected prior to the passage of the act may be placed on file in the Survey Department.

Blank specifications for plumbing and drainage will be furnished on application at this office.

As the law requires that the plumbing and drainage be executed according to a plan approved by the Survey Department, the work must not be covered or concealed in any way until after it has been examined by an inspector of the Survey Department ; and notice must be sent to the Survey De-

partment when the work is sufficiently advanced for such inspection.

When the plumbing or drainage of buildings erected prior to the passage of this ordinance has been inspected and condemned, plans must be filed and the new work or alterations shall be executed in accordance with the rules and regulations.

III.—*Quality of Material and Workmanship.*

All materials shall be of good quality and free from defects; and the work must be executed in a thorough and workmanlike manner.

IV.—*Inspection.*

All soil or waste pipes before being connected with fixtures shall have openings stopped and the peppermint test (or such other test as the Department may require) applied for inspection.

The drain, soil and waste pipes, and the traps, shall, if practicable, be exposed to view for ready inspection at all times, and for convenience in repairing. When placed within walls or partitions and not exposed to view, or covered with woodwork, fastened with screws, so as to be readily removed, or when not easily accessible, extra heavy pipes shall be used at the discretion of the Department. In no case shall they be absolutely inaccessible.

It is recommended that while building, recesses shall be left in the walls for all soil or waste pipes of 3 inches or over.

V.—*Material of House Drains.*

The main drain of every house or building shall be separately and independently connected with the street sewer, or with a main of sufficient capacity, at the discretion of the Department. All house drains or soil pipes laid beneath the cellar floor, shall be of proved tar-coated, cast-iron pipe, with well leaded and caulked joints; or of first quality hard-burned vitrified terra cotta pipe, with joints of the best cement (at the option of the owner together with the approval of the Depart-

ment). All other drain, soil, or waste pipe connected therewith, or where main drain pipe is above the cellar floor properly secured, shall be of tar-coated cast-iron pipe, carried 10 feet outside of house walls or 5 feet beyond vault, if any.

VI.—*Arrangement and Ventilation of House Drains.*

The house drain must have a fall of not less than one-eighth of an inch to the foot.

It shall run along the cellar wall, unless this is impracticable, in which case it shall be laid in a trench cut at a uniform grade.

The arrangement of soil and waste pipes shall be as direct as possible. All changes in direction shall be made with curved pipes, and all connections with soil or waste pipes shall be made with Y-branches and one-eighth bends.

It shall be provided with a running trap placed at an accessible point inside of cellar wall nearest to the sewer. The trap shall be furnished with a hand-hole for convenience in cleaning, the cover of which shall be properly fitted and the joints made tight with some proper cement.

There shall be an inlet for fresh air entering the drain just inside the trap, or at the rear end of system, of at least 4 inches in diameter, leading to the outer air and opening at any convenient place not too near a window.

VII.—*Construction of Vertical Soil and Waste Pipes.*

Every vertical soil pipe shall extend at least two feet above the highest part of the building or contiguous property, of undiminished size, properly hooded or capped. They shall not open near a window nor an air-shaft ventilating living rooms.

Where a separate line of waste pipes are used, not connected with sewer pipes or cesspool, they shall also be carried 2 feet above the highest part of the building or contiguous property.

There shall be no traps on vertical soil or waste pipes.

VIII.—*Quality and Weights of Soil Pipe.*

All drainage or ventilating iron pipes shall be sound, free

from holes, and of a uniform thickness of the following standard weights :

2 inches,	$31\frac{1}{2}$	pounds	per lineal foot.
3 “	$41\frac{1}{2}$	“	“
4 “	$61\frac{1}{2}$	“	“
5 “	8	“	“
6 “	10	“	“
7 “	13	“	“
8 “	16	“	“
10 “	25	“	“
12 “	$37\frac{1}{2}$	“	“
15 “	45	“	“

And for large buildings the use of what is known as Extra-Heavy Soil Pipe is recommended, which weighs as follows :

2 inches,	$51\frac{1}{2}$	pounds	per lineal foot.
3 “	$91\frac{1}{2}$	“	“
4 “	13	“	“
5 “	17	“	“
6 “	20	“	“
7 “	27	“	“
8 “	$33\frac{1}{2}$	“	“
10 “	45	“	“
12 “	54	“	“

Before they are connected they shall be thoroughly coated inside and outside with coal tar pitch, applied hot, or some other equivalent substance.

IX.—*Joints and Connections.*

All joints in the cast-iron drain, soil, and waste pipes shall be so caulked with oakum and lead, or with cement made of iron filings and sal-ammoniac, as to make them impermeable to gases.

All connections of lead with iron pipe shall be made with a brass sleeve or ferrule, put in the hub of the branch of the iron pipe and caulked in with lead, except in cases of iron water-closet traps or old work when drilling or tapping may

be necessary. The lead pipe shall be attached to the ferrule by a wiped joint.

All connections of lead pipe shall be by wiped joints.

X.—*Traps.*

Every water-closet, sink, basin, wash-tray, bath, and every tub or set of tubs, shall be separately and effectively trapped. The traps must be placed as near the fixtures as practicable. All waste pipes shall be provided with strong metallic strainers. All drains from hydrants shall be trapped below frost, and in a manner accessible for cleaning out.

XI.—*Air Pipes.*

Traps shall be protected from syphonage by a special air pipe, not less in diameter than the waste pipe; if it supply air to a water-closet trap, not less than two inches in diameter, the size to increase with the number of water-closets. All container water-closets must be supplied with fresh air, and be properly ventilated as approved by the Department.

Every vent pipe shall be of lead, of galvanized gas pipe, or of cast-iron pipe, tar coated.

These pipes shall either extend two feet above the highest part of the building of contiguous property, or they may be branched into a soil pipe above the inlet from the highest fixture. They may be combined by branching together those which serve several traps. These air pipes must always have a continuous slope, to avoid collecting water by condensation.

XII.—*Drip or Overflow Pipes.*

All drip or overflow pipes from safes under wash basins, baths, urinals, water-closets, or other fixtures, shall be by a special pipe run to some conspicuous point; and in no case shall any such pipe be connected with a soil, drain, or waste pipe.

No waste pipe from a refrigerator, or other receptacle in which provisions are stored, shall be connected with any drain, soil, or other waste pipe. Such waste pipes shall be so arranged as to admit of frequent flushing, and shall be as short as possible, and disconnected from the refrigerator.

The overflow pipes from tanks shall discharge into an open-trapped fixture, or into the bowel of the water-closet itself, not into the soil or waste pipe, nor into the drain or sewer.

XIII.—*Water-Closets.*

Every water-closet, or one line of water-closets on the same floor, shall be supplied with water from a special tank or cistern (the water of which is not used for any other purpose), except where the supply of water is assured. When the pressure in the water main is not sufficient to supply these tanks, a pump must be provided.

Water-closets must not be located in the sleeping apartments of any building, nor in any room or apartment which has not direct communication with the external air either by a window or an air shaft, having an area to the open air of at least four square feet.

XIV.—*Cisterns.*

Cisterns for drinking water are objectionable. If decided indispensable by the Department, they shall be constructed of iron or of wood. The overflow shall discharge into an open-trapped fixture, never into any soil or waste pipe, or water-closet trap, nor into the drain or sewer.

NOTE.—Water-tight brick cisterns built underground for drinking purposes are not included.

XV.—*Rain-Water Conductors.*

Rain-water conductors must never be connected outside of main trap, or used as soil, waste, or vent pipes; nor shall any soil, waste, or vent pipe be used as a conductor.

When connected with the house drain or sewer, the conductor shall be trapped beneath the ground with a deep seal, to avoid evaporation; and if placed within the house, shall be made of cast-iron, with leaded joints.

XVI.—*Steam Waste.*

No steam exhaust or waste from steam pipes shall be connected with any house drain or soil pipe.

XVII.—*Cesspools.*

No privy vault, or cesspool for sewage, will be permitted in any part of the City when a sewer is provided in front of the property lines, and no connection from any cesspool or privy well shall be made with any sewer or drain pipe.

XVIII.—*Cellar Drains.*

No opening will be allowed in the sewer pipe of any building for the purpose of receiving the surface drainage of the cellar, unless special permission is granted, and any opening so made must be immediately and permanently closed when directed by the Department.

APPENDIX No. 313.

Philadelphia, March 13, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—Your Committee on Surveys, to whom was referred the “Ordinance for the construction of a sewer along the Schuylkill river, from Manayunk to Fairmount dam,” have carefully considered the plans and profiles submitted by the Chief Engineer and Surveyor, and have gone over a great part of the line upon which it is located along or near to the east shore of the Schuylkill river, passing under the canal so as to reach the manufactories in front of Manayunk, which lie between the lock and Flat Rock dam, including a distance of about 8,000 feet, the total distance from Fairmount to Cedar street being 29,000 feet. The river, in ordinary stages, is 22 feet lower than the water in the canal and the drainage from a number of the factories is too low to be conveniently intercepted by the sewer. We approve of the elevation of the sewer at the starting point being made the highest that will permit of passing under the canal, in order that the sewage may be carried away by the natural flow by gravity to the most distant point attainable, believing that it will be more

economical to pump the small amount of sewage, which cannot be avoided at the source where the quantity is comparatively small. The drainage entering the river from cemeteries, the Falls of Schuylkill, and Manayunk is so deleterious that your Committee is impressed with the importance of having the work done as rapidly as possible, and recommend the passage of an ordinance authorizing the sewer being built, contracts be entered into, as far as the \$100,000 appropriation of June 21, 1882, will permit, and that the Finance Committee be instructed to provide in the tax rate for 1884, \$400,000 for the completion of the whole work as speedily as possible.

RODGER MAYNES,	JOS. L. JONES,
JAS. R. GATES, for rep't,	EDWARD MATTHEWS,
DALLAS SANDERS, for rep't,	CHAS. THOMSON JONES.

AN ORDINANCE

To authorize the construction of a main intercepting sewer, from Fairmount to Manayunk.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Chief Commissioner of Highways is hereby authorized and directed to enter into contracts from time to time as appropriations are made for that purpose, with competent mechanics for the construction in sections of a main sewer along or near the east bank of the Schuylkill river, from Fairmount to Manayunk, with such chambers, reservoirs, connections and branches for flushing as may be requisite.

SEC. 2. That it shall be the duty of the Chief Engineer and Surveyor to prepare plans and specifications for said sewer, and the contracts entered into for the construction thereof shall be in accordance with such plans and specifications. That

portion of said sewer, from Fairmount to Falls of Schuylkill, shall be four and a half feet in diameter and circular, with grade not less than two feet per mile, and from Falls of Schuylkill to Wissahickon creek four feet in diameter, with grade not less than two and a half feet per mile. The general elevation of said sewer to be at the maximum height, which will admit of it passing under the canal near Cedar street, Manayunk. From the locks at Cedar street to Leverington avenue, where no streets exist on the west side of the canal, the sewer shall be located contiguous to the towing-path, as far as practicable.

SEC. 3. That before entering into the said contracts the Chief Commissioner of Highways shall cause advertisements to be made for sealed proposals for the construction of the sections of said sewer; and no contracts therefor shall be binding on the City of Philadelphia until the same shall have been authorized by these Councils.

SEC. 4. That no proposal for the construction of the said sewer shall be considered by the said Chief Commissioner of Highways unless accompanied by an engagement in writing from two or more sufficient sureties guaranteeing the faithful execution of the contract in case such proposal be accepted.

SEC. 5. That payment may be made while the work of constructing the sewer is in progress, warrants may be drawn by the Chief Commissioner of Highways upon the City Treasurer, charged to Item 2, of appropriation June 21, 1882, out of surplus in the Treasury, and thereafter charged to the appropriations made therefor from time to time; said payments in all cases to be made, upon certificates of the Chief Engineer and Surveyor estimating the amount of work done: *Provided*, That no assessments shall be made against the properties on the line of said sewer, and that for all current estimates no payments shall exceed four-fifths of the money meritoriously earned under said contracts.

SEC. 6. Satisfactory evidence shall be furnished by the contractor to the Chief Commissioner of Highways that full payment has been made for all labor done and material furnished previously to drawing a warrant for the final estimate of any

work done by virtue of this ordinance; and the Chief Commissioner of Highways shall require full and entire payment by the contractors of all labor and materials on account of such work, and the said Commissioners shall give one month's notice in two daily newspapers of the time at which final payment will be made on each and every final estimate.

SEC. 7. The Chief Engineer and Surveyor shall appoint an Engineer in charge of the work, with a rodman and axeman, at a cost not exceeding two hundred and twenty-five (225) dollars per month, and an inspector on each section of sewer under contract at the compensation of one hundred (100) dollars per month, each; to be charged to appropriations made for the construction of said sewer.

SEC. 8. The Department of Surveys is hereby authorized to revise the grade of such portions of Main street, between Wissahickon creek and Cedar street, as may be necessary for the construction of said sewer.

SEC. 9. Upon the completion of the sewer or when any part thereof is ready for use, every property along the line or accessible to said sewer, from which impure, noxious or objectionable matter is discharged into the River Schuylkill, shall be immediately connected with the sewer, under the regulations of the Department of Surveys, so as to divert all such matter from the river into said sewer; and every person neglecting to make such connection or who permits any discharge into the river in violation of Section 1, of the Act of Assembly of February 7, 1832, shall pay such fines and penalties as are therein provided.

SEC. 10. It shall be the duty of the City Solicitor, and he is hereby authorized and directed to proceed to collect said fines and penalties within three months after notification by the Chief Engineer and Surveyor that such objectionable discharge exists.

APPENDIX No. 314.

Philadelphia, March 13, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys and Regulations, to whom was referred the accompanying ordinances and petitions for sewers, beg leave to report that these sewers have been duly approved by the Board of Surveys, and are necessary to the public health, convenience, and cleanliness. Their aggregate length will be 5,510 feet, the assessment upon the properties on the lines thereof will yield \$12,783, leaving to be paid by the City not exceeding \$5,000. We herewith submit an ordinance for their construction, and recommend its passage.

AN ORDINANCE

To authorize the construction of sewers on Sixth, Locust, Eadline, Thirty-fifth, Haverford, Brooklyn, Twenty-seventh, Fiftieth, and Rockland streets, and Lehigh avenue.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Highways be and is hereby authorized to construct the following sewers, viz.: On Sixth street, from the south curb line of Lehigh avenue, to the north line of Huntingdon street; on Locust street, from sewer in Thirteenth street, to west line of Broad street; on Eadline street, from Thirty-fourth to Thirty-fifth street; on Thirty-fifth street, from Silverton avenue to Haverford street, and on Haverford street, from Thirty-fourth to Thirty-sixth street; on Brooklyn street, from the sewer in Aspen street, to a point three hundred and eighteen (318) feet north of

the north line of said Aspen street; on Rockland street, from the sewer in Thirty-ninth street, to a point one hundred and five (105) feet west of Thirty-eighth street; on Lehigh avenue, from Hancock street to the proposed sewer at Mascher street; on Fiftieth street, between the north line of Haverford street and the south line of Oregon street, and on Twenty-seventh street, between Columbia avenue and Oxford street. Said sewers to be built of brick, oval in shape, and in accordance with specifications prepared by the Chief Engineer and Surveyor.

SEC. 2. The Chief Commissioner of Highways shall advertise according to law, announcing that bids will be received for the sewers above designated, and he shall allot them to the lowest bidders, and it shall be a condition of the contracts that the contractor shall keep the said sewers, and that portion of the street along which the said sewers shall be laid, in good order and repair for three years from and after the date of the completion of the said sewers, and shall accept the sums assessed upon and charged to the properties lying on the lines of said sewers in manner and form authorized by ordinance entitled "An Ordinance regulating the assessment upon property for the construction of branch culverts or drains," approved May 12, 1866, and supplement thereto approved February 16, 1869; any excess over and above said assessment, in addition to that provided for by ordinance entitled "An Ordinance authorizing the Chief Commissioner of Highways to draw warrants for street intersections, manholes, and legal deductions in the construction of branch sewers," approved April 3, 1868, to be charged to Item (for branch sewers) of annual appropriation made to the Department of Highways for the year 1883: *Provided*, Said excess does not exceed the sum of five thousand (5,000) dollars.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys and Regu-

lations, to whom was referred the accompanying ordinance to repeal an ordinance to place Ployd street upon the City plan, beg leave to report that, after further examination and hearing, they are of the opinion that the repealing ordinance, herewith, should be passed, which we respectfully recommend.

AN ORDINANCE

To repeal an ordinance to place Ployd street upon the City plan.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That whereas the provisions of an ordinance, approved December 31, 1880, and of a supplement thereto of the 16th day of June, 1881, have not been fulfilled, causing uncertainty as to the existence of the said street, and detriment to the adjoining properties, therefore, that the ordinance entitled "An Ordinance to place Ployd street, in the Twenty-second Ward, upon the plan of the City," approved December 31, 1880, with its supplements or amendments, be and the same is hereby repealed.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN :—The Committee on Gas Works respectfully report that they have considered a communication from the Board of Trustees of the Philadelphia Gas Works in reference to advertising for proposals for the gas coal tar of the several

works, accompanied with the opinion of the City Solicitor that the approval of City Councils should be obtained before a contract should be executed for a period of five years from July 1, 1883, and requesting the action of Councils in regard to it (see Appendix Select Council No. 151), and the Committee being of the opinion that a contract for such a length of time will be advantageous, submit the annexed resolution to authorize the same, and recommend its passage.

RESOLUTION

To authorize the Board of Trustees of Philadelphia Gas Works to contract for the sale of the gas coal tar of the several works.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Board of Trustees of the Philadelphia Gas Works be authorized to execute a contract or contracts for the sale of the gas coal tar made at the several works for a period of five (5) years from July 1, 1883.

DEPARTMENT OF LAW.

Philadelphia, January 9, 1883.

J. DALLAS HALL, ESQ.,

Chairman of the Committee on Fire Department.

MY DEAR SIR:—I have examined the ordinance relating to the Fire Commissioners which you recently sent me.

I would add to it the words "so as to threaten injury to passers by."

The ordinance, if passed, will be lawful; it is clearly within the police powers of the City.

Walls such as are described in the ordinance are simply public nuisances, and ought to be removed.

I doubt if there could be any recovery against the City for the removal of such walls, where the Fire Commissioners exercised their powers in good faith.

Yours, very truly,

WM. NELSON WEST,

City Solicitor.

AN ORDINANCE

Giving and granting unto the Fire Commissioners of the City of Philadelphia full power and authority to tear down and remove any wall or walls after a fire has occurred in the building or buildings, when, in their judgment, they deem the wall or walls to be in a dangerous condition, so as to threaten injury to passers by.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That on and after the passage of this ordinance the Fire Commissioners of the said City be and they are hereby authorized and empowered, without first consulting the owner or owners, Board of Underwriters, or any other person or persons, to tear down and remove any wall or walls after a fire has occurred in any building or buildings, when, in their judgment they deem the wall or walls to be in a dangerous and unsafe condition, so as to threaten injury to passers by.

A FURTHER SUPPLEMENT

To an ordinance entitled "An Ordinance to create and organize a Paid Fire Department for the City of Philadelphia," approved December 29, A. D. 1870.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Fire Department of the City of Philadelphia be increased by the addition of one engine company, to be stationed in the vicinity of Third street and Lehigh avenue, Twenty-fifth Ward. The said additional company shall be organized in like manner as provided in the ordinance to which this is a supplement, and to be located by the Fire Commissioners under the supervision of the Committee on Fire Department.

APPENDIX No. 326.

Philadelphia, March 8, 1883.

To the Common Council
of the City of Philadelphia.

GENTLEMEN:—Your Committee on Police and Fire Alarm Telegraph of Common Council respectfully report that they have considered bill No. 111, from Select Council entitled "An Ordinance to regulate the introduction and use of underground conduits, wires, and cables for electrical conductors in the streets of the City of Philadelphia, and to provide for charges for underground, overground, or overhead wires, and to repeal an ordinance entitled "An Ordinance to regulate the introduction and use of underground conduits, electrical cables, and wires for electrical conductors in the streets of the City of Philadelphia and to provide for charges for overground wires," approved June 21, 1882, which had been referred to them, and report the same back and recommend that Common Council concur with the following amendments.

Amend the second section by adding the following after the word "time," on the ninth line, "and that no section of five hundred (500) feet shall be kept open for a longer period than five days."

Amend the third section by adding the following after the word "telegraph," on the eleventh line, "the Chief Engineer and Surveyor and," and by adding the following after the word "Highways," on the twelfth line, "thereupon the Chief Commissioner of Highways."

Amend the fifth section by striking out the following words on the second line, "wires or conductors in any of the," on the third line the words "or cables," and on the sixth and seventh lines the words "electrical conductors, cables, or wires," and inserting after the word "tubes," on the third line the word "or," and by inserting after the word "tubes," on the sixth line the word "and;" also by inserting after the word "with," on the eighth line the words "space for."

Amend the sixth section by striking out the words "second Monday of March," and inserting the words "first Monday of April;" also by striking out the words and figures "ten (10)," and inserting the words and figures "fifty (50)," on the sixteenth line.

Amend the seventh section by striking out the words "third Monday of March," and inserting the words "first Monday of May;" also by striking out the words "the penalty," and inserting the words "all penalties," and by striking out the words "to be," and inserting the words "for in this ordinance shall be," on the twenty-first line.

Amend the eighth section by striking out the following, "over six (6) inches and."

Amend the ninth section by striking out the words and figures "ten thousand (10,000) dollars," and inserting the words and figures "twenty thousand (20,000) dollars," and by inserting after the word "security," on the fourth line, the following, "in real estate, or Government, State, or City bonds."

APPENDIX No. 327.

REPORT OF CHARLES M. CRESSON, M.D., UPON THE CHARACTER OF THE WATER SUPPLIED BY THE SCHUYLKILL RIVER.

[No. 2585.]

417 WALNUT STREET,

Philadelphia, January 5, 1877.

To the Commissioners of Fairmount Park.

GENTLEMEN :—In compliance with your resolution I have kept in view the objects referred to, and from observation and experiment have arrived at the following conclusion :

That the water supplied by the River Schuylkill is naturally superior to any to be had from any source of easy access.

That the quantity is ample for all of the wants of this City for a century to come—provided that arrangement shall be made to substitute steam power for a part of the water power pumps during a portion of the summer months.

That it is necessary for the present to exclude from that part of the river below Flat Rock dam, all sewage from water-closets, cesspools, slaughter-houses, and all animal refuse now so freely allowed to flow into it.

It is not necessary for the present to exclude the sewage from the paper-mills and such factories as send in only chlorine, chloride of lime (solution of hypochlorates), vegetable washings or sulphuric acid. (The drainage of dye stuffs and such materials as are of a disgusting appearance or odor, whether hurtful or not, are now forbidden by Acts of Assembly, so that there is no necessity for present discussion or determination of their wholesomeness.)

After mature consideration I have concluded that the cheapest and most efficient method of disposing of noxious matters, without disturbing the manufacturing interests, will be to extend the canal of the Schuylkill Navigation from the locks at Fairmount, up stream to the Flat Rock dam ; and at a point above the mouth of the Wissahickon creek, about the location of the Gas Works, to erect a dam across the river.

The canal can be readily separated from the river by a low bank, at a suitable distance from the western bank, so that except during freshets the canal water shall be definitely separated from that flowing at the same level in the river.

The proposed dam should carry within it a sewer which shall cross the river, and be continued up along the eastern side in the river, and collect the sewage from all of the mills located upon that bank.

Factories located upon the eastern bank can be compelled to run small pipes across the bed of the river, which pipes shall convey (as inverted siphons) their sewage into the canal.

In the course of years, when the sewage of Norristown shall become so great that it is no longer fully neutralized or oxidized during its flow down the river course, the canal can be extended so as to receive it and convey it into the sewer crossing the river below the Flat Rock dam.

The results of my observations show that for the present all sewage that flows into the river above Flat Rock dam is rendered harmless before it reaches the inlet of the City Water Works, and that the water which is now had in this way is generally superior to that to be obtained from points higher up the river, both in quality and quantity.

That there are no advantages to be had by relying upon distant locations, such as the Perkiomen, or the Delaware at the Water Gap, that will in any way make them comparable as sources of water supply; but that the balance of healthfulness, quantity and economy are greatly in favor of adherence to the Schuylkill river.

So far as the Delaware is concerned, it is totally unfitted as a source of supply at any point this side of the city of Trenton, and all expenditures for the purpose of obtaining from it wholesome water must in a few years be sunk, in view of the deleterious effects that would be produced upon the health of the residents of such sections of the City as may be supplied from it. The experience obtained during the Centennial Exhibition confirms me in this opinion.

The present remedy then is:

First. To provide an open sewer which shall serve to carry off sewage and also for transportation of canal boats, and likewise the City against damage to the Schuylkill Navigation

Company when they desire to draw down the water in the Fairmount dam below the present legal level.

Second. To prevent the sending of sewage from cesspools and slaughter-houses, and animal matter from factories, into the pool of the Fairmount dam.

Third. To take the surface water from the Flat Rock dam for the supply to the lower pool for City use, excluding, and using for the purposes of the Schuylkill Navigation, the deeper flow from the Flat Rock dam and the sewage from the factories now draining into the river.

Respectfully,

CHARLES M. CRESSON, M. D.

[No. 3789.]

417 WALNUT STREET,

Philadelphia, November 12, 1881.

To the Commissioners of Fairmount Park.

GENTLEMEN:—In accordance with your resolution of January 10, 1874, I again make report of the condition of the Schuylkill water with suggestions.

The past summer has been one in which an unprecedented scarcity of water has occurred over an enormous extent of territory in the United States, and the recent rains have not as yet, in this locality, filled up the creeks and rivers to their normal capacity.

The small amount of water flowing out of the Delaware river has not been sufficient to keep back the sea, and the flowing tides have gradually advanced the line of salt water, until not only has the supply to the city of Chester been brackish, but the water supplied to this City from the Delaware river has mixed with it an appreciable amount of sea water and certain sorts of sewage from the City have been carried up the river beyond Bristol and Burlington.

The Chester water supply within a month contained one gallon of sea water in each forty gallons ($2\frac{1}{2}$ per cent.), and the City supply from the Delaware river, one gallon of sea water in each 473 gallons (0.21 per cent.).

The largest of these amounts made the water brackish to the taste, and damaged it for household use and for manufacturing purposes, whilst the smaller percentage, in conjunction with the sewage, affected its healthfulness.

Fortunately the supply derived from the Schuylkill river could not be reached by ascending tidal currents.

The occasional turbidity and disagreeable taste observed in Schuylkill water, following heavy rains, can be prevented in the supply to the City by the use of settling reservoirs.

There is now an insufficient amount of storage room, and enough should be supplied to allow the water to remain quietly for several weeks, if necessary.

When the great East Park Reservoir shall be completed, we may expect to have a clear and tasteless water supply at all times, in addition to the advantages of a large stock on hand to carry through the summer droughts.

The water supply of all cities is liable to be filled with a growth of vegetable matter which imparts an unpleasant taste. This is sometimes the result of quiet storage in reservoirs of water containing organic matter.

The city of Boston has been troubled to a greater extent than any other large city on this continent.

In our Kensington Reservoirs, which are supplied with water from the Delaware river, containing a large amount of animal impurities, a growth of vegetable matter covered the surface of the water upon several occasions, and was only got rid of by emptying the reservoir.

Schuylkill water is equal in quality to that supplied to any large city in this country, and the protection afforded by the Fairmount Park, by excluding factories and dwellings from the banks of the pool of the dam, serve to maintain its excellence.

Under the direction of the Park Commission, analyses are frequently made of the water flowing into the various forebays to the several water works, as well as of the drainage from the mills above the pool.

In this way the influx of many impurities has been stopped, and serious trouble averted.

The following table shows the result of the last full analysis of the water pumped at the Fairmount Water Works, and of the organic matter at several dates.

Analysis of Water from Fairmount Forcbay, February 21, 1881.

	Grains in 1 U. S. Gall.
Total solid matter in solution.....	5.470
Silica	0.425
Alumina.....	0.094
Oxide of iron	0.061
Lime	1.630
Magnesia.....	0.088
Sulphuric acid (combined)	1.460
Chlorine (combined).....	0.150
Carbonic acid, not determined.	
Residue: Soda and potash—chiefly soda.	

The organic matter yielded the following results, expressed in parts in 100,000:

	July 30.	Aug. 29.	Sept. 29.	Oct. 19.
Free ammonia.....	0.029	None.	0.021	0.015
Albumenoid ammonia.....	0.008	0.015	0.015	0.015

The samples were taken at the periods when the low stage of water prevented the passage of a current through the pool of the dam, and were intended to determine the worst condition of the supply.

The impurities were chiefly of vegetable origin, and the condition of the water did not at any time reach the limit of wholesomeness.

In future years, as the population and mechanical industries upon the river above increase, provision must be made for the conveyance of drainage and sewage from the upper part of pool to below Fairmount dam.

The shallow river, with its numerous dams and obstructions, now sufficiently promotes the curative action of light and air, and by the aid of animal and vegetable life, the water is deprived of the hurtful elements which are poured into it by each successive city and town upon its banks.

The limit of the combined effects of these purifying agents has about been reached, and unless measures are soon taken to prevent it, the quality of our water supply from that river will deteriorate.

Schuylkill water, properly protected from pollution, is better suited for city use than that of any of the sufficient neighboring rivers or streams.

Respectfully,

CHARLES M. CRESSON, M.D.

[No. 3983.]

417 WALNUT STREET.

Philadelphia, January 15, 1883.

To the Commissioners of Fairmount Park.

GENTLEMEN :—The results of the analyses of the samples of water taken from the forebay at Fairmount Works on January 9, 1883, show that the water pumped on that day was unwholesome. Comparison with results obtained in former years, under the same conditions of the river and weather, make it evident that the contents of the pool of the Fairmount dam, during the period of low water and ice-covering, are unfit for distribution for household purposes.

Other conditions being similar, the amount of albumenoid ammonia obtainable from waters may be assumed to express their comparative contamination or unwholesomeness.

Analyses made of the water in the pool in the periods of apparently worst condition in 1881 and 1882, and the analysis just made in 1883, give the following amounts of albumenoid ammonia in each 1,000,000 parts of water :

1881.....	0.373 parts.
1882.....	0.361 parts.
1883.....	0.524 parts.

as compared with 0.106 and 0.093 parts as the best results obtained during 1881 and 1882.

As 0.15 to 0.2 parts of albumenoid ammonia in 1,000,000 parts of water represents (in water containing free ammonio) the greatest amount allowable for a wholesome water, it is apparent that during each of the years named the water supply of this City has been in very bad condition, and that the depreciation at the present time is much greater than during the years 1881 and 1882.

The presence of hurtful ingredients does not necessarily give to the water an unpleasant taste or odor ; in fact, the most dangerous waters have often the clearest, most brilliant, and sparkling appearance.

Two conditions are necessary for the sudden production of the large amount of offensive vegetable growth that now appears in our river water.

First, the presence of animal matter, such as is derived from cesspool drainage, animal refuse from manufactories, and offal from slaughter-houses.

Second, the absence of strong currents, and a condition of quietude in the body of water in which the growth occurs.

The influx of animal matter into the Fairmount dam is going on at all times and all seasons, and when the flow of water is so diminished that there is no overflow on the dams, the pools then become stagnant bodies of water, in which the percentage of hurtful ingredients constantly increases.

The cessation of navigation in the canal renders the current sluggish and the surface undisturbed, and "drawing off" the dams sends down a large amount of decaying organic matter, which, when the river is covered with ice, adds materially to the trouble.

The best condition of the water as to freedom from organic impurity is just after a freshet, by which the river bed has been thoroughly scoured out; a remedy that is usually followed by the distribution of muddy water for a considerable time.

The circumstance of an unpleasant taste in the water is not of recent occurrence, but is referred to in a "Report of a Special Committee of the Commissioners of Fairmount Park upon the Preservation of the Purity of the Water Supply," presented to and approved by your Commission on October 11, 1867. It is there noticed that the water supplied to New York, Boston, Albany, Brooklyn, and New Haven had been similarly affected.

The same report also treats of the remedies to be applied, and recommends the laying down of sewers upon the banks of the river to carry off the foul drainages below Flat Rock dam, and also suggests the building of large distributing basins, and of storage dams or lakes, by means of which the surplus flow of the river can be arrested and kept for gradual use. Had these recommendations of your Commission been promptly acted upon the present troubles would have been long postponed.

The various odors given out by the drainages of oil and gas works are far from pleasant; they are, however, not unwholesome or injurious, and at the present time may be of

some service, as they contain substances calculated to prevent the decay which feeds the offensive vegetable growths.

When the ingress of animal matter is prevented, all drainages from gas and oil works should also be stopped.

The root of the present trouble is in the drainages containing animal matter. These sources of pollution should be promptly stopped, and in this way a *wholesome* water will soonest be obtained; and I understand wholesomeness to be the end first to be secured in a water supply for domestic use.

I cannot suggest any more practical or prompt remedy than the immediate exclusion of cesspool and slaughter-house drainages, and animal refuse from factories. The minor matters of materials sent in by the gas and oil works and paper factories, can be disposed of more leisurely, as their exclusion is not so essential as is that of the others named.

A source of pollution of our water supply in the mains, not chargeable, but occasionally charged, to the water of the river, comes from the introduction of various animal, vegetable, and mineral matters from boilers and digesters with which the mains are directly connected by the service pipes. This pollution is not purposely or knowingly caused, but is the result of an improper connection directly with the mains.

Failure to secure legal intervention to prevent the introduction of hurtful matters into the pool of Fairmount dam will soon prevent its use as a source of supply.

The Delaware river has been so fouled by the sewage sent into it, that the water is now in far worse condition than that in the Schuylkill river, and this condition exists for many miles above the City.

The level of the Delaware river at Easton is but 160 feet above tide, and as at least 60 feet of this elevation will be required as a head to give the necessary flow through an aqueduct, but 100 feet of elevation will remain.

As an elevation of 170 feet is necessary to control all of the reservoirs east of the river, not supplied by Roxborough, it is evident that steam power will be a necessary adjunct to such a scheme.

It would seem, therefore, that if the purity of the water in the Schuylkill river cannot be secured and preserved, that recourse must be had to the Perkiomen creek, and

perhaps to *artesian wells* in addition, such as are used for a supplemental water supply in London and Paris, and other European cities.

An example of factory sewage which carries animal matter is found in the drainage from Dobsons' carpet mills, above the P. and R. R. bridge on the Richmond branch. The water of the creek flowing above the entrance of the drain from Dobsons' mills, contains more albumenoid ammonia than should be found in good drinking water, but the water flowing in the creek just below the drain contains ten times as much albumenoid ammonia as does that above. Upon the 9th inst., when the samples just examined were taken from this creek, these mills were contributing 234 pounds of animal sewage to 1,000,000 gallons of water flowing in the creek.

The drainage from this source, then, contributes materially to the damage of the water in the Fairmount pool.

Respectfully,

CHARLES M. CRESSON, M.D.

417 WALNUT STREET,

Philadelphia, January 30, 1883.

To the Commissioners of Fairmount Park.

GENTLEMEN:—I present herewith the results of the special annual examination of water from the Fairmount forebay,

made under your resolution of January 10, 1874, and also partial analyses of water from the inlets to the Spring Garden and Belmont Water Works, as well as from the creek emptying into the pool at Fairmount dam above the Falls bridge, referred to in my report of 15th inst. From some cause that remains to be discovered, the water in the Fairmount forebay is in much worse condition than that of the inlets to the other water works, but there is reason to believe that sewage is directly entering that basin from an abandoned sewer, or from a drain leading from a sewer which is carrying decaying animal matter.

Should it fortunately happen that legal intervention can be had to prevent sewage from entering the river, or that means be provided for carrying, separate and apart from the water of the pool of Fairmount dam, the drainage from the mills and dwellings at the Falls of Schuylkill and Manayunk to a point below the dam, then attention should be directed to providing means for the *interception and conveyance of the sewage from Norristown*, so as to improve and preserve the quality of the water in the Flat Rock dam, from which the supply to the Fairmount pool is chiefly derived.

Respectfully,

CHARLES M. CRESSON, M. D.

RESOLUTION

To instruct the City Solicitor to take such legal steps as he may deem proper to restrain the Philadelphia and Gray's Ferry Passenger Railway Company from occupying the roadway of Twenty-second street.

Resolved by the Select and Common Councils of the City of Philadelphia, That the City Solicitor be directed to take such legal measures as he may deem proper to restrain the Philadelphia and Gray's Ferry Passenger Railway Company, or any other passenger railway, from laying any tracks on Twenty-second street, and from tearing up the pavement for the purpose of laying the same. No consent of Councils having been given to do the same.

MAYOR'S OFFICE.

Philadelphia, March 22, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN ;—I desire to call your attention to the construction of the main sewer from Fairmount dam to Manayunk, an improvement which has for its object the preservation of the purity of the water of the Schuylkill river. So important a subject should command the immediate attention of Councils, and the amount of appropriation necessary to complete the work should be promptly made.

It appears to me that if this work was started at an early day it could be finished within a year, and thus have a drain for the objectionable matter which now empties into the Schuylkill river from the manufactories in the northwest section of our City.

I am respectfully,

SAMUEL G. KING,

Mayor.

THOMAS WALTERS, Esq.,

Member of Common Council.

MY DEAR SIR:—Fearing that I may not have made myself sufficiently clear to you this morning, let me now say, as plainly and positively as I possibly can, that I will neither draw nor countersign a warrant for my own salary as Controller for a longer period than from the day I qualified and took possession of the office under the commission of the Governor, that is, from the 9th day of February last past; notwithstanding all the work thrown upon me by a difference of opinion among the lawyers.

Yours truly,

S. DAVIS PAGE.

REPORT OF THE SUB-COMMITTEE ON INVESTIGATION AP- POINTED BY THE COMMITTEE ON HIGHWAYS OF COUNCILS.

TO USELMA C. SMITH, ESQ., AND OTHERS.

Members of a Committee on the part of Councils to investigate certain allegations of mismanagement in the Highway Department.

GENTLEMEN:—In response to your letter of the 25th of September, addressed to the Chairman of the Committee of One Hundred, desiring us to meet you for the purpose of preferring any charges we may have to make, the Sub-Committee on Municipal Abuses is instructed by the Executive Committee to submit for your consideration a summary of the facts upon which this Committee based the report which has led to your request.

During the spring of 1881, this Committee was advised that the contractors for repairing the streets of this City were doing very little work. This information came from so many sources, and was of such a reliable character, that we decided to look into the matter. A thorough inspection revealed the fact that the District north of Market and west of and including Sixth street, and other Districts, were in a deplorable condition, and there was a general complaint of citizens to that effect. Messrs. H. W. Pitkin, Theo. Justice, and J. T. Audenried, members of this Committee, together with Mr. Addis, our Inspector, visited the District above spoken of, and other parts of the City, drove over the streets, and, on a personal inspection, found that miles of the streets were in a bad condition, and some of them almost impassable. A report of this investigation was published in the newspapers at the time.

The Committee reported this state of affairs to Mr. Baldwin, the Chief Commissioner of Highways, and after this there was, for a time, more work done. The Committee was not prepared at this time to undertake such a task as the inspection of the streets of the whole City, and, therefore, confined its investigation mainly to the Northeast District, viz., north of Market and East of Sixth street, for which District William Marks was the contractor for repairs. The contracts for repairing paved streets in 1881 bind the contractors "*to keep in good order and repair, during the year 1881, all the paved streets, etc.*"

The contract for the Northeast District was awarded to William Marks, for \$8,000; Mr. P. A. B. Widener was security for the contractor, and it may be well to mention here, that Mr. Widener was also on the bond of Mr. Baldwin, Chief Commissioner.

Under the contract entered into between the Chief Commissioner and the contractors, the latter were entitled to draw one-half the amount of their contract on July 1st, if the streets were *kept* in good order and repair.

On July 1st the streets of the said District were, many of them, in very bad condition; what work had been done was, much of it, of very poor character, consisting of deficient patching, filling up a hole here and there, and leaving whole blocks untouched that badly needed thorough repairing. The gravel used was of a poor quality.

Mr. Marks' bill, dated July 5, 1881, for \$4,000, being one-half the amount of his contract, was presented for payment and was approved as follows: "The above work has been done in accordance with the contract and specifications." Signed, "Approved, Thos. Gilligan, Assistant Commissioner Second District; Joshua Nuttall, Assistant Commissioner Fourth District; John Martin, Assistant Commissioner Fifth District.

The City Controller, however, having been previously notified of the failure of the contractor to fulfill his contract, refused to countersign his warrant, unless the Assistant Commissioners would make affidavit that he was entitled to payment under the contract. Thereupon, on the 25th of July, Messrs. Gilligan, Nuttall, and Martin subscribed to an affidavit that, "Wm. Marks, contractor for said District for repairs to paved streets, has performed an amount of work in said District sufficient to warrant the payment of the amount due him on the first day of July, 1881. During the course of these proceedings, Mr. Baldwin called upon the Controller, and, as we are informed, personally urged him to countersign the warrant, although he knew the work was not properly done. Upon being informed by the Controller that a protest had been made against the signing of said warrant, Mr. Baldwin called on a member of this Committee and urged the withdrawal of his objections to the payment of this bill; notwithstanding that he did then, in the presence of witnesses, acknowledge that the streets were in bad condition as claimed. The Committee urged Mr. Baldwin to sue out the bond of contractor Marks, which he declined to do. When we remember that Mr. P. A. B. Widener, was bondsman for both Chief Commissioner and the contractor, this reluctance is not difficult to understand. The warrant being still unpaid, Mr. Baldwin wrote to the Controller, July 28, 1881, "I have made a careful estimate of the work that has been done in Marks' District, and find that he has done about forty-one thousand square yards of repairing. The actual cost of said repairing, in my judgment, would exceed \$6,000. As Mr. Marks is only asking for \$4,000, I think you should not hesitate to approve a warrant for that amount."

Our Committee assert that the payment of \$8,000 to Wm. Marks for work never performed was a serious imposition

upon the City, for which Wm. Baldwin, Chief Commissioner of Highways, made himself responsible by approving the bills.

With the experience gained in the course of their investigation during the year 1881, the Committee, in the spring of 1882, determined to go into a more thorough investigation of the subject. They accordingly engaged Mr. T. B. M. Addis to devote his whole time to following up the various contractors; to keep accurate account of the character of the work performed; to obtain copies of the contracts and specifications under which they were acting; to compare the work done, and material furnished, with the work and material required to be furnished under their contracts; and to make duplicate reports of the results of his investigations to the Controller and to the Committee. He was also instructed to take the affidavits, or certificates of reliable citizens, who might be cognizant of the facts he reported on, so that his reports should be properly sustained by reliable evidence other than his own. The Controller was duly informed of this action of the Committee, and was asked to recognize Mr. Addis as the Inspector of this Committee, and to withhold his signature from contractors' warrants when there were reasonable grounds for a belief, supported by testimony, that the contractors had failed to perform their duty.

For the purpose of considering systematically the allegations contained in the report of this Committee to the Committee of One Hundred, we have made paragraphs of the several specifications, numbered them, and proceed to take them up in their order.

1. "The contract for laying crossing stones for this year was awarded to Daniel McNichol. The sizes are specified in the contract, and the quality required is that known as Belgian Bridge. Our Inspector measured a large number of crossings, many of which do not come up to the contract for measurement, and are not of the quality known as Belgian Bridge."

The specifications which form a part of the contract for furnishing and laying crossing stones for 1882 call for three sizes, viz., twenty-four-inch, twenty-inch, and sixteen-inch, all of which are to be five inches in depth or thickness; and the sixteen-inch to be of a quality known as "Belgian Bridge."

The evidence before us is to the effect that many of the stones laid were of poor quality, rough on surface and poorly laid, that they measured in depth or thickness from only two inches up to five inches, a large number, especially of the sixteen-inch stone, being under five inches in thickness, and very little if any of it of the quality known as Belgian Bridge.

Our Inspector reported these facts to the Controller at different times between the middle of May and July 10th, and these reports were forwarded to Mr. Baldwin, by whom bills for this work had already been approved. Nothing has been heard from Mr. Baldwin in regard to the matter so far as we can learn, either by the Controller or by the Committee on Highways, and, up to this time, those portions of the bills for work thus condemned have not been paid.

Early in September, 1882, it was found that bills had gone into the Controller's office for crossing stones on the following streets, amongst others: York avenue and Buttonwood street, York avenue and Noble street, Lawrence and Brown streets, Mintzer and Brown streets, Park avenue and Montgomery avenue, Broad and Huntingdon streets, Twentieth and Berks streets, Lawrence street and Girard avenue, and Mervine and Diamond streets.

Upon an examination it was found that the above-named crossings were not laid according to the requirements of the contract, and so reported to the Controller, who, on the 16th, returned the bills to Mr. Baldwin, at the same time informing him of the protest made against their payment.

On September 19th, Mr. Baldwin wrote to the Controller as follows: "In company with the Assistant Commissioner I have made a personal examination of the crossing stones charged for in bills returned by you on the 16th inst., without your approval, and find most of the complaints made by T. B. M. Addis thereto to be not well founded. The crossing stones at the following places I found all right and well laid, viz.: York avenue and Buttonwood street, York avenue and Noble street, Lawrence and Brown streets, Mintzer and Brown streets, Park and Montgomery avenues, Broad and Huntingdon streets, and Twentieth and Berks streets. At Lawrence street and Girard avenue there are three or four, and at Mervine and Diamond streets two or three stones which need relaying to make a perfect job, and which will all be done to-day."

You will observe that Mr. Addis made no examination of crossing stone work until after the bills had gone into the Controller's office duly approved by the Chief Commissioner and by the Assistant Commissioners; and in the case above mentioned, note the following points:

That Mr. Baldwin acknowledges that in the case of two of the bills, viz., for Mervine and Diamond streets and Lawrence street and Girard avenue, the work was not what it should be, although he had previously approved these bills; that he found the crossing stones "‘all right and well laid’ at York and Buttonwood; York avenue and Noble; Lawrence and Brown; Mintzer and Brown; Park avenue and Montgomery; Broad and Huntingdon; and Twentieth and Berks."

Mr. Baldwin could very plausibly make this assertion on the 19th inst., in view of the fact that *he or his contractors had caused four out of the above seven crossings to be taken up and relaid between the 16th and 19th of the month.* All of which was apparently to discredit our agent, but which proves that his protest was well grounded.

2. "We find old stones have been laid, and the City charged for new. Bills have been presented for new crossing stones where not a single new stone has been furnished."

Our Inspector reported on the 24th of May that at Twenty-fourth, Twenty-fifth, Twenty-sixth, and Twenty-seventh streets and Huntingdon street, he found nothing but old crossing stones laid on sixteen crossings at the above-named points, whereas new ones are charged for.

We now draw your attention to the following copy of a bill presented at the Controller's office, and approved by the Chief Commissioner, for the above-named work :

(Signed) MICHAEL B. ANDRESS,

WM. H. MANEELY,
Commissioner Third District.

Approved, WM. BALDWIN,
Chief Commissioner of Highways.

We assert, and are prepared to prove, that no new stones were laid at the above-named street crossings at the time this bill was approved; that in presenting the above bill for payment an apparent attempt was made to defraud the City out of the difference between eight hundred and thirty-five feet of stone at forty-six cents and the same quantity at five cents, the price of relaying, viz., \$342.64. For all of which Mr. William Baldwin made himself responsible by approving the bill.

3 "It is the practice of the Chief Commissioner of Highways to allow the contractors to appropriate the old crossing and paving stones taken up, a large sum accruing to contractors independent of their contracts, especially as they may use them in other places and charge the City for new ones."

This is not denied. We understand that it is claimed by the Highway Department that, taking into consideration the cost of handling and hauling the stones, the City would make nothing by selling them, but the fallacy of such a claim must be apparent to all.

4. "In all cases bills, when presented, have been approved by the Chief Commissioner, by the Assistant Commissioner of the District, and by the Public Measurer selected by Chief Baldwin."

The proof of this is a matter of record.

5. "We find cases where crossing stones have been laid by the City on the streets occupied by street railway companies, whose duty it is to supply them. These have been charged

to the City with the approval of Mr. Baldwin, but the bills have proceeded no farther than the Department of the Controller."

Our Inspector has furnished us with a list of fifty-six points at which crossings have been laid and the bills therefor sent into the Controller's office for payment; in all these cases the street railway companies are occupying said streets. The bills for this work, which were presented for payment with Mr. Baldwin's approval, amounted to \$4,411.49. Our assertion that it is the duty of the passenger railway companies to do this work, and not the duty of the City, is based upon the written opinion of the City Solicitor.

BRIDGES.

6. "Where the specifications call for new stringers in bridges, old stringers have been used; and where an entire new deck is required, old plank have been turned bottom upwards and substituted for new; and where the specifications call for three-inch white oak plank, two-inch hemlock have been used; and bills for these have been approved by Chief Baldwin."

Some time this spring a bill against the City, dated March 27, 1882, for repairs to bridge on Richmond street, over Gunner's Run, "as per bid," amounting to \$445.00,

(Signed) "Approved, JOSHUA NUTTALL,"

(Signed) "Approved, WILLIAM BALDWIN,
Chief Commissioner of Highways,"

was presented for payment and paid.

The specifications for this work read as follows:

"The entire wood work to be taken up, stringers, footway, and roadway (excepting that portion occupied by passenger railway tracks). The new stringers to be of the best quality yellow pine, same size as old ones. The footways and roadways to be laid with the best quality three (3) inch white oak planks; new guard timbers on each side of roadway the

entire length, yellow pine, same size as old ones; the gas and water-pipes to be recovered (new), the tops to be put on cross-wise, etc."

With the exception of about thirty feet of new stringers, no new stringers were put in, but the old stringers were turned over.

Footways measure about one thousand two hundred and twenty-four superficial feet, all of which is laid with the old flooring (two-inch hemlock), except about three hundred and ninety feet laid with new two-inch hemlock. No three-inch white oak used at all on footways.

Gas and water-pipe: one not covered and two covered with the tops laid lengthwise instead of crosswise.

Bridge on Church street and Little Tacony creek, Twenty-third Ward. Special specifications for this bridge call for "new stringers and entire new deck."

No new stringers were put in this bridge, and no repairs done to footways

Bill for this work rendered June 30th, and approved by John Martin, Commissioner Fifth District, and by William Baldwin, Chief Commissioner.

Bridge at Clearfield street and Richmond canal, Twenty-fifth Ward. Special specifications for this work read: "New stringers, entire new deck, and re-cap wing walls."

An examination shows that twenty-six of the old stringers and twenty-one of the old planks were left in the bridge by the contractor, and what new plank were put in were eight to sixteen inches short, making it dangerous to drive over; wing walls not covered.

Bridge at Alleghany avenue and Richmond canal, Twenty-fifth Ward. Special specifications call for "new stringers (on sidewalks), entire new deck, and re-cap wing walls."

An examination of this bridge shows that the entire deck is old plank, except forty-five new plank. The old plank were turned over, and many of them very rotten and so short as to make it unsafe. The wing walls are poorly covered with third common rough boards.

Bridge at Alleghany avenue and Gunner's run, Twenty-fifth Ward. Special specifications read: "To be extended

twenty (20) feet wider on the north side, rebuild walls, new stringers, entire new deck, and new guard rails."

An examination of this bridge shows six new stringers under roadway, the remainder old; some hemlock plank used.

Bridge on Powder Mill lane, south of Frankford creek, Twenty-fifth Ward. Special specifications read: "New stringers, entire new deck, and new guards."

An examination of this bridge shows that only six new stringers have been put in; the remainder are all old and decayed. The deck shows nine old plank.

Bridge at Somerset street and Gunner's run, Twenty-fifth Ward, or Somerset street and Richmond canal (known under both names). Special specifications read "new stringers, new deck, and re-cap the wing walls."

An examination of this bridge shows that of the footway on the north side about one-third is new and the remainder old material; footways on the south side about two-thirds new and the remainder old; stringers under footways part new and part old; plank very poorly put down.

The bill of William H. H. Achuff for repairing bridges in the Twenty-fifth Ward, which includes all the bridges in that Ward heretofore mentioned and others not mentioned, has been approved by the Commissioner of the Fifth District, and also by Theo. Vanderslice, who signs his name as Assistant.

Bridge at Frankford creek and Orthodox street. General specifications for the Frankford District include all bridges on the line of "Frankford creek," and say that they are to be repaired and kept in good order during the year 1882. We have certificates stating that above bridge is in a very bad condition, and not safe to drive over. The bill for the work has been approved by the Commissioner of the Fifth District and by the Chief Commissioner.

7. "With one or two exceptions, repairs to all the bridges have been made in such a way as to defraud the City, and by reason of proofs furnished by this Committee payment of the bills has been stopped on most of them."

There are twenty-five or thirty bridges included in the general and special specifications for repairs to bridges in the Twenty-third and Twenty-fifth Wards. It is not necessary for us to enumerate them all. The eight bridges heretofore

spoken of may be taken as a fair sample of the work done on all, with some few exceptions.

Bridge at Bridge street and Frankford creek in Frankford District. Special specifications read "new stringers, repair deck, and guard piles in the creek."

Piling not properly repaired; old, broken, and rotten piling left standing, and timbers spiked or pinned fast to old ones instead; no new piling driven; stringers rotten, and only one new short one put in; two new joists put in, others rotten; no support for the side railing, as, the stringers being rotten, the watchman was obliged to nail the uprights for the side railing to the flooring; wing walls not covered, the old cover being rotten has fallen off; one plank on roadway rotten and liable to give way at any time.

Girard avenue bridge. The specifications for painting Girard avenue bridge read as follows:

"All floor beams, rods and I beams, and hand railing on footways (underneath) to be well scraped and cleaned, and all joints well filled in with paint, using nothing but pure white lead for priming. The whole bridge to have two coats of color (similar to the old), nothing but original tints to be used." In mixing the colors no umber, sienna, nor any burnt tints to be used. Nothing but the best materials to be used.

"The work to be finished in a workmanlike manner, on or before July 1, 1882, subject to the approval of the Chief Commissioner of Highways."

"(Signed)

WILLIAM BALDWIN,
Chief Commissioner of Highways."

"N. B.—No gilding required. The underneath part of the bridge to receive one coat of priming and two coats of color."

"(Signed)

J. H. CLIFTON."

These specifications and the contract were not placed in the hands of the Controller until several days after the bills were presented.

On or about September 16th, a bill bearing that date against the City of Philadelphia, and in favor of J. H. Clifton, the contractor, for the sum of \$5,500 was presented to the Con-

troller. This bill was sworn to by the said Clifton as being correct, and was approved in the following manner :

“The above-mentioned work has been done in strict accordance with specifications.”

“WM. MANEELY,
Commissioner, Third District.

“Approved, WILLIAM BALDWIN,
Chief Commissioner of Highways.”

On an examination of this bridge we find that, of the iron work below the main deck, a large portion has received only one coat of new paint, and in some places the cross braces have not been newly painted at all ; the outside railing on the south side of the lower footway has received but one coat ; under the lower footway the iron joists have received no new paint, but shows the original color as before the bridge was painted. If there has been any scraping done at all it has been very little.

8. “Bills were presented this year as usual by some favored contractors. The Chief Commissioner having publicly stated that they had done their work well. Our Committee has been furnished abundant proof that very little work has been done, and none of it of the quality required in the contract.”

The specifications for repairs to paved streets read :

“To keep in good order and repair during the year 1882, all paved streets in the ——— Ward. Also, all the streets in said Ward to be thoroughly repaired before the first payment. Payments, one-half on July 1, 1882 ; and one-half on December 30, 1882.”

Note—See also specifications as to gravel to be used for bed and cover.

On July 1, 1882, our Committee received a report from Mr. Addis that the contractors had done very little repairing to paved streets in any Ward in the City, and no contractors were entitled to their pay for repairs to unpaved streets, roads, and bridges, with the exception of two, viz., for the Bustleton

and Germantown Districts. A few days afterwards bills were sent in for work in these two Districts, and the contractors received their money.

On July 21st, three bills were sent into the City Controller, viz., one in favor of contractor Sam Young for repairs to paved streets in the Twenty-third Ward, dated July, amounting to \$887.56; one in favor of contractor W. B. M. Conklin, for repairs to unpaved streets, roads, and bridges in Frankford District, and dated June 30th, amounting to \$1,185.00; and one in favor of the same party for repairs to unpaved streets, roads, and bridges, in the Twenty-first Ward, dated June 30th, amounting to \$1,335.00. These bills were all approved by the Assistant Commissioners of the District and by the Chief Commissioner of Highways. On July 24th, Mr. Addis reported that the contractors were not entitled their pay, as very little work had been done since his last report, and the streets and roads were in bad condition. On the same day the Controller sent the following communication to Mr. Baldwin:

“WM. BALDWIN, ESQ.,

Chief Commissioner of Highways:

“The enclosed bills are returned without my approval, with the complaints made to this Department. They are referred to you and the General Highway Committee for investigation.

“Very respectfully,

“ROBT. E. PATTISON.”

About August 9th, the Sub-Committee of Councils on Highways, having previously, as we understand, passed a resolution not to consider the payment of any bills for repairs to streets until the Assistant Commissioner of the District had reported a Ward finished according to contract, and Mr. Joshua Nuttall having reported the Nineteenth Ward finished, and Mr. John Martin having reported that the Twenty-third Ward was finished, and the bill for which had been previously approved in July by Chief Commissioner Baldwin and Assistant Commissioner Martin, the Highway Committee resolved to visit those two Wards, which they did, in company with the Chief, on the following day, the 10th. On arriving in the

Nineteenth Ward the condition of some of the streets was found to be so bad that Mr. Monroe at once declared that it was impossible to approve of the bills for the work. The Committee then proceeded to the Frankford District, and were escorted by Chief Baldwin and Assistant Martin over certain portions of the Ward. Mr. Baldwin pronounced the work well done, and the Committee agreed to approve the bill. On August 12th, Mr. Monroe, who, in the meantime, had learned that he had not seen some of the streets of that Ward that he should have been shown, again visited Frankford, and drove over the streets in company with Mr. Addis and a Committee of Citizens of the Ward, spending about three hours in examining them, finding the streets, many of them, in a wretched condition, and being satisfied that he had been deceived in his former visit.

On this occasion the visiting party found that the streets had been patched in numerous places that day and within a day or two previous. They also found a gang of men at work on the streets on that day. They found also that the men were using loam taken from a bank alongside the street to repair the street with in the place of gravel. What occasion was there for this work if the streets had been in thorough repair when inspected two days before?

After this inspection, the result of which was made public in the daily papers, the bills for repairs to streets for this or any other Ward have not been sent in up to September 24th, when Contractor Young again presented his bill to the City Controller for repairs to streets in the Twenty-third Ward, approved by Chief Baldwin and Assistant Martin. Mr. Addis, in company with others, again made an examination of the Ward, and found the streets in very little better condition, if any, than they were on August the 10th, and the contractor certainly not entitled to his pay, all of which has been reported to Controller Pattison.

From the reports of our Inspector, who has been constantly employed in examining into the condition of the streets over the whole City, and supported as those reports are by certificates from four or five hundred respectable citizens residing in various parts of the City, we feel warranted in asserting that none of the contractors, who are still unpaid for repairs to the streets, are entitled to their pay under their contracts.

9. "Bills for these contracts, payment of which has been stopped, amount to about fifty-one thousand dollars."

Had no investigation been made by our Committee, and had no protests been entered against the payment of these contractors, bills for the whole amount due the contractors July 1st, would undoubtedly have been presented and paid, notwithstanding the non-fulfillment of their contracts. The amount remaining unpaid for work that should have been done in July, aggregates upwards of \$51,000.

10. "Mr. Baldwin called the Sub-Committee of Councils on Highways together and denounced our Inspector, and advocated the approval of the bills."

For proof of these assertions we refer you to the remarks made by Mr. Baldwin at the meeting of the Sub-Committee of Highways, held August 8, 1882, which are reported in the *Public Ledger* of August 9th, as follows :

"Individual Responsibility."

"Mr. Baldwin—I trust no member of this Committee will think of resigning. Wherever I approve a bill I make myself individually responsible for that approval. I want this Committee to act in conjunction with me. But when I approve a bill I am responsible, and my securities are responsible, and if I have approved it improperly, let the people who disapprove take the matter into court. I do not pay any attention to Mr. Addis. I have had such people as him to contend with ever since 1876, and I pass them by as I would the winds. I know my duty, I am doing it, and propose to do it as long as I stay here. I have never yet approved a bill that has not been paid."

11. "The conclusion forced upon this Committee, as a result of four months of investigation, is that the Department of Highways is disgracefully mismanaged. The Chief conducts the business of the Department as though he were the agent of the contractors, paid to look after their interests before those of the City whose officer he is."

In support of this declaration we respectfully refer you to the action of Mr. Baldwin, who, instead of vigorously compelling the contractors to perform their work, has interfered in their behalf to help them obtain their pay when he had full knowledge of their delinquencies, and when it was notoriously the fact that they had not done their work according to contract. Witness his appeals to a member of this Committee in 1881, to induce that gentleman to withdraw his protest against the payment of the Marks contract. Witness his letter to the Controller in the same year, urging the payment of the same contract, when it was notorious that many of the streets had not been repaired at all, and more of them were in a very bad condition. Witness the position taken by Mr. Baldwin before the Sub-Committee of Councils on Highways, when he assumed to discredit the reports of our Inspector and advocated the payment of the contractors' claims on the ground that their work was properly done.

12. "Mr. Baldwin retains in his service men whom he knows to have made false and fraudulent reports to him. Some of the Assistant Commissioners and Measurers are unworthy of confidence."

Upon this subject it appears to us that there can be no doubt. Take, for instance, the laying of old crossing-stones at Twenty-fourth, Twenty-fifth, Twenty-sixth, and Twenty-seventh, and Huntingdon streets, the contractor presenting a bill for new stones. (See Dan'l McNichol's bill, of May 7, 1882.) Mr. Baldwin learned of this case through the Controller, in the latter part of May. He knew then that his Assistant Commissioner, Wm. H. Maneely, and his Measurer, Michael B. Andress, had approved a fraudulent claim against the City, and yet he retains both these men in his employment; Mr. Joshua Nuttall, another Assistant Commissioner, approved the work of contractors for repairs to streets in the Nineteenth Ward, but the wrong to the City was exposed when the Highway Committee visited that Ward and found many of the streets in miserable condition. Mr. Baldwin still retains Mr. Nuttall in office. In July, 1882, Mr. John Martin approved the bill of the contractor for repairs to streets in the Twenty-third Ward, Frankford District, Mr.

Baldwin knows very well that the work in that District was not done according to contract, because he refused to permit the contractor to take his bill in to the Controller until Saturday, September 23. John Martin, Assistant Commissioner for this District, on the 30th of June, approved the bill of William B. M. Conklin for repairs to unpaved street roads and bridges in the Frankford District, when there was scarcely a bridge repaired according to contract, and yet John Martin is an Assistant Commissioner to-day.

On June 30, 1882, Wm. H. Maneely approved the bill of Wm. B. M. Conklin for repairs to unpaved streets, roads, and bridges in the Twenty-first Ward. And yet it is such a notorious fact that the contractor had not done his work according to contract that the bill remains unpaid to this day. Mr. Maneely is still Mr. Baldwin's Assistant Commissioner.

13. "That many contractors use every possible device to slight their work."

We have reliable information that, for repairs to streets, gravel of very inferior quality is largely used; that in some cases loam is used in place of gravel; that ashes are used in place of gravel; that stones are placed in the street without any bedding; that in places the stones have not been moved at all, but one or two inches of gravel spread on top to make it appear as if the street had been repaired; that in some places the stones are insufficiently rammed, and, in others, not rammed at all. Crossing-stone work shows that stones deficient in measurement and quality are largely used. The utter disregard of specifications for bridge work; substitution of old material when contracts require new, and the generally imperfect character of most of the work done are abundant confirmation of this charge.

This Committee is in possession of a large number of affidavits and certificates from citizens, corroborative of the statements herein made, all of which are open to your Committee on Investigation.

Acting in the belief that large sums of money have been improperly drawn from the public treasury under sanction of the Chief Commissioner of Highways, this Committee has engaged attorneys to investigate in that direction. A short

examination has revealed enough to confirm our suspicions and show that not only has money been drawn in violation of law, but bills palpably fraudulent have been presented and the Chief Commissioner has urged the payment of money that had not been earned, against the opinion of the City Solicitor that its payment would be illegal.

In support of this we submit the following report made to this Committee by the legal gentlemen employed to search for such proofs as could be obtained by an examination of the Controller's records :

REPORT

Of an examination of the records of the office of the City Controller in as far as they relate to the administration of the Highway Department by Chief Commissioner of Highways, William Baldwin.

Philadelphia, October 2, 1883.

To the Chairman of the Committee on Municipal Abuses.

After a careful examination of such records as the courtesy of the City Controller placed at the disposal of your attorneys, they have reached the conclusion that in at least three classes of cases these records show there has been either inexcusable irregularities, gross negligence, or corruption in the administration of the Highway Department under Wm. Baldwin, the now Chief Commissioner, namely: (1) In making contracts and drawing warrants in excess of the appropriations therefor. (2) In drawing warrants in excess of the amount of indebtedness on the part of the City to creditors of the Highway Department, and issuing warrants for debts already paid by previous warrants. And (3) In uniformly allowing contractors large sums in excess of the sums due them, contrary to and in violation of the law. Before referring to the evidence which has driven us to these conclusions, it is deemed necessary to express some regret that while the Controller has refused his consent to a great number of warrants, an explanation of his grounds of non-approval has been obtainable in but few cases, as the transaction of business between the Departments was usually carried on in person rather than by correspondence; and how earnestly

this is to be deplored can be realized when it is remembered that in no case where a history of the transaction has been traced, has the Chief Commissioner's Department been free from what it would be mincing terms to call gross negligence, and what would be probably more justly described as a higher offense. However, it is submitted that the cases which a fortunate chance has preserved upon record may fairly be considered as just samples of the whole, and that the story which the other warrants could tell would be no less damaging.

1. To take up the first class of cases above referred to—*i. e.*, where contracts have been made or warrants drawn in excess of the appropriation—the following instances are cited :

First.—Warrant No. 1969, of 1878, dated August 29th (see Controller's Minute Book, page 295). A warrant was in this case issued to Samuel Ogden, Jr., for branch sewers (Item 20) for \$444.75; although the credit to this item, and the whole sum for which the Chief Commissioner could lawfully issue warrant, was but forty-one dollars and nineteen cents. Had not the Controller's vigilance detected the fact, the loss to the City would have been \$403.56.

Second.—Warrant No. 1296, of 1878, dated June 1st (see Controller's Minute Book, page 283). The warrant was in this case issued to C. Y. Lauderbach for repairs to bridges (Item 7), for the sum of \$500. This warrant was in part payment of a contract to repair bridges, amounting to \$2,500. The balance remaining to the credit of this item, and the amount beyond which it was unlawful for the Chief Commissioner to contract, was \$1,731.84. The whole contract being illegal, a partial payment was refused. Lauderbach substituted a contract for \$1,700, which he subsequently collected. Had the Chief Commissioner succeeded in obtaining the Controller's assent to this contract, the loss to the City would have been \$800.

Third.—Warrant No. 897, dated April 6, 1878 (see Controller's Minute Book, page 274). The warrant in this case was issued to Charles Darragh for the sum of \$3,244.80. There was no appropriation for this work at all in 1878. The work having been performed in 1876 could, under the

law, be paid from the appropriation of that year alone, and in case of failure to then pay for it, its payment could only be obtained by a deficiency appropriation in 1877. The Commissioners' act, therefore, in drawing this warrant was, under the circumstances, but an illegal attempt to draw \$3,244.80 from the City Treasury in order to benefit a contractor.

2. As to the second class of cases—*i. e.*, where warrants were drawn in excess of the City's indebtedness, or for debts already paid—the following instances are cited :

First.—Warrant No. 317, of 1879, dated February 11th (see Controller's Minute Book, page 327), for the sum of \$94.25 ; was issued to Wm. M. Humphries for oil, although Mr. Humphries had been paid by a previous warrant, approved by the Controller.

Second.—Warrant No. 925, April 19, 1878 (see Controller's Minute Book, page 275), was issued to the *Sunday Transcript* for \$45.20. As it also included items previously paid, approval was refused.

Third.—The most flagrant instance of the grossest negligence, so often repeated as to justify the gravest suspicions, was in the drawing of warrants to pay various City papers for advertising. In numerous cases the whole sum due was obtained by adding the several bills ; this gross sum was then placed on the back of the outside bill ; the other bills were then a second time added to their gross sum, and a warrant was so drawn for double the amount actually due from the City. It is thought that the letter of the official whose care protected the City from loss, to the Chief Commissioner, may be of sufficient interest to warrant its incorporation in this report.

DEPARTMENT OF THE CITY CONTROLLER,

Philadelphia, February 9, 1882.

WILLIAM BALDWIN, ESQ.,

Chief Commissioner of Highways.

MY DEAR SIR:—Several bills sent to this department for advertising were audited by the clerk, separately, and his ap-

proval endorsed upon the back. When, however, the bills were returned with the warrants bunched together, there is a very serious error. I am at a loss to know how such a mistake could have been repeated in so many different cases, namely ; Warrant No. 96 contained two bills charged twice, \$7.60, \$3.90—in all \$11.50 ; Warrant No. 98 contains eight bills charged twice, \$2.40, \$5, \$6.40, \$6, \$5.40, \$5.60, \$7, and \$38.80—in all \$68.60 ; Warrant No. 100 contains one bill charged twice, \$24 ; Warrant No. 113 contains eight bills charged twice, \$4.40, \$1.90, \$5.40, \$5, \$5, \$4.90, \$6, and \$3.70—in all \$36.30 ; Warrant No. 116 contains two bills charged twice, \$19.20 and \$5.50—in all \$24.70 ; Warrant No. 117 contains three bills charged twice, \$8, \$7.60, and \$7—in all \$22.60 ; Warrant No. 121 contains one bill charged twice, \$27.10 ; Warrant No. 122 contains two bills charged twice, \$5.70 and \$3.90—in all \$9.60. In Warrant No. 132 a bill of \$17.40 is entirely omitted. In all there is an overcharge of \$224.40 ; deducting the bill omitted, \$17.40, there still remains an overcharge of \$207. These warrants are of course returned without my approval ; and permit me to say, while the auditing department tries in a measure to perform its work correctly, it should not be called upon to correct such gross errors as have been made in the above bills.

Very respectfully,

ROBT. E. PATTISON,

City Controller.

3. In sustaining the third charge, as we depend upon the acknowledgments of the Chief Commissioner himself, it is necessary to give a correspondence in full between the City Solicitor, the City Controller, and the Chief Commissioner himself. The following letters are on file in the Controller's office :

ROBT. E. PATTISON,
City Controller,

MY DEAR SIR:—In reply to your letter of this date, inquiring whether, by the contract you enclose, between the City and Joseph Conklin for construction of sewer on Hancock street, extra can be charged for rock excavations, I beg leave to say that the only payments to which Mr. Conklin is, in my opinion, entitled are, \$20 for each manhole, and \$1.79 for each lineal foot of sewer constructed, including in such construction excavations of all kinds, *whether rock or otherwise.*

Yours truly,

W. NELSON WEST,

DEPARTMENT OF HIGHWAYS,

Philadelphia, May 18, 1878.

ROBERT E. PATTISON,
City Controller.

MY DEAR SIR: Yours of this date, with communication of City Solicitor, is at hand; in reply would say that it has always been the custom to allow for rock excavation when, in the judgment of the Commissioner of Highways, it was deemed just and proper. The contract in question was made last year. At the beginning of the present year I determined not to allow for rock in any case, and made such announcement at the time bids were opened, so that contractors for building sewers would so understand it. I am glad this matter is finally settled, as Conklin has been a great annoyance to me, so much so that I have *determined* to give him no more work, though I believe in *this* case he is entitled to this extra compensation, but do not doubt that your action in the matter is correct.

*Mr. Conklin has a very warm friend in the person of Wm. Bumm, Esq., he having called at my office several times in relation to this matter.** Please return warrant sent to your office that it may be cancelled, and oblige

Yours respectfully,

WILLIAM BALDWIN,
Chief Commissioner of Highways.

It is worthy of note that this letter was written to a young and untried official, successor of Samuel Hancock; that until that time the Chief Commissioner confesses that he has

* The Italics are ours.

habitually given sums of the City's money to contractors, without warrant of law, and although the terms of the contract did not call for such payments. Notwithstanding the opinion of the City Solicitor as to the unlawfulness of such payments, and his own assertion that he had voluntarily abandoned them at the first of the then year, he pleads for the payment of this money which he knows to be unlawful, and that, also, to a contractor whom he describes as troublesome. He then suggests that which was entirely irrelevant in a correspondence, as to what the City should pay, and which could have no sense unless inserted as a means to induce the Controller to violate his duty and approve the warrant, to wit, that the contractor had a warm friend in a powerful local politician, and then winds up with the assertion that "he had called at his office several times in relation to this matter." To sum up, this letter acknowledges that the Chief Commissioner had caused money to be drawn from the City Treasury unlawfully, and at his mere discretion in excess of the contract demand. In it he pleads for the justice of such payment, although he had the letter of the City Solicitor before him, proving that it would be a theft to take one dollar of the money claimed. And while he hedges by many contradictory expressions, he introduces entirely irrelevant assertions which could have no explanation but in the supposition that it was his intent to try the integrity of an official who had prevented his attempted unlawful draught upon the City's funds.

Respectfully submitted,

GEORGE H. EARLE, JR.,

THOMAS EARLE WHITE,

Counsel for Committee.

We do not consider it incumbent upon us to do more than establish the fact that the perpetration of fraud has been attempted, and to point the way to further investigation, but the result of our work warrants a thorough search into the doings of the Highway Department, and we beg your Committee not to confine its work to the short time covered by our investigations, but to extend your inquiries over at least such a period in the past as is covered by liability upon the bonds

of the officers and contractors of the Department, in order that exposure may be followed by forfeiture and restitution.

Respectfully,

H. W. PITKIN,
THEODORE JUSTICE,
WILLIAM ARROTT,
WILLIAM G. STEEL,

Committee on Municipal Abuses on behalf of the Committee of One Hundred.

TO MR. DAVID WALLACE,

Chairman, and Members of the Highway Committee of Select and Common Councils of the City of Philadelphia.

GENTLEMEN:—Your Sub-Committee appointed at the request of Mr. William Baldwin, the late Chief Commissioner of Highways, to investigate certain allegations of mismanagement in the Highway Department during his term of office, in consequence of certain statements which appeared in the daily newspapers of this City on September 13, 1882, taken from the report made to the Committee of One Hundred by its Sub-Committee on Municipal Abuses, having communicated with the Committee of One Hundred, appointed October 4, 1882, as a time of meeting; when the Committee of One Hundred through their Sub-Committee submitted to your Sub-Committee for their consideration a summary (hereto annexed) of the facts from which the said statements in the public newspapers were taken, and having at their meeting held October 6, 1882, and at various subsequent adjourned meetings, examined sixty-eight witnesses presented to them, whose testimony covers over twenty-one hundred pages, respectfully report.

That from the testimony produced before them it appeared that the said Sub-Committee on Municipal Abuses having been informed that the contractors for the Highway Department were doing very little work under their contracts, and not complying therewith, and having made a personal inspection of some of the districts, and finding that it would require the constant and undivided attention of a person of experience, and being satisfied that there was sufficient evidence to justify them in so doing, they employed in the spring of

1882, Mr. T. B. M. Addis, as their agent and inspector, whose reports to that Committee resulted in their report to the Committee of One Hundred above mentioned.

Your Sub-Committee having taken the testimony of all the witnesses produced (some of the persons named to them as witnesses having refused to appear and testify, although properly subpoenaed), present the result of their investigation for your consideration, which, for convenience, they have arranged and classified as follows :

Marks Contract.

We find that the charges made in the summary relating to the Marks contract for repairs to pave streets for the Sixth District for the year 1881, are fully sustained by the testimony.

Crossing-stones.

The contract for crossing-stones for 1882 was awarded to Daniel McNichol; which required all crossing-stones furnished by him to be five inches thick, and the sizes to be twenty-four, twenty, and sixteen inches in width; the sixteen-inch stone to be of the quality known as "Belgian Bridge."

Under this contract, crossing-stones were ordered and laid in each of the six Districts; the bills were approved by the Chief Commissioner, and the Assistant Commissioner of the respective Districts and sent to the Controller for payment, which was objected to because the stone laid at certain places was not in accordance with the specifications.

We find from the testimony, some of the stone were broken --sixteen-inch furnished for twenty-inch--some very rough on the surface, a few old stones placed and charged for new. The sixteen-inch were of very bad quality, a large proportion of the sixteen-inch and some of the larger sizes being only two and a half to three and a half inches thick; none of the sixteen-inch being of the quality known as "Belgian Bridge."

In the Third District at intersections of Twenty-fourth to Twenty-seventh streets, across Huntingdon street, 796 $\frac{1}{10}$ feet of old stone were laid and charged at full rates as new stone, and approved as such by the Department, which were objected to, and referred by you to a Sub-Committee who made a

deduction of five cents per foot for the difference between the old and new stone.

The bad, broken and imperfect stone were replaced by new and good stone in most instances, and others properly relaid by the contractors after objections made.

The old crossing-stone and cubical blocks on Third street, from Walnut to Arch street, were hauled away by the contractor as alleged, but we find under the contract he was to have them.

A large amount of crossing-stone was laid in different sections of the City on streets occupied by street railway companies, during the year 1882, and charged indiscriminately in the various bills presented, and approved by both the Department and Controller.

Repairs to Bridges.

Richmond Street and Gunner's Run Bridge.

With reference to the repairs to this bridge, the Committee find the allegations were fully sustained. It being admitted by the Assistant Commissioner, Mr. Nuttall, that old material was used when the contract called for all new lumber; his explanation being that when the work was being done he made objection to the contractor, who said the Chief had authorized the use of the old material, and he then stopped the work until he saw Mr. Baldwin, who said he told the contractor if the old timber was good he might use it in place of the new, and after that he made no further objections.

Bridges in the Twenty-third and Twenty-fifth Wards.

The special specifications for these bridges were drawn by Mr. John Martin, Assistant Commissioner, who, after much hesitation, during his examination, reluctantly admitted that as used therein the words "new stringers," meant all the stringers on the bridge; "entire new deck," meant the entire deck footway and roadway; and "new guard railing," meant all the railings were to be new.

Your Committee find the statements made in the summary correct, and fully sustained by the testimony.

In reference to Cedar street bridge over Gunner's run, in

the Twenty-fifth Ward, your Committee find it was repaired under special contract by Samuel Young in February, 1882, yet afterwards included in the special specifications for the whole Ward; and after being put in good repair, was within a few months torn up and a new deck put thereon.

Some new and some old hemlock plank were placed in the new decks on the different bridges in the Twenty-fifth Ward contrary to the specifications. The Harrowgate lane bridge south of Fishers' lane, had no work done upon it, although certified by the Assistant Commissioner as fully repaired.

The bills for this Ward were approved by the Assistant Commissioner, but not by the Chief.

As to the bridges in the Twenty-third Ward, the statements are correct.

On the Church street bridge the new deck was laid on top of the old deck, and the footways upon this; the Oxford street and Orthodox street bridges were of old plank. The bills for this Ward were approved by the Chief Commissioner and the Assistant.

Girard Avenue Bridge.

A large amount of testimony was taken with reference to the painting of this bridge, and the allegations in the summary very fully sustained by the evidence produced. In fact, these were afterwards partly admitted by the contractor who notified the Committee in writing he would finish the work in accordance with the contract.

Repairing Paved and Unpaved Streets, Twenty-third Ward.

In reference to this Ward, the Committee having heard the testimony of a large number of reputable witnesses on both sides, find the paved streets in several places as enumerated by the witnesses were not in good condition, but full of ruts and holes, bad and dangerous to travel. These streets, however, were paved with rubble pavement, and there was a conflict of testimony as to whether with the material used they could be put in good order and condition without repaving the whole street. Some of the holes called water breaks were made by introducing water, and many were alleged to have been in that condition for over a year and unattended to.

Unpaved Streets and Country Roads.

Some twelve of the country roads and unpaved streets, as enumerated in the charges, were not in the condition they should have been under the contract; in many places they were lower in the centre than on the sides, the gutters not being open, and the water running down the centre of the street.

Twenty-first Ward.

The testimony with reference to this Ward shows that a number of the streets were not in good order and repair at the time the bills were sent in, and so admitted by the superintendent. Some were explained as having been recently graded or about to be graded; and upon the promise of the contractor to proceed immediately and put the others in good order, the Superintendent approved the bills. The work was afterwards done, the objections removed and the bills paid.

The summary is found to be substantially correct.

Nineteenth Ward.

Objections were made to the bill for this Ward, which had been approved by the Chief Commissioner and the assistant. The testimony showing some of the streets had not been repaired, was admitted by the assistant, who, being sick at the time, and unable to go over the whole Ward, had approved the bill, relying upon the statements of others.

Twenty-fifth Ward.

Under the contract for this Ward for 1882 Mr. Achuff employed Thomas Dolan to repair the dirt roads with his patent machines, which he did. Mr. Achuff, notwithstanding the repeated demands of Mr. Dolan, was unable to pay him in consequence of objections to his bill, and he applied to the Chief, who said he would try to get the Highway Committee to pass the bill and charge it to his (Mr. Achuff's) account. The Chief then took the bill and had a new one made out against the Highway Department instead of Mr. Achuff, charged as above. It being stated to the Committee that this was for

days' work done for the Department in Mr. Achuff's district to put it in proper order. The bill was accordingly passed by the Committee and paid, being approved by the Chief and the assistant as work done for the Department thus enabling the contractor to obtain part of his money when the whole bill was objected to.

General Repairs.

Evidence was given showing the streets throughout the City were in bad order and not repaired when the first payment became due, July 1, 1882, and the Chief with few exceptions, refused to approve the bills; and yet he allowed this condition of affairs to remain, neither forfeiting their contracts nor forcing them to comply therewith; the bills were withheld till the latter part of December, when with but slight reductions, in most cases made by the Highway Committee, bills for the whole amount of the contracts were approved.

Cleaning New Market Street Sewer.

H. G. Clement contracted to clean out a sewer on New Market street, from Willow to Noble street, in June, 1877, by day's work. Three bills therefor, amounting to \$1,232.75, were approved by the Department. The sewer is about 400 feet long, 3 feet in diameter, and 10 feet under ground.

An eye witness testified the only opening in the street was a hole not over 15 feet long, and travel was not impeded thereby; only a small part of the dirt was taken out of the hole, the major part being pushed down into the main sewer, and carried into the river.

This cost the City over \$3.00 a foot, although a new sewer could then have been built for about \$2.50.

The Chief Commissioner admitted that it was the general custom of the Department to disregard ordinances which, in his judgment, were not necessary for the conduct of the Department; mentioning, particularly, ordinance of December 7, 1874, Section 11, requiring a copy of all contracts having relation thereto to be given to the respective Commissioners of each district for their information and guidance.

In no instance had he ever given a copy of a contract to any of his assistants; when separate specifications were attached to the contracts, a copy of them was given, but when embodied in the contract the assistants received nothing.

The ordinance of June 12th, 1868, requires the sale of old crossings, cobble, and other materials on streets repaved with new materials. The city considered them of no value and the contractor was allowed to carry them away or they were expressly given to him in the contract. But we submit that as an executive officer the head of a department should recognize and execute all ordinances in force relating to his department, until repealed by Councils.

The report made by Messrs. Earle, Jr. and White, counsel for the Committee on Municipal Abuses, printed in their summary, was admitted as evidence by the Chief without requiring the production of documentary proof; he stating he could satisfactorily explain everything in the report which, in consequence of his sudden and unexpected decease, was not done, and the matter being thus left unfinished your Subcommittee refrain from passing upon it.

Re-Trapping Inlets.

In 1879, H. G. Clement contracted to re-trap inlets for \$20.50 each; some were done by other contractors by special orders from the department. The only way to re-trap inlets shown by the evidence is to dig down in front, take out a portion of the masonry, and repair the trap, which requires about three days' work of two men.

An iron inlet cannot be re-trapped at all. When out of order it must be removed.

A special order was given to R. S. Cooke to re-trap a solid iron inlet at Germantown road and Jefferson street. He examined it for a few minutes and closed the top, for which he received \$30. Other iron inlets were ordered to be re-trapped and were charged for and paid to other parties.

H. G. Clement presented bills for re-trapping many inlets, and the manner the work was done, as shown by the evidence, was about as follows:

A party went to the southwest corner of Fifteenth and Wallace streets, raised the lid of the inlet, looked down, and

took off the top; then a man with a bucket of mortar went down and plastered the sides, a foot or so from the top, came out, closed the lid and went off. They did not take up any portion of the inlet, or of the street in front. The whole operation never taking more than half an hour and often only fifteen minutes.

Numerous instances of this kind were testified to by an eyewitness, the full contract price being charged in each case.

Norris Street Grading and Paving.

William B. M. Conklin contracted to grade and pave the sidewalks on Norris street, between Fifteenth and Sixteenth streets. The work amounted to \$356. To bring this within the ordinance, allowing the Chief to order work done, not exceeding \$100, it was divided into four separate contracts and four separate bills made out, approved, and paid. No gravel was put under the bricks, which were laid in the natural clay soil. The bricks were old and very badly worn, and were taken from an old market house.

Richard Cunningham contracted to curb Fifteenth street, below Norris through the cemetery, and for this the City was responsible, the material to be of the very best kind and quality. The evidence shows that the curb stones when laid were old, worn out, smooth and entirely unfit for use and badly set.

Mandamus Cases.

In the course of the investigation a memorandum was presented of a large number of suits against the City of Philadelphia, upon alleged claims for work done and materials furnished, brought in the years 1875, 1876, and 1877, amounting in the aggregate to about \$900,000, upon which judgment was confessed, or suffered to be taken without defence by the then City Solicitor, and a mandamus immediately issued thereon, and paid.

Bills of particulars of some could not be found of record in the Prothonotary's office; a few, however, were produced before your Sub-Committee. The largest number were for

grading and repaving old streets. Bills were made out, accompanied by the certificate of measurement of the Surveyor of the District, and approved by the Chief and Assistant.

These were based upon contracts with the Chief, upon the following terms:

For repaving streets, 40 cents a yard.

For grading streets, 25 cents a *superficial yard*.

Stone to be paid for extra, at \$2.50 a load.

The work was not advertised for, but given out at the highest prices allowed by ordinance.

The contract called for grading by superficial yards, or *grading in the air*, as one of the witnesses described it, without any regard to depth. In each of the bills the same amount is charged as there were yards of repaving. The grading was not charged in the bills as superficial yards, but charged in the regular way, this appearing as cubic yards, as though three feet of earth was taken off and the grade changed; but the testimony shows that in no instance was the grade changed, and the surveyors who made the measurements, having never before given measurements other than for cubic yards, refused to allow the grading under superficial yards until directed by the Department to measure this grading in that manner.

The testimony shows the price paid for repaving was sufficient to cover the whole cost of both grading and repaving.

Suits were brought upon these claims, judgments confessed by the then Solicitor, and the money obtained by mandamus from the City Treasury.

This testimony applies to the following suits and localities:

The suit of Joseph R. Ash, plaintiff, against the City. D. T., '76. C. P., No. 4. No. 1015. Eighteenth street, from Montgomery avenue to Berks.

William F. Miskey, vs. The City of Philadelphia. D. T., '76. C. P., No. 4. No. 277. Eighth street, from Diamond to Susquehanna avenue; Camac street, from Berks to Norris street; Thirty-first street, from Girard avenue to Thompson; Thirty-first street, from Thompson to Master; Thirty-first street, from Master to Jefferson; Columbia avenue, from Twenty-seventh to Twenty-eighth; Columbia avenue, from Twenty-eighth to Twenty-ninth street; Thirty-second street, between Thompson and Master; Master street, between

Thirty-first and Thirty-second; Thompson street, between Thirty-first and Thirty-second; Locust street, between Ninth and Eleventh streets.

Charles Porter against the City of Philadelphia. C. P. No. 2. Market street, between Front and Delaware avenue.

Crossing-stone, costing \$137.26 delivered at Broad and Tioga streets intersection, cost \$150 to set them, or a little less than 44 cents per foot for setting was charged in the last-mentioned suit.

Suit of William May against the City of Philadelphia. S., '77, No. 37. C. P. No. 3. Judgment for \$12,410.58 for cleaning out the culvert on Twenty-fourth street, and on Pennsylvania avenue, from Twenty-fourth and Callowhill streets to Thirty-second and Thompson streets. The sewer from Twenty-fourth and Callowhill streets to Thirtieth street, is ten feet in diameter, and from Thirtieth to Thompson street is three feet in diameter. The amount of labor charged for is 6,605 days, at \$1.50 per day, and 536 days' labor with horse and cart, at \$3 per day, requiring an average of $12\frac{1}{2}$ men to supply one cart.

The plaintiff, Mr. May, testified that he never had any such claim against the City, nor authorized any suit to be brought, nor directed any one to bring a suit against the City in his name. He was only foreman for Mr. Clement during this time, and his name was probably used by Mr. Clement instead of his own. The first knowledge he received of his name being used in the suit was when this matter was brought before this Committee and his name published in the newspapers, and he denies entirely having received the money or any part thereof. The only money that he received was his daily wages as foreman of the work.

The Assistant Commissioner stated that the work had been going on for two weeks in his District before he received any information, and when the bill was first presented he saw Mr. May's name instead of Mr. Clement's, and upon inquiring of the Chief was told it was all right, that it was according to some understanding between Mr. May and Mr. Clement, and he then made no further objections.

Many claims were purchased by parties through the Chief Clerk of the Highway Department as their agent, with whom a check was left—with checks signed in blank to fill up when he had made a bargain with claimants whose claims had been approved but appropriation exhausted. This agency extended from 1875 to 1878.

At the last meeting of the Committee previous to the death of Mr. Baldwin, the late Chief Commissioner of Highways, he requested permission to go on the stand at the next meeting of the Committee, and it was so arranged, but his sudden death unfortunately deprived your Sub-Committee of any explanation or evidence that he might have given on his behalf.

The evidence shows that the contractors, as a rule, performed as little work as possible under their contracts. Their actions in this respect were acquiesced in by the Department officers, their bills for work being approved when it must have been evident and known that the work was not done, and we find that the statements in the main made in the summary, as mentioned above, were very fully sustained.

Your Sub-Committee therefore recommend the adoption by this Committee of the following resolutions, and that they be presented, with this report and the summary, by the Chairman of this Committee to Councils for their action.

All of which is respectfully submitted.

RESOLUTIONS

Upon the investigation and report from the Highway Committee, relative to the alleged mismanagement of the Highway Department under the late Chief Commissioner.

First. *Resolved by the Select and Common Councils of the City of Philadelphia*, That the City Solicitor be and is hereby authorized and directed to at once detail a clerk or clerks, whose especial duties shall be to make a transcript from the records in the Prothonotary's office of all cases during the years 1875, 1876, and 1877 wherein judgment was entered against the City of Philadelphia by confession, default on case stated, or by agreement as aforesaid; and he shall thereupon report to Councils, in tabulated form, before the first of May, the following information in detail in relation to each case:

First. The name of the plaintiff.

Second. The name of the plaintiff's attorney of record.

Third. The Court, term, and number.

Fourth. The date of such suit brought.

Fifth. Date of judgment obtained.

Sixth. How judgment was obtained—whether by confession, by default, or by case stated.

Seventh. The amount of each judgment.

Eighth. Copy of bills of particulars on which each judgment was obtained.

Resolved, That in consequence of the sudden and unexpected decease of the late Chief Commissioner of Highways, Mr. William Baldwin, any further action relating to him is rendered inadvisable and impossible.

APPENDIX No. 339.

RESOLUTION

Of request to the Mayor and Commissioner of Markets and City Property in reference to sale of Almshouse grounds.

Resolved by the Select and Common Councils of the City of Philadelphia, That the Mayor and Commissioner of Markets and City Property be and are hereby requested to advertise and sell at public auction, all that portion of the Almshouse grounds lying north of South street to the Almshouse line, bounded on the east by property of West Chester and Philadelphia Railroad, and extending west to Thirty-fourth street, as per existing ordinance.

BOARD OF COMMISSIONERS PHILADELPHIA FIRE
DEPARTMENT.*Philadelphia, March 24, 1883.*

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—At a meeting of the Board of Commissioners of the Fire Department held this date, the following resolution was passed:

Resolved, That the lot at the corner of Haverford and Wyoming streets, Twenty-fourth Ward, with a building to be erected thereon, in accordance with plans and specifications submitted, and to be approved by this Board, be designated as a location for a hook and ladder company.

It is a desirable location, and can be had only on a ten years' lease. The lot is forty feet front by eighty feet in depth, which will allow, should it be deemed advisable, the location of a steam fire engine at the same point. It is the intention of the Board to have, in addition to the truck, a hose cart and a fuel wagon located at this station. The Board would respectfully ask the passage of a resolution directing them to lease the above-described property for a term of ten years.

JACOB LAUDENSLAGER,
President.

Philadelphia, March 28, 1883.

To the Select and Common Councils
of the City of Philadelphia.

GENTLEMEN:—The Committee on Prisons respectfully report that since their appointment, they have held numerous

meetings, all which have been well attended. One of the meetings was devoted to the subject of promoting a greater efficiency in the management of the Almshouse, at which some of the members of the Board of Guardians were present. The Committee also visited, occasionally, the County Prison and Almshouse. The Committee believe that quite an improvement has taken place in the management of the Almshouse, in consequence of the active supervision of the Committee. The ordinance requiring bidders to be skilled and regularly engaged in the business, has been complied with. A higher standard of goods, and a better diet list have been adopted. All bids have been received, scheduled, and contracts awarded, in the presence of the bidders. The Committee believe that the Institution could be better managed if the Superintendent was given more executive power over the employees. The Committee would further recommend that the Inspectors of the County Prison should annually make a report of all receipts and expenditures of the Institution, so that the same may be printed in the Mayor's annual message. The Committee would also recommend that the Inspectors of the County Prison, in conjunction with the Managers of the House of Correction, should at once proceed to the selection of a site for the erection of suitable buildings on the House of Correction grounds, to relieve the overcrowded condition of the County Prison.

RESOLUTION

Of request to the Mayor with reference to use of streets as dumping grounds.

WHEREAS, Several streets in the northern and northwestern

parts of the City—many of which have been graded at considerable expense to the City—are being used as dumping grounds by unknown persons,

Resolved, by the Select and Common Councils of the City of Philadelphia, That the Mayor be requested to detail officers in citizens' dress to watch for and arrest parties so violating the law, and to use all proper and determined measures to prevent the commission of such unlawful practices in the future.

APPENDIX No. 351.

RESOLUTION

Of request to the Mayor with reference to trespassing of telephone and telegraph companies upon private property.

WHEREAS, Telephone and telegraph companies have unlawfully trespassed upon the premises of many citizens, and without authority have stretched over or attached wires to their buildings, in many instances their employees doing serious damage to roofs, etc.,

Resolved by the Select and Common Councils of the City of Philadelphia, That his Honor the Mayor be requested to direct the police to use more vigilance in watching such trespassers, and to forthwith arrest them if discovered entering upon private property without written permission of the owner thereof, and in a public manner to notify citizens that such corporations have no right to cross wires over their buildings without their consent.
